

We call attention to the health report requested by Mayor Johnson.

REMEMBER our Teachers' Institute commences Monday. Prof. Martindale, Prof. Lovo and others will be here.

DR. J. T. HAY of Falls City has received the appointment of assistant physician of the Hospital for the Insane.

We hope Chairman Dawes will call the Reg. Convention at Omaha this time. For many reasons it is better it should meet there.

THE Republican (Omaha) had better engage Dr. Miller to edit that paper too. They seem to have a better opinion of his talents than of their own force.

GEN. GRANT has changed his mind and will not be home for a year yet. It is said that the officious meddling of those who would make him President has caused his delay.

GERE, of the Journal has gone to Colorado for his health; and the Journal is almost crazy over the railroads running in and out of Lincoln, and no others have succeeded them; so, it is to be hoped our southern brethren will be spared even a slight repetition of last summer's fell calamity.

THE yellow fever excitement seems to have abated entirely. Only two cases were authenticated in Memphis, and no others have succeeded them; so, it is to be hoped our southern brethren will be spared even a slight repetition of last summer's fell calamity.

THE law complications over the New case at Grand Island are amusing however unsatisfactory or prickly they may be to the parties interested. The last heard of the goods, Morrison had moved them to Plattsmouth or somewhere, and the rest were hunting for them.

To get even with the move of the U. P. on the state of Beatrice, the B. & M. people propose to run York to Grand Island, and thus invade U. P. Territory. Big game of chess these locomotive fellows are playing on our broad green boards just now. "Check" who takes the king—don't pawn your credit too strong, boys, and the game is ours.

From the Omaha Reporters. Bishop Gilbert Hayes (M. E. Church) says Sherman shoved his arm down Hayes back to "stiffen" him—that there is no such thing as a "Hayes Republican." A man can be a Hayes man but never a Hayes Republican, and that Grant is to be thanked that we have any nation at all and ought to be sent back to the "White House."

Isn't it about time this University row is closed, "Trial by newspaper" has done its perfect work and no further good can or will be accomplished, while much harm abroad is being done. It is plain that the present Regents propose to let things remain in statu quo for their successors and as the people have the opportunity next fall, they can and should decide through the election of Regents what changes, if any, are needed.

NYE of the News thinks Gere and Brooks should fight a duel on the 23d of July at 12 m.—dark of the moon. Why, eh, why! should they come nigh. If this battle of words keeps on, the rest of the country will have cause to think that it is not the "boodle press" alone that has a limber tongue when it gets on its ear; but that the Urban editors' ears get out of tune now and then and unlimber his tongue likewise.

MACDONAGH and his Watchman are at Omaha, you know. In his salutatory there he says, "I have done my best for the 'Bluffs' and their slowness—praises Omaha immensely and winds up with the following characteristic MacD'-ism.

We propose to give you a live, racy, red-hot paper, once a week, all the year round. We will be as independent as a hog on ice rendering to Caesar what belongs to him, and giving even his Satanic Majesty his due. We will try and be courteous to all, but we don't propose to tangle to any squeakers that ever wielded a toothpick.

EX-GOVERNOR Wm. Allen, of Ohio, died very suddenly at Chillicothe, last Saturday morning, and was buried on Monday, an immense concourse of people attending the funeral. Mr. Allen was known as "Fog Horn" Allen, on account of his powerful voice which in his best days could be heard by thousands of people in the open air, speaking, and "Rise up" William Allen, because after many years of political retirement he was again brought out as a candidate for Governor and elected.

He was an energetic, useful, honest man and citizen. A strong democrat through life, "his personal character was unimpeachable, and he goes to his long rest with the proud consciousness of having performed his whole duty as he saw it, and with the respect of his fellow men of whatever turn of mind politically.

Democratic Consistency. Rise the dem. candidate for State Governor of Ohio is a banker, a hard money man, and running on a soft money platform with Ewing, almost a pronounced greenbacker; one of the planks of their platform is for the abolition of National Banks.

THE NEGRO EXODUS HERE AT LAST.

163 COLORED PEOPLE ACROSS THE RIVER

From Louisiana and Mississippi.

What Shall be Done With Them.

Yesterday morning, early, the news spread on the street that, 250 negroes were across the river awaiting transportation and billed for Plattsmouth.

At once excitement arose, all sorts of rumors were rife, all sorts of suggestions and many vague threats were heard. We are sorry to recount that a great many of our people did not rise to the magnitude of the occasion and realize that a great crisis in solving one of the mightiest political problems of the day was before them.

As soon as we ascertained that a lot of colored people were at East Plattsmouth, the HERALD in company with Mr. Marsland of the B. & M. and C. B. & Q., and Mr. Bushnell of the Enterprise proceeded over the river to ascertain just what were the facts and how many there were.

Notwithstanding the intense heat, a good audience was in attendance at the memorial service on last Monday night, thus giving expression to the general sympathy.

The absence of Chaplain Wright in consequence of indisposition was much regretted, as he was expected to take a leading part in the exercises. Rev. Mr. Baird and Prof. Wise however, aptly voiced the universal sentiment as to the virtues of our deceased friend.

Resolutions have been adopted by the order to which he belonged expressive of their loss, and of sympathy with that domestic circle where the "vacant chair" at the board and at the hearthstone is a constant reminder of their immeasurable loss.

Resolutions of respect to the memory of S. S. Inlike, and of sympathy with his afflicted family, by the W. C. T. U. of Plattsmouth, may, at all times, seem timely and superfluous. His death has been noticed and his memory honored largely and feelingly.

liege of pleasing an appetite, of conforing to a social usage, filling sixty thousand homes with shame and sorrow, of loading the public with the burden of pauperism, of crowding our prison houses with felons, of detracting from the productive industries of the country, of ruining fortunes and breaking hopes, of breeding disease and wretchedness, of destroying both soul and body in hell before their time.

From Dr. Livingston, one of our Fish Commissioners, who has just returned from a trip out west we hear glowing descriptions of the crops. He describes the entire "American Desert" from Dorchester to Hastings as one vast wheat farm—no matter in which direction one looks, it is a continuous sea of golden waving wheat. The happy owners of these prolific acres are in the fields with headers and harvesters, and the numerous stacks attest the abundance of the harvest.

From Hastings to Red Cloud the sod houses of early settlers are giving way to handsome farm houses, and the crops are just as good and as abundant as at any other part of Nebraska. The Republican Valley lands are largely held by the old Nebraska Railway owners, but numerous fine farms gladden the eye where only a few years ago the buffalo and antelope held undisputed sway. He speaks of Red Cloud as a fine growing town of about 1,000 inhabitants full of push and vigor.
