Newspaper Decisions.

1. Any person who takes a paper is deemed to have agreed to pay for it, whether he signs his name or not—whether he is a subscriber or not—responsible for the pay.

2. If any person signs his paper "unpaid," he has given notice to the publisher that he may continue to do it until payment is made, and the publisher is bound to accept the paper as paid from the subscriber.

3. The courts have decided that refusing to take newspapers and periodicals is not evidence of intentional fraud. Nor does it establish that all subscribers paying for their papers are not subscribers, but we cannot be responsible for what has been done before our time, nor for others supposed to have been given by others to others. Our books above must be the guide for all old subscriptions. Please remember this.

Subscribers finding one mark, thus, X, will know that the time their paper is paid for has run out, and two XX mean that it is over due more than a year and ought to be paid.

The Old Fellow's Festival which is to come off Friday evening will be a grand and old affair, and we advise all our citizens who admire oddity in any form to go and enjoy the oddities there presented. Special trains will bring brother Old Fellows, with their ladies, whether odd or even, from Lincoln and Omaha, and Old Fellows and Fellows not odd will vie away the hours with song and merry music, the festive dance and festive banquet, and all will go merrily as a marriage bell.

The sun shines of the last ten days, has played havoc with the ice bridge across the Missouri, and although it still stands, 'tis a weak and feeble stand it makes, and who values his own life or his horse ventures not upon its surface. But a few days more and we shall behold again the swiftly flowing muddy water, and the days of old winter and the reign of ice and snow will be no more.

Plattsburgh feels a little sore over losing its mail, but the D. & G. Good enough to put on too many airmen so soon in a village and now they have a chance to militate over what was.—Ahdahl Tous.

What miserable little pig nosed head of a three year old booby is this, that talks about "air" and "what was?" Tend to your own business, mind you eyes on the county seat question and a B. Road or two through Sunderns far enough away from Ashland or you will find out "what was?" Ahdahl will be left a howling wilderness.

Poor Man's SCHOOL-ROOM.—Webster's Unabridged Dictionary, (containing 30,000 illustrations), has been said to be the "Poor Man's School-Room." It contains all that is necessary to first-class elementary education.—Grammar, History, Classics, Mathematics, Geography, Astronomy, and in fact nothing is wanting to make it a perfect Encyclopedia of information! A book that every family should have, as it contains illustrated definitions, thus appealing to the understanding through that swift medium the eye.—Morgan Mercury.

AMENDE HONORABLE.

We inadvertently left out the name of Doctor Rawlings, from our report of the surgeons who attended in the Utterbach case, last week.

It was a pure oversight, occurring from the fact that we had just returned from Lincoln the same day, and our article was made up from the reports on the streets, none of which happened to mention Doctor Rawlings, to the editor, as being present.

It is just to Dr. R. to say that he was the first medical authority on the ground after the man was hurt, and was present at all the consultations thereafter.

"Women as Teachers."

We have seen no more able or exhaustive discussion of this question than is presented in the last number of the AMERICAN JOURNAL OF EDUCATION.

Normal Schools, School Libraries, Physical Science, and other important topics are treated of editorially, and among the premiums offered, we notice Webster's and Worcester's Dictionaries upon very liberal terms. In fact, there is not a page but what is interesting and profitable. Call and examine our copy, or send for specimen number to
