Complete for Domestic Use

No superior! No competition! No rival in quality and price. A skillful and practical scientific accomplishment of a most wonderful combination of all the good qualities of a sewing machine, and fully acknowledged to be a perfectly successful mechanical achievement of practical simplicity. Thoroughly tested. Used in thousands of homes. The favorite of the family circle. It does not take an hour to get ready to do a minutes work, but is always ready in a moment to do a days work.

It will save its cost many times over in one

It will save its cost many times over in one season, doing the work of the family, or it will earn four or five dollars a day for any man or woman who may wish to do sewing for a living. Is so plain and easy to run, and smooth to run, the children and servants can use it. So strong and solid built, it will last a generation if properly cared for. Has no superfluous coggs or cams to get out of order. Sews equally fine with coarse cotton, linen, silk or twine.

Rapidly sews a strong seam over all kinds of goods, from finest cambric up to heaviest broadcloth and leather without st opping the machine Runs faster, lighter, more easy and quiet than any other machine at five times the price. Uses the strong straight needle. Marvelously true in corresponding to the control of the co

true in every motion. Sews the finest, firm and lasting stitch. Makes the only seam that can not be ripped apart without destroying the fabric. The strength, beauty, evenness and durable qualities of which have long been acceded. Will sew anything it is possible for a needle to go through.

Will do every description of sewing ever done

on any other machine, no matter what the price and with less trouble. Will hem. Fo I, tuck, seam, quilt, braid, cord, bind, gather, ruffle, shirr, pleat, fold, scollop, roll, embroider, run-up breadths, &c., &c., with astonishing ease,

lais of its merits from all sections of the coun-try, marks of distinguished consideration sel-

from voluntarily accorded to an invention of similar domestic usefulness.

Our many new attachments, patented August

16, 1870; September 26, 1871; July 7, 1872. Made to fit all machines, are the attainment of pre-cision in mechanical accuracy for rendering it

easy for even those who never saw a machine before, to do the finest kind of fancy needle work, otherwise difficult and tedous, with the utmost ease and rapidity. Simple in construc-tion. Needs no teaching. Money refunded af-ter thorough trial, if not satisfactory in every particular.

Cash prices of machines: Machines with plain table, from stand and treadle, complete with all the necessary fixtures for immediate use, \$20. Machines, with cover, lock and key, half case style, \$25. Machines, with cover, drop leaf, four side drawers, locks, keys, &c., three quarter cabines style, \$40. Machines with
