On Sunday afternoon a young man great difficulty that he could be kept going, and so great was his stupor that at times he would almost fall like a stick. Frequently it was necessary to catch him and move him on. He reeled at times like a drunken man, and then again he would revive considerably. The dreary, monotonous walk was kept up without intermission until half-past six o'clock yesterday morning, when the physician consented that he should be allowed to take rest. The life of the young man was saved, but the struggle for freedom from the effects of the drugs was a severe one. To have stopped three minutes would have been fatal.—Baltimore Gazette.

THE MILLERSTOWN TRAGEDY. Over 100 Families Rendered Homeless

-Seven Persons Burned-Loss \$250,-

A fire occurred in Millerstown, Pa., recently, which, besides the destruction of property, was the cause of the death of several persons. The fire broke out in the Central Hotel. The bar-keeper of the hotel, who was sitting up with a sick friend, was the first to discover the fire. He immediately rushed through the halls to arouse the guests. There were, including servants, a hundred souls in the house, and directly the corridors became the scene of the wildest dismay. Fortunately there were no lady guests registered, or the story of horror and death might have been immeasurably more painful to detail. The flames drifted up the wooden walls, and quicker than it takes to tell it spread over the entire southern side and were curling in a thousand tongues from cornice and gable. Men rushed almost naked nto the hall, some not even taking their clothing in their arms, and, anxious only to escape with their lives, tore up and down the corridors, madly seeking some outlet from theless a feeling that lurks very generally

the pursuing flames. The wildest horror prevailed. Shrick rose upon shrick, in heart-rending accents, all the more impressive because they came from strong men grappling with death, with the odds so terribly against all mere human power. Many on the lower hall had found their way out of the building, and the proprietor of the house, who was sick, had been borne out. For an instant it was hoped that all would escape, but again that hope was dashed by the beseeching cries for help from those who had lingered to dress or, in the excitement of the dreadful moment, were unable to undo the fastenings of their doors.

A warning cry arose from and gallop on the next stage; the clatter
