PLASTIC SLATE, ROOFING AND OTHER PURPOSES.

The process of reconstructing Slate Stone from a disintegrated state was PATENTED FEB. 21st, 1865. It is a combination of

Pulverized Slate and Viscous Matter, (the latter possessing qualities of geological and chemical affinity for the former,) and is a development of one of the simple but unalterable laws of nature.

AS A ROOFING MATERIAL IT STANDS UNRIVALLED. A master—it adapts itself to every shape and slope. Non-combustible, impervious, non-expansive and non-contracting, and undecaying.

Frost Does Not Crack nor Heat Dissolve it. The only Roofing Material ever discovered that will resist the action of the elements as long as the structure it protects. Being unalterable in its composition, it is capable of withstanding any exposure and

PERFECTLY FIRE-PROOF. It is unequalled as a roofing for railroad and farm buildings, bridges, bottoms of vaults, etc.

Materials for sale by ALFRED OSBORN, Sole Licensee for Nebraska, Douglas St., Omaha, Neb. Wm. Studemann & Co., One door west of Donelan's Drug-store, Dealers in
