SAVE MONEY AND HEALTH!—The reputation of the new steam-saving Machine is a thoroughly established fact no word in its commendation is necessary. The plan adopted by the manufacturers of this Machine, of placing their prices so low as to come within the reach of the poorer classes, has called them to the gratitude of those who are really money and health savers.

Machines will be delivered at any Railroad Station in this county, through the Company's Branch House at No. 416 4th Street, St. Louis, Mo. They send an elegant catalogue and chromo showing the various styles of these machines. This Company want a few more good agents.

It is asserted as a fact that every canvasser who has turned his attention to the introduction of the new steam-saving Machine in his locality, or who has been fortunate to secure an agent, has been successful in securing a large number of orders, and has made a good thing of it. The inventors are daily increasing their number of agents, and are looking into the business as fast as they can secure territory and get their goods on the road to supply anxious customers. It certainly is a profitable business, for the same work, as other machines at \$50.00 and \$60.00, and will really save you at least half the usual price of so good an article, for its astonishing speed and economy of labor perform as well as so low a cost.
