### THE TRIRUNE for 1865.

ebra-ka. May 16, 1855, tf

PROSPECTUS.

The Military and Naval successes of 1864, with the auspicious result of our Presidential contest, have lifted a heavy weight from the breasts of the loyel millions of our countrymen. It is now felt, even by those who have been distrestful and faint bearted that the Union is to emerge triamphant from the deadly strife whereinto she was so wickedly precipitated by her assailants, and that slavery, her releabless foed is to encounter the fate of Haman. The parils of foreign itervention and of Western insurection are safely passed: Abhadian Lancoln, is longer assailable as a choice of the minority, holds the beim of rate for four years longer; the rebellion, palpadly weakened by its defrats and losses during the past year—with its credit so reduced that its purse-barrer officially deciares that its Treasury notes can only be exchanged for coan at the rafe of twenty five for one, while its bonds command but six cents on the dollar—but awalts the blow which shall soon strike the sward from its paracidal hand and remit its master spirits to the Justice, or it may be to the demoney, of a sorely wronged and justly inconsed but farbearing and mag, animous people. Such are the supplies which justify our faith that the present year will see the Stars and Strip's float unchallenced from every battlement in the Republic, and the perfect law of Liberty for All immovably imbedded in the Constitution of our Union.

The New Constitution of our Union.

The New Constitution of our Union.

and the perfect law of Liberty for All homovably imbedded in the Constitution of our Union.

The New Const Thins vs. founded in 1841, will enter upon its twenty-fourth year with quickened hopes and enlarged means of asciances. Its principles need no re-statement: its aims are the diffusion of Intelligence and the insculation of a spirit of Fraction and Humanity. When this touth shall have been senerally recognized and established as the basis of our institutions and polity, that injustice to the porest, the weakest, the most despised, is a fearful mistake—that no community or state can afford to wrong even its humblest member—then will our land back once more in the calm sunshine of peace and prosperity this prosperity.

The Indicat has for the last year been published. without profit in its proprietors, solely because of the depreciation of our currency fallow specie standard, compelling us to buy paper and other materials at a cost considerably above the amount received from our subscribers.
