If there is one thing behind the age more than another it is the privy system. Y.

We are informed that the Rev. Mr. Crippen's China wedding, last Monday was a very pleasant affair, very well attended. The HERALD and wife would have been there except for the weather. It just rained enough to scare us out that evening.

ANOTHER GOOD CITIZEN GONE.
Mr. Christiansen and wife bade adieu to Plattsmouth yesterday, very much to the regret of his many friends here. Such citizens Plattsmouth can ill afford to lose. Mr. Christiansen informs us he has no settled destination as yet, but will visit friends in eastern States for a time. The good wishes of their many friends here go with them where ever they may settle.

Mr. John Wayman speaks us the following letter which stands for itself. We are glad to see that he is meeting with such good success.

JO. WAYMAN, Plattsmouth.
Dear Sir:—The four page power engine bought of you and used by me for cleaning and elevating grain works to my entire satisfaction. I can with an expense of 40 or 50 cents, fuel clean and load a car of grain in less than two hours, and with more elevating capacity can load a car of 350 bushels in an hour. The boiler I believe will generate steam for two such engines. Very Respectfully Yours,

DEATHS.
JONES—Died at Omaha, Sept. 16th, BYRON JONES, only child of George S. and S. C. Jones; aged fifteen months and twelve days.
Mr. Geo. S. Jones is a brother of Mrs. K. Vivalda of our city.

PERSONAL.
We are pleased to learn that the Rev. Mr. McKeivry has received notice of the best appointment in Nevada territory, at Virginia City, while among us he won the esteem and respect of all, and we know that the people of Plattsmouth are always glad to hear of his success. Mr. McKeivry, an old friend, Mr. Almond White, at Herman, last week, and also heard from another, Mr. S. M. Carhart, at Ogden, Utah. They propose to take a HERALD, after this.

Hal, Wheeler left for Omaha with his traps for the State Fair on Tuesday.

E. M. Donny, of Blair, takes a HERALD, now. We shall have to be careful what we say about the Blair boys in the future.

Our old friend King, at Eight Mile Grove just did splendidly on Convention day. His dinner was super abundant and put two inches of fat on the ribs of every candidate.

We caught a glimpse of our Salt Lake friend Parry Wis on the street the other day, but did not learn how long he would be with us. It looks good to see him among us once more.

MARRIED.
BALANCE—BUTTERY—Married, on the 9th inst., at the residence of the bride's father, by the Rev. Mr. Burgess, of St. Luke's, Mr. Geo. Balance to Miss Elizabeth Buttery. All of Plattsmouth, Neb.

After the marriage and we had all kissed the bride and the HERALD had kissed the groom, and the old folks had all looked wistful because they couldn't do it all over again themselves, and the young folks had all looked sheepish because they wanted to and couldn't. Mrs. Buttery threw open the dining room doors and the most good things we ever saw. Mr. Burgess asked a blessing and we mentally added, "may the Buttery family have a wedding every week, if this is the way they get up." Mr. Wheeler presided over the evening, and Mr. Buttery, blushing like a rose, threw in the vegetables and other good things. My stars! what an appetite they gave a fellow to get married; that table was a wreck before we could eat half as much as we ought, and then we had some toasts and good wishes and desert.

The happy pair, and we know they were happy for they looked it all over, left us on the afternoon train for Michigan.

The Multiplication of Diseases.
Diseases multiply. One begets another. A trifling indisposition may, therefore, originate a complication of dangerous maladies. Indigestion begets far more formidable diseases; a multitude of ailments are traceable to constipation; fever and ague unbites the entire nervous system, and is therefore the source of the pestilential ailment which affects that portion of the human organism. Doctor's Stomach Bitter, however, whether resorted to at the inception of these disorders of the stomach, bowels, liver, which lead to the majority of diseases and disabilities, or taken when they have assumed a chronic form, has been found to be powerful to cure. The process of recovery is quick, and painless, and it is a pleasant, refreshing, and health-giving tonic, and the best preparation for the operation of the great alternative and invigorant.

FOR NEXT FALL AND SPRING.
The most hardy, most productive and most profitable varieties of Apple, Pear, Peach, Plum, Apricot and Cherry Trees, Grapevines, small fruit strawberry plants, ornamental trees and shrubs, evergreens, bulbous root vegetable plants, and everything desirable for Schuylkill and all climates can be bought of me on good terms. Orders received in town. No travelling expenses. Prices low. All trees, shrubs, and plants warranted true and of good quality.

There is an apple tree in Plattsmouth, which I sold in 1868, and it now pays the interest on one hundred dollars, and I have sold many others that are as good. One tree of good variety is worth more than ten trees of a poor variety. Be careful to plant good trees of good varieties, and take good care of them.

Buy of a careful and experienced nurseryman, or agent who resides in your vicinity.

Be very careful to keep your trees in a cool shady place, and the roots wet, water them well when you plant them, then keep them cultivated, or mounded. Call on me on Main Street, every time you come to town, and see specimens of fruit and flowers.

The process of recovery is quick, and painless, and it is a pleasant, refreshing, and health-giving tonic, and the best preparation for the operation of the great alternative and invigorant.

FOR NEXT FALL AND SPRING.
The most hardy, most productive and most profitable varieties of Apple, Pear, Peach, Plum, Apricot and Cherry Trees, Grapevines, small fruit strawberry plants, ornamental trees and shrubs, evergreens, bulbous root vegetable plants, and everything desirable for Schuylkill and all climates can be bought of me on good terms. Orders received in town. No travelling expenses. Prices low. All trees, shrubs, and plants warranted true and of good quality.

There is an apple tree in Plattsmouth, which I sold in 1868, and it now pays the interest on one hundred dollars, and I have sold many others that are as good. One tree of good variety is worth more than ten trees of a poor variety. Be careful to plant good trees of good varieties, and take good care of them.

Buy of a careful and experienced nurseryman, or agent who resides in your vicinity.

Be very careful to keep your trees in a cool shady place, and the roots wet, water them well when you plant them, then keep them cultivated, or mounded. Call on me on Main Street, every time you come to town, and see specimens of fruit and flowers.
W. S. WEST.

The Multiplication of Diseases.
Diseases multiply. One begets another. A trifling indisposition may, therefore, originate a complication of dangerous maladies. Indigestion begets far more formidable diseases; a multitude of ailments are traceable to constipation; fever and ague unbites the entire nervous system, and is therefore the source of the pestilential ailment which affects that portion of the human organism. Doctor's Stomach Bitter, however, whether resorted to at the inception of these disorders of the stomach, bowels, liver, which lead to the majority of diseases and disabilities, or taken when they have assumed a chronic form, has been found to be powerful to cure. The process of recovery is quick, and painless, and it is a pleasant, refreshing, and health-giving tonic, and the best preparation for the operation of the great alternative and invigorant.
