Mayor and Mrs. John Sattler Return from Europe

Return Home After Three Months Visit at Former Home of Mayor in Germany

From Monday's Daily—This morning Mayor and Mrs. John P. Sattler returned home after a visit of some three months in Germany where they enjoyed the time visiting the relatives of Mayor Sattler and visits to the cities of the Rhine section of the great German republic.

They departed on the trip to Europe on June 25th, sailing on the steamship "Montclair" from Montreal and arriving at Hamburg, Germany, some eight days later. Here was the first view of the Fatherland for our mayor and the first visit of Mrs. Sattler to the land from whence had come her family many years ago. The contrast of the American cities to that of the great German seaport was noted by the Plattsmouth visitors as they came from the docks to find the many fine hotels that lined the main section of Hamburg to extend to the traveler a hearty welcome to the old world.

The main part of the time spent was in the state of Hessen-Darmstadt where Mayor Sattler first saw the light of day and where his sisters are living, extending to the visitors from the new world that hearty greeting that is so characteristic of the whole souled and splendid residents of Germany. Mayor Sattler has two sisters residing at Erbach, a city comparable to Plattsmouth in size while the third sister resides at Darmstadt, the state capital city, where the population is some 100,000.

In their stay Mayor and Mrs. Sattler were able to take a most delightful opportunity of visiting the points of interest in that section of Germany, visits to the cities of Stuttgart, Coblenz, and Frankfurt on the Main.

The conditions in the country visited was very good, crops being excellent in the agricultural sections where they largely spent the time, but there the wet conditions had checked somewhat the crops, a distinct difference from this country where the year 1930 has marked one of the greatest droughts in history. The people of Germany are suffering from excessive burdens of the war cost but in spite of this fact there was much building and the thrift and industry of the people was fast overcoming the great war handicaps.

Building was one of the chief features of the country where Mayor and Mrs. Sattler visited and new homes, business establishments and other building operations were being carried on a large scale.

Mayor and Mrs. Sattler sailed on September 3rd from Hamburg and on this morning at 7:30 arrived in Omaha, tired with the long trip but cheered with the fact of the hearty greeting that awaited them at home where the children were gathered and where the friends of their happy years were awaiting to greet them.

The diamond mine was also visited but this is very carefully guarded and no one can approach nearer than 300 feet to the mouth.

The city of Hot Springs was found a source of unending pleasure to the Nebraska party, a visit to the Arkansas party was made at Hot Springs, taking in the sights and visiting the bath houses, famous over the world and where there are visitors from all countries to take advantage of the curative waters. The bath houses are marvels in construction and design and includes the cotton ginning mill and a great many other buildings of interest.

There are also many novel places in and near the city including the ostrich farm, the peacock farm, where there were many of the beautiful birds that proudly strut and tempt the visitors. Another place of interest was the alligator farm where the large and small reptiles drew the attention of the visitors and were watched for hours at a time. Gas Franchise Voted the Iowa-Nebraska Co.

City Council Votes in Favor of Measure for the Service for Natural Gas in City

From Tuesday's Daily—The long standing question of the franchise for natural gas service from the Iowa-Nebraska Light & Power Co., was terminated last night at the special session of the city council when the franchise granting the right to this company was passed by the unanimous vote of the council. This action will mean that within a two-week period the service of natural gas will be operative in this city.

The judiciary committee of the city council has been busy in the past two weeks in consideration of the matter of a franchise and the conference with the company officials and the members of the judiciary committee of the council culminated in the measure passed and which gives to the city the opportunity of natural gas at an early day and through a measure that protects in every way the interests of the city and assures a more satisfactory rate at the same time permitting competition, as the ordinance provides for a non-exclusive franchise.

The measure provides that the life of the franchise shall be for the period of twenty years instead of twenty-five as was first suggested, that the company extend their mains free of cost to the consumer 200 feet providing that the consumer will guarantee to take for a one year period and that over this distance the consumer may place his own private line and maintain the same. It is also provided that the company install and maintain without additional cost, suitable meters. It is also provided that in case it shall later be necessary to supply the consumers with artificial gas or oxygen, the company shall govern the operation of the same as with natural gas.

The rates of the natural gas under the franchise passed will be as follows:

First 500 cubic feet used per month, \$2 per thousand cubic feet; next 500 cubic feet, \$1.50 per thousand; next 2,000 cubic feet at \$1.00 per thousand; next 3,000 cubic feet at 75 cents per thousand, and all excess at 60 cents per thousand. The minimum monthly bill to be \$1.00.

Mr. Rea, manager of the lighting company, was present and stated that the rate would be in the first unit twenty cents per hundred and in the second 500 feet this rate would drop to fifteen cents, making the rate \$1.75 per month to the consumer, this being practically the same amount used by the household.

The ordinance was then placed on its second and third reading by its title and passed by the unanimous vote of the council, the motion being made by Councilman Johnson and carried through the measure for gas service.

Councilman Lusbinsky then moved that the city attorney be instructed to dismiss the action started against the Iowa-Nebraska Light & Power Co., to prevent them operating under a former franchise and which are now null and void.

The judiciary committee of the council has labored very earnestly in the matter of securing a just and fair franchise for the city and deserve a great deal of praise for their work, spending the greater part of the past two weeks in the investigation of the differences between their views and the proposals of the light and power company.

Mayor John P. Sattler was present at the council meeting and as he entered the Rathaus he was greeted by many Hochs from the assembled councilmen.

SUES FOR DAMAGES

The counties of Lancaster and Cass have been made defendants in an action filed in the district and county courts of Lancaster county, being sued by Grace F. Grosvenor for a total of \$1,550.

The plaintiff in the action who is a student and assistant librarian at the college of law of the state of Nebraska, asks judgment against the two counties for damages sustained in the injury of her auto while traveling on a public highway between Waverly and Greenwood.

It is claimed in the petition of the plaintiff that the defendant counties were constructing a portion of roadway known as the "Waverly road wood cutoff," that was under construction and was rough and dangerous for travel. On August 7, 1930, the defendant was traveling over the section of road near the W. B. Hill farm near Greenwood, there being no warning signs on the road. The defendant's car drove onto this rough section of road and as the result her car was damaged and in such shape that it could not be used by reason of hitting the ruts and bumps of the road that broke the springs of the car and otherwise injured it.

By reason of the condition of the road and the fact that the county of Lancaster had no lights or warning on their part of the road and the county of Cass was allegedly negligent, damage is asked in the two actions, one for \$300 and one for \$1,550.
