FLUID EXTRACT

BUCHU.

At the Cape of Good Hope

THE HOTTENTOTS
 Having long used

BUCHU
 For a variety of Diseases.

It was borrowed from those who practiced by the English and Dutch Physicians, on which circumstance it was introduced in Europe, and has since become very general.

It is given chiefly to Gravel, Chronic Catarrhs of the Bladder, Neuralgia, & a host of other ailments, and is particularly useful in the treatment of Debility,

and every disease which arises from a want of vitality in the system.

It is also recommended in cases of Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

To cure these diseases we must first give the medicine which is engaged in the cure of the disease. To neglect this, however slight may be the attack, is sure to affect the bodily health and create poverty.

Our Flesh and Blood are supported from three sources.

HELMBOLD'S
Fluid Extract of Buchu.

From Infancy to Old Age, and in every state of health, we find it to be one of the best of these.

The patient has, however, an admirable remedy in

HELMBOLD'S
GENUINE PREPARATIONS.

His Solid and Fluid Extracts embody the full strength of the ingredients of which they are made. They are left to the inspection of all. A ready and conclusive test of their properties will be a comparison with those set forth in the enclosed paper, the laboratory. These remedies are prepared by H. Helmhold, a druggist of sixteen years' experience in this city, and we believe him to be reliable; in fact, we have a year known an article lacking merit in merit with a permanent success, and Mr. Helmhold's success is certainly prima facie evidence. His Drug and Chemical Warehouse, in the city of New York, is not excelled, if equaled, by any in the country, and we would advise our readers, when visiting this city to give him a call, and judge for themselves.
