Oakland, Ind., 6th June, 1859.

J. C. Aven & Co. Gents: I feel it my duty to ac snowledge what your Sarsaparilla has done for me flaving inherited a Scrofulous infection. I have infered from it in various ways for years. Some lines. I burst out in Ulcers on my hands and arma sorgetimes it turned inward and distressed me at the stomach. Two years ago it broke out on my beat and covered my scalp and ears with one sore, which was painful and loathsome beyond description. Itself many medicines and asveral physicians, but without much relief from anything. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had propared an alternitive (Sarsaparilla), for I knew from you reputation that anything you made must be good I sent to Cincinnati and get it, and used it till barred me. I took it, as you advise, in small doces of a teaspoonful over a month, and used almost three bottles. Now and healthy skin soon began to form ander the scab, which after a while fell of. My him is now clear, and I know by my Bellings the the disease has gone from my system. You can well believe that I feel what I am saying when I tall you that I hold you to be one of the apostles of the ago and remain over gratefully.

This compound will be found a great pro loter of health, when taken in the spring, to spel the foul humors which fester in the lood at that season of the year. By the time y expulsion of them many rankling disorder re nipped in the bud. Multitudes can, by he aid of this remedy, spare themselves from he endurance of foul eruptions and ulcerou ores, through which the system will strive to id itself of corruptions, if not assisted to dehis through the natural channels of the bod; y an alterative medicine. Cleanse out the itiated blood whenever you find its impuritie ursting through the skin in pimples, eruptions r sores; cleanse it when you find it is ob tructed and sluggish in the veins; cleanse i chenever it is foul, and your feelings will tel ou when. Keep the lood healthy, and all is well; but with this abulum of life disordered, there can be measting health. Sooner or later something nust go wrong, and the great machinery of ife is disordered or overthrown.

Sarsaparilla has, and deserves much, the eputation of accomplishing these ends. But he world has been egregiously deceived by reparations of it, partly because the drulone has not all the virtue that is claimed or it, but more because many preparations.
