NOT THAT KIND OF MEN.
The Omaha Republican expresses astonishment that Cass county went Republican after the doing of Weeping Water. The Republican should hear in mind that "there is as much difference in people as in anybody," and that the men who were so shamefully treated at Weeping Water, and who refuse to recognize the proceedings of that meeting as "Republican in form," are not the class of men to fly into a pet and close Democrats to office when any kind of proper men are out as Republicans...

WAGON BOARDS.

In our zeal to secure Railroads in Nebraska, and in Cass county, we should not forget that without good wagon roads our Railroads are of but little value. What would a Railroad benefit Plattsmouth if she were not cut from the farming country...

FURTHER RELATIVE TO NELSON BUCK AND PARTY.

On the 26th of September last, Gen. Duncan's cavalry captured a squaw, who makes the following statement relative to the killing of white men on the Beaver: About the 20th of August, 1869, when cherries were first ripe, a band of Indians, under "Lawnee Killer" and "Whistler," crossed the Republican to move over to Beaver. The crossing was made between Frenchman's Fork and Red Willow river. Four young men were far in advance. One of them came back and reported the other three just killed by some white men, and that one white man had been killed by them. These white men were not soldiers. The squaw and children went at once into the bushes, and the men all went on toward the Beaver, and did not come back until dusk. They said they had killed five more white men and destroyed two wagons, and that the rest of the white men hid in some bushes. All the animals the white men had were taken, and their relations, of which they had very few. The Indians said no more of this party.

License Tax on Places of Amusement.

The managers of Ford's Theatre in Baltimore, and the National Theatre in Washington recently went in asking the Commissioner of Internal Revenue several questions relating to the license tax on places of amusement. The Commissioner decides that all rooms, halls, etc., rented occasionally for theatrical representations are liable to the tax of \$100 per annum; also, that exhibitions given in other places, rooms or halls not arranged and rented for theatrical purposes, under canvas or in temporary buildings, are liable to the license imposed in paragraphs 38 and 39, section 79, act of June 29, 1864, in each year.

AN INDIAN RAID AT MEDICINE BOW

The following particulars of an Indian attack at Medicine Bow is from the Larara Sentinel: We got the following particulars in regard to the Indian attack at Medicine Bow from Dr. Foss, who came down from the mountains. The Indians attacked the section men first, and after a short skirmish they discovered Mr. Crawford, his wife and two boys, aged respectively fourteen and seventeen years, out about a half mile from the houses. Therewith the Indians left the section men and went for Mr. C. and family. The Indians rode round the party, discharging arrows and revolver shots at them for several minutes, but as Mr. C. had a gun and showed no fight, they soon left and went to his house, which was unprotected. They took away and destroyed property to the value of some five hundred dollars...

Immigration.

The extraordinary rush of immigrants to this country during the three months ending June 30, of the present year, is a fact which has attracted the attention of the government. The total number was 165,987—being a very large increase over the same periods in previous years. The class of immigrants, too, is unusually good. We find among them, for example, 60 engineers, 65 physicians, 58 artists, 5,559 mechanics, 333 lawyers, 233 butchers, 74 seamstresses, 733 shoemakers, 796 tailors, 1,058 waiters, 1,518 of miscellaneous trades, 569 clerks, 15,553 farmers, 46,225 laborers, 1,934 traders, 8,183 servants, 5,799 servants and 763 of other specified occupations. Again, it is worthy of note that while Ireland sends 28,138, "Great Britain" (meaning, we may suppose, England, Ireland and Wales), and 23,774, the Austro-Hungarian empire sends 50,999. It is remarkable that the Scandinavian element is still strong, as, indeed, it has now been for years. Norway, Sweden and Denmark being credited for these three months with 21,093.

Grant on the Byron Scandal.

Gen. Grant is said to have remarked, during a conversation in reference to the Byron-Stowe affair, the other day, to a literary gentleman who called on him, that unless he was out-voted by his Cabinet, he should recommend in his first annual message the passage of an act by Congress providing for the confiscation and discontinuance of any newspaper, magazine, or publication which hereafter refers to the subject of the scandal in any manner. He thinks there was never a subject of which the people were more tired. He thought that even the woman's rights people would sustain him in such a course.

Telegraphic News.

WASHINGTON. Memorial to Congress. WASHINGTON, Oct. 19.—A memorial to Congress has been prepared by the citizens of Washington, setting forth the various grievances under which they labor, owing to congressional neglect of the affairs of the district of Columbia. A number of public improvements, which properly are the work of the government, they offer to complete if permission be granted them. They say the prosperity of their city is impeded by the uncertainty of its remaining the national capital, and conclude by asking congress that it should not see fit to grant redress the several evils complained of, to place the district under the laws of the State of Maryland, or Massachusetts, or any other State that might be deemed proper.

NEW YORK.

Remanded for Sentence—Father Hyacinthe.

New York, October 19.—Justice McKimsey of Newark, yesterday found guilty of practicing extortion and blackmail upon citizens who had cases before his court, and was remanded for sentence. The Tribune learned yesterday, from Father Hyacinthe, that he desires to be understood that he is still a Roman Catholic. He has never been, he says, an ultra montane, is not now, and never will be; but he denies that there is any reason for identifying ultra montane with the Catholic church. He desires the firm hope that the council will not, as is commonly anticipated, consolidate the ultra montane theories, and constitute them the creed of the church, but that on the contrary, it will have the door open for those who like him, have been throughout life the devoted champions of a more liberal construction of the Catholic doctrine, and who, in particular, have defied the entire hierarchy between the Reformation and the present day.
