

PLATTSMOUTH, DEC. 30, 1877.

OUR CLUB LIST FOR 1878.

We present our readers this week with a club list of papers which can be taken with the HERALD. In this way you can get two papers or more for little more than the price of one. We would also like to see new subscribers to the HERALD, and all who propose taking it for another year to come forward now. The first of the year is a good time to commence subscriptions to all papers, and we can only get these club rates about the first of year.

Subscribers to any of these papers, etc., who wish to renew, will also get them much more promptly by renewing their subscriptions before their names are struck from the present year's list.

The HERALD and Harper's Bazar, Weekly or Magazine, 4.00
" " and Inter-Ocean, weekly, 2.50
" " semi-weekly, 4.00
" " Chicago Tribune, 2.50
" " Post & Mail, weekly, 2.50
" " Prairie Farmer, 4.00
" " Louisville Courier-Journal, 3.00
" " Southern Monthly, 4.85
" " St. Nicholas, 4.18
" " American Agriculturist, 2.70
" " Democrat's Monthly Mag, 3.00
" " Scientific American, 4.35
" " New York Sun, 2.50
" " " 4.00
" " Eclectic Magazine, 5.75
" " Neb. Farmer, (monthly), 2.50
" " Globe-Democrat, 4.50
" " Leisure Ill. Newspaper, 4.15
" " American Agriculturist, 2.75
" " Toledo Blade, 3.50

We can also send for the HERALD and the premium books offered by it at special rates for our subscribers, which rates they can learn upon application at this office.

MURRAH FOR THE HERALD PREMIUM LIST!

To every man, woman and child in the county a chance is offered to obtain one or more valuable articles in addition to a copy of

THE NEBRASKA HERALD for one year, who pays us two dollars, or to every old subscriber who pays up past arrearages and one year in advance we will give him or her choice of the following books: THE HOME GARDEN, a book compiled from receipts contributed to the Home Department of the Chicago Tribune. It is a volume of 160 pages, and gives fully as much information as do the \$1.50 and \$2.00 cook books, besides being the practical experience of practical housekeepers; or a work on farming, entitled BLACKBERRY'S FARM TALK; or a treatise on fruit raising, ELLIOTT'S HAND BOOK FOR FRUIT GROWERS; or a book for horsemen, McCLURE'S AMERICAN GENTLEMAN'S STABLE GUIDE.

For every cash subscriber for 1878, who will send us one additional name, or in other words for two "cash" names we will send a copy of the NEBRASKA FARMER for a year; or three "DOMESTIC" PAPER PATTERNS, to be selected from the catalogue by the subscriber.

For every cash subscriber for 1878, who will send us two additional cash names, or in other words, for three cash names we will give a medical work by Dr. E. B. FOLEY, entitled PLAIN HOME TALK AND MEDICAL CHEMISTS, a book of over 900 pages, containing most excellent advice on hygienic subjects; or a SMITHOGRAPH, with COMPLETE OUTFIT. The Smithograph is an apparatus by which any one can copy pictures, patterns, or designs of any kind, either the size of original pattern or enlarged as many times as they may wish. It is a most fascinating little instrument; or a copy of the American Agriculturist with their premium handsome microscope valued at 2.50.

For every five cash names we will give a SET OF SILVER PLATED FORKS which retail at four or five dollars per set.

For every ten cash names we will give one of BAINES' FOOT POWER SCROLL SAWS, which retail at fifteen dollars. These saws will do any kind of ornamental work in wood, shells, metal, bone or ivory, such as brackets, frames, work boxes, wall-pockets, cornices, etc.

For every fifteen cash names we will give a KNITTING MACHINE valued at twenty dollars.

For every twenty-five cash names we will give a NEW SEWING MACHINE valued at fifty-five dollars, and such as have recently sold at seventy-five dollars.

Each subscriber in these clubs will receive one of the single premiums, whichever he may choose.

Subscribers who take the Nebraska Herald at club rates will not receive the paper or magazine can have the single premium by payment of twenty five cents in addition to the rates given in our clubbing prospectus.

The Omaha Bse endorses our view of the taxation business and says we must assess at true value of the property.

A MR. DURELL of this County went gray over his losses on hogs by cholera and had to be taken to the State Asylum by Sheriff Cutler.

The President having appointed Mr. C. I. Filley to continue as Postmaster at St. Louis, and this without the consent of the Globe-Democrat, there is likely to be more of implacability than ever in the editorial columns of the G-D.

CHICAGO had a big Silver meeting on the 19th, 5,000 people present, and they wanted the dollar of our daddies right away. Omaha is agitating the same thing and the silver dollar is rolling along.

We have had letters from several gentlemen interested in the sheep business of the State and Mr. Core near Louisville, came to see us on the matter. We hope all these gentlemen will find time to attend the wool growers meeting at Lincoln on the 15th.

THERE has been a recent decision in the English courts which is at once anti-Democratic, and, if put into practice in this country, would disfigure Cronin's nose. It was the case of a large stockholder of an English company who met all by himself and unannouncedly passed some extraordinary resolutions. The case was referred to the courts, and the decision of the court is that a single stockholder of a joint stock company cannot "meet" and transact business. This will be a squelcher on Cronin and his little joint stock company, and his case, as it will be observed that both Cronin and the English stockholder were "unanimous"—1-0.

TELEGRAPHIC

LATEST FROM THE RUSSO-TURKISH WAR.

Deadwood Items.

The Commissioner General to the Paris Exposition.

LONDON, December 17.—A dispatch from Constantinople Sunday says the death of Osman Pasha, while en route for Bucharest, is announced. Official advice from Bucharest are awaited with interest, that the doubt of his death may be removed. A telegram from Bucharest this afternoon announces the arrival of the czar at that place, but does not mention the death of Osman Pasha.

BUCHAREST, December 17.—The report of the suicide of Osman Pasha is false. There is no foundation for the rumor of his death from any cause.

BUCHAREST, December 17.—Colonel Welley, British military attaché, says Osman Pasha had less than 30,000 men at Pleva, and in his sortie lost 6,000 killed alone. The wounded must have been 6,000 more.

DEADWOOD, D. T., December 17.—A bottle of petroleum was brought into this city today from an oil well that was discovered a few weeks ago eight miles from Jenny's stockade and one hundred miles south of Deadwood. The petroleum is pronounced by experts to be superior to that of West Virginia.

No Indian depredations have been committed in this vicinity or on any of the routes leading to the Hills for some time.

DAVENPORT, December 17.—The damage sustained by the last span of the Rock Island bridge Saturday last, 19th, 1877. It is desired there be a full attendance of bona fide members, and we hope several days session will be devoted to the business interests of the fraternity in the State.

J. C. MCBRIDE, President,
J. A. MACMURPHY, Secretary.

Wool Grower's Notice.

The Wool Growers of the State of Nebraska, and all those interested in the progress and success of sheep-raising in the State are invited to be present at a meeting called in Lincoln, on January 15th, 1878. One of the principal objects of the meeting will be to form a State Wool Growers' Association, and to take such steps as will unite the interest of breeders and sheep men generally in the State. The committee will meet at the Commercial Hotel, Lincoln, on and after January 15th. State papers please copy.

Moses SPOCKING, Com.
S. C. CABRY, }
J. A. MACMURPHY, } Com.

PROF. THOMPSON writes us that the Horticultural Society of the state desires all the information about fruit growing in Cass Co., that can be obtained. Number of orchards, number of bushels fruit raised, kind of trees, price per bushel, &c. We would be thankful for all statistics of this kind that can be sent to this office.

We also call attention to the wool grower's meeting at Lincoln on the fifteenth. In view of the serious loss of the hog crop by cholera, it behooves the farmers of Nebraska to turn their attention earnestly and intelligently towards a more diversified industry. Wisconsin found out she could not live by hops alone. Nebraska learned her when less than a very high price for wheat; let us not be left helpless and stranded with only the hog to help us out in the future. Sheep raising, wool growing, cheese making and dairying are the next sources of profit in store for the farmer in Nebraska. We are happy to see that our western exchanges at North Platte and Sidney are waking up to the importance of the woolen interests of the state, and are shouting for sheep and woolen mills. Let us have a glorious turn out.

We have made a notice of the meeting of the editorial association at Lincoln on the 15th of Jan. We are very glad to see that many of our exchanges are backing us up in our long three years struggle that the association should be put on a square business footing; that the sessions we hold at our annual reunion shall be devoted to the material affairs of the newspaper business; that none but bona fide publishers of newspapers shall be voting members and that the aim and object of the association shall be the same as that of the Bar Association, or the Medical Association of the state, namely, the protection of the business interests of the fraternity, the gathering of statistics useful and necessary in bettering our condition and to add the strength of union to our personal endeavors for success.

Three subjects of very great importance suggest themselves to us as part of the business of this meeting. A strong and united effort should be made to pledge the conductors of newspapers in this state to the pay in advance system, if we have to put the price at \$1.50 per year. It can hardly be done, singly, but by the united action of the association it may be. The loss by the present system is immense and greatly weakens the strength and usefulness of our county press.

The advertising agency business must be corrected and the system changed in favor of the publisher; as before only a strong and united action can do this.

Thirdly, there should be some adjustment between the legal fraternity and publisher regarding the securing of payment of legal advertising, which is an absolute loss to most newspapers.

The publishing of the laws of the state and many other matters should be fairly and fully treated of and arranged for in the future and we hope there will be a full attendance. State papers please copy.

We are very much disappointed in not receiving in time for this issue some Christmas cards, by which we intended expressing our good wishes to our patrons. Look out for them next week.

CATARRH

Of Ten Years' Duration. The Discharge Thick, Bloody, and of Foul Odor. Senses of Smell and Taste Wholly Gone. Entirely Cured by

SANFORD'S RADICAL CURE.

Washburn, Dec. 16.—The Paris Exposition bill became law Saturday, and immediately the name of ex-Assistant Secretary McCormick was sent into the Senate as Commissioner General. At the brief executive session the nomination was confirmed. The Senate waived its order of yesterday not to do any business to day, in order to accomplish this, as it was necessary that the Commissioner General should be able to assume his duties at once. Funds are very much needed, and could not be drawn except on the requisition of the Commissioner General.

Nebraska. Many letters are daily received inquiring about this State, its soil, climate, and desirability as a farming country. In a journey across the State, a few years ago, we formed a much more favorable opinion of its soil than we had previously possessed. During the past summer, one of our associates spent several weeks there, visiting a majority of the counties, and was very favorably impressed. From all he could gather, and from other sources of information, we judge that any farmer going there with sufficient means to maintain himself and family temporarily, until he gets a start—that is, until he can get a first crop harvested—can hardly fail to do well. This year, a large number have made enough from a single harvest to pay all expenses of the crop, and the original cost of the land, with a surplus over. Those desiring information as to localities, prices of land, &c., would do well to write to Hon. O. F. Davis, at Omaha; or, A. E. Touzalin, at Lincoln, Nebraska.—American Agriculturist.

SANFORD'S RADICAL CURE

WINDHAM'S

Real Estate and Loan Office,

LANDS BOUGHT AND SOLD, TAXES PAID, U. S. PATENTS TO LAND OBTAINED.

Titles Examined and Perfeeted. LOANS NEGOTIATED.

It is a duty every man owes to himself and to those interested with him to know the condition of the title to his property. It is a fact well known to the legal profession, and to real estate dealers, that thousands of the improved and unimproved farms of this western country, have imperfect titles; much expense and litigation can be saved by having your titles examined and perfected, at once, and before property reaches eastern figures in value, when questionable titles become more difficult to remedy.

All persons claiming title to lands should obtain the United States Patent and have it recorded, the legal title from the Government is vested in the individual through the patent and title is not perfect until the Patent is issued and recorded, and eastern capitalists will not loan money on such security unless it is done.

As a matter of business convenience, I have connected this department with my Law Practice, and have placed in charge of it W. S. Wise, who will, under my supervision, attend to all matters appertaining thereto.

A ten year's residence in the State and County, with constant business experience, and relations with its inhabitants, has thoroughly qualified me for transacting business of the above mentioned character with facility.
