OUR DAILY.

support given it will justify. We prefer this course to starting a large paper and then being under the necessity of contracting its dimensions. Let every one who feels an interest in the prosperity of this part of Nebraska render us such assistance as they can, and we have no fears for the result. Plattsmouth is a rising town, and Cass county is far in advance of any other county in the Territory in agricultural wealth and prosperity, and we see no reason why a daily paper here should not be well sustained. Let no one decry our modest little sheet because it has not the proportions or does not contain the news of a Chicago or St. Louis paper, but rather let them consider that all that is necessary to bring it to that standard is sufficient patronage; and we will guarantee to make it as large as a bedblanket if we can get support enough to enable us to do it.

There is not an individual in Cass county but would like to see a good daily paper published here, and every man who owns a dollar's worth of property believes it would tend to enhance the value of that property by the import ance it would give the place. That being the case, is it not directly to your interest to come up to the support of the paper, and not depend upon the belief that others will give it sufficient help to keep life in it? You do not want a other kinds of business along with it. The only way to accomplish this is to dend it a helping hand; and we trust, definitely settled by their recommendaand fully believe, the people of this section of country see the thing in the same light we do.

Besides the pecuniary advantages arising from the publication of a daily paper in our midst, you have the advanmails. Every one is anxious to know what is going on at the seat of government, and more especially will our Contherefore, who wants fresh telegraphic news, local news, and every other kind of reliable news, subscribe for the Dat-LY HERALD.

INDIANS.

We are informed that an expedition is about moving southward against hostile Indians, under command of Colonel Brown, Commandant at Julesburg C. T. Our informant also states that it is Major-General Wheaton's intention to establish a Post at a convenient point on the Republican River, to be garrisoned by infantry, and amply provided with supplies, thus enabling the cavalry to move rapidly, and we hope successfully. against the red-skinned marauders who have so long been a terror to travelers on the great overland route to the Pa-

This is a move in the right direction. The importance of the Republican River has been too long over-looked. Hard knocks and less Quakerism in dealing with these barbarians has long been needed, and we hope Gen. Wheaton will deal them out liberally.
