OAKLAND, Ind., 5th June, 1859.

J. C. Aver & Co. Gents: I feel it my duty to ac
tnowledge what your Sarsaparilla has done for me
Having loberized a Scrofulous infection, I have
suffered from it in various ways for years. Some
times t burst out in Okorson my hands and arms
sometimes it turned inward and distressed me at the
stomach. Two years ago it broke out on my hear
ind covered my scalp and cars with one sore, which
was painful and loathsoms beyond description.

Fried many medicines and several physicians, bu
without much reliaf from anything. In fact, the
fisorder grew worse. At length I was rejoiced to
read in the Gospel Messenger that you independent
at alterative (Sursaparilla), for I knew from you
reputation that anything you made must be good
I sent to Cincinnati and got it, and used it till ir
rured me. I took it, as you advise, in small doses of
a teaspoonful over a month, and used almost three
bothes. New and healthy skin soon began to tapp
under the scalb which after a while fell off. My
skin is now clear, and I know by my feelings that
the disease has gone from my system. You can well
believe that I feel what I am saying when I toll you
that I hold you to be one of the goostles of the age
and remain over gratefully.

I have cured many inveterate cases of Leucorrhon by it, and some where the complain was caused by ulceration of the ulceus. The ulcer ation itself was soon cured. Nothing within my knowledge equals it for these female derangements. Edward S. Marrow, of Newbury, Ala, writes Edward S. Marrow, of Newbury, Ala., writes "A capperous oxarian tumor on one of the femalet in any tamily, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief but he ad issue the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual After taking your remedy eight weeks no symptom of the disease remains."

DR. J. C. Schirers, Cancer Tumors, Enlargement Ulceration, Carles and Exfoliation of the Hones. A great variety of cases have been reported to u where cares of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agent below named are pleased to furnish gradis to all whe call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy
Melancholy, Neuralgia.

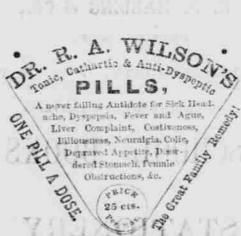

Many remarkable cures of these affections have
been made by the alterative power of this medicine
it stimulates the vital functions into vigorous action
and thus overcomes disorders which would be sup
posed beyond its reach. Such a remedy has long
been required by the necessities of the people, and
we are confident that this will do for them all the
medicine can do.

s a constitutional disease, a corruption of the blood, by which this fluid becomes vittated weak, and poor. Being in the circulation, it bervades the whole body, and may burst ourn disease on any part of it. No organ is free rom its attacks, nor is there one which it may not destroy. The scrofthous thirt is variously assed by mercurial disease low living disease. aused by moreurial disease, low living, dis ordered or unhealthy food, impure air, filtl and filthy habits, the depressing vices, and above all, by the venereal infection. What wer be its origin, it is hereditary in the contitution, descending "from parents to children nito the third and fourth generation;" indeed t seems to be the rod of Him who says. vill visit the iniquities of the fathers upor heir children."

Its effects commence by deposition from the lood of corrupt or ulccrous matter, which, it he lungs, liver, and internal organs, is termer ubereles; in the glands, swellings; and or he surface, eruptions or sores. This foul cor-uption, which genders in the blood, depresses he energies of life, so that scrofulous constituions not only suffer from scrofulous complaints, but they have far less power to withtand the attacks of other diseases; consequently vast numbers perish by disorder which, although not scrofulous in their nature are still rendered fatal by this faint in the ystem. Most of the consumption which deimates the human family has its origin directly n this scrofulous contamination; and many lestructive diseases of the liver, kidneys, brain nd, indeed, of all the organs, arise from or re aggravated by the same cause.

One quarter of all our people are scrofulous heir persons are invaded by this lurking inection, and their health is undermined by it. o cleanse it from the system we must renovate he blood by an alterative medicine, and in-igorate it by healthy rood and exercise such a medicine we supply in

It is com-ined from the most active remedials that have een discovered for the expurgation of this foul isorder from the blood, and the rescue of the ystem from its destructive consequences. Hence it should be employed for the cure of ot only Scrofula, but also those other affecions which arise from it, such as Enuprive nd Skin Diseases, St. Anthony's Fine Syphilis and Mercurial Disease.

DR. J. C. Aver. Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla. These chreed with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Venereal and Mercurial Disease. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth Your Sarsaparilla steadily taken cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla. tose, or Erysipelas, Pimples, Pustules,

We are enabled here to offer the community a emedy which, while it cures the above complaints rith certainty, is still perfectly harmless in any uantity. Such a remedy is invaluable in districts unnity. Such a remedy is invaluable in districts there these afflicting disorders prevail. This 'Cure' expels the miasmatic poison of Fever ND Ague from the system, and prevents the declopment of the disease, if taken on the first apgroach of its premonitory symptoms. It is not only he best remedy ever yet discovered for this class of complaints, but also the cheapest. The large uantity we supply for a dollar brings it within the each of every body; and in bilious districts, where the superiority of the semedy over any there ever discovered for the speedy and certain the ever discovered for the speedy and certain ther ever discovered for the speedy and certain ure of Intermittents is that it contains no Quinine or mineral, consequently it produces no quinism or ther injurious effects whatever upon the constitu-ion. Those cured by it are left as healthy as it

ion. Those cured by it are left as healthy as it hey had never had the disease.

Fever and Ague is not alone the consequence of he miasmatic poison. A great variety of disorders arise from its irritation, among which are Veuralqia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palmitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Parahysis and Demagament of the Stomach, all of which, when riginating in this cause, put on the intermittent the poison from the blood, and consequently cures hem all alike. It is an invaluable protection to mmigrants and persons travelling or temporarily minigrants and persons travelling or temporarily esiding in the malarious districts. If taken occar signally or daily while exposed to the infection hat will be excreted from the system, and cannot occurred in sufficient quantity to ripen into dis ase. Hence it is even more valuable for protec ion than cure, and few will ever suffer from Inter-nittents if they avail themselves of the protection

PILLS. Are you sick, feeble, and complaining? Are you on of order, with your system

organs, producing general aggravation, suffering and disease. While in this condition, oppressed by he derangements, take Ayer's Pills, and see how he derangements, take Ayer's Pills, and see how lirectly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep cated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely ured by the same means. None who know the irrues of these Pills, will neglect to employ them then suffering from the disorders they cure.
