HALF BREED LANDS.

the Soil of Nebraska, it may not be unprofitable to say a word in relation to the "Half-Breed Lands" in this and Richardson Counties; the paper disposition of which is fraught with interest to these two counties. This work we trust will be soon accomplished by the persevering and energetic Commissioner.

We are often asked; "Why Government set apart a Reserve thus situated, embracing the cream of the two Counties,"-"When will the Half-Breeds become possessed of a transfemble title."

In the year 1830 the United States entered into a Treaty at Prairie Du Chien, with several Tabes of Indians, in which the Indians made two Reserves; one at Lake Pippin, the other between the two Nemaha Rivers, for the bene- ing, fit of the Half-Breed Iowas, Otoes, Omahas, Yanctons and Sante Bands of Siouxs;-the Indians themselves selecting the Reserves as by them as other Indian lands, during the or interest. pleasure of the President of the United States, and by him held in trust, and to be divided equally among them when he saw proper. An hand at length act of Congress in 1854 required him to have the lands Surveyed and consumate the Treaty. The Survey has been made, and the "Nemaha Reservation" found to contain 162 Sections .-The Census is now being taken of the different Half-Breeds entitled to a portion, that it may be equally divided; when completed the land will be equally apportioned to each Half-Breed, and he be at once placed in possession of a Deed in fee simple. The number of Half-Breeds will be found much larger than antici- passed. pated; and consequently the amount of land
