### And Not Many the Wiser—Gasoline line Enough to Keep Aloft Many Days.

Atlantic, N. J.—Sailing into a thick fog that hung low over the Atlantic ocean a few minutes after 8 o'clock, Walter Wellman, with a crew of five men, is believed to be on an epoch-making voyage to Europe in the huge cigar-shaped airship America. The men making the flight are Walter Wellman, commander; Melvin Vaniman, chief engineer and next in command; F. Murray Simmons, navigator; J. K. Irwin, wireless operator; John Aubert and Albert Louis Loud, assistant engineers.

The start of the America was one of the most dramatic events ever occurring here. ### Dynamiter, Himself a Married Man, Knew What Awaited Forgetful Husband.

The business man was sitting in his office, thinking of starting for home, when a suspicious looking person came in with a leather bag in his hand.

"If you don't give me \$25," said the visitor, coming at once to the point, "I will drop this on the floor."

The business man was cool. "What is in it?" he asked.

"Dynamite," was the brief reply. "What will it do if you drop it?"

"Blow you up,"

"Drop it!" was the instant command. "My wife told me when I left home this morning to be sure and send up a bag of flour, and I forgot it. I guess it will take just about as much dynamite as you have there to prepare me for the blowing up I'll get when she sees me!"

He threw himself back in his chair and waited for the explosion, but it did not come.

"I'm a married man myself," said the dynamiter, and quietly slipped out.—Illustrated Bits.

### History of Red Cross Seal.

"Charity stamps," first used in Boston in 1862 for the soldiers' relief funds during the Civil war, were the original forerunners of the Red Cross Christmas seal, which will be used this year to bring happiness and cheer to millions.

The Delaware Anti-Tuberculosis society in 1907 for the first time in America made use of a stamp for the purpose of getting revenue to fight consumption. In a hastily organized campaign of only three weeks they realized \$3,000. The next year, 1908, the American Red Cross conducted the first national tuberculosis stamp campaign. From this sale \$135,000 was realized for the anti-tuberculosis movement. In 1909, under many adverse conditions, \$250,000 was realized from these stamps. This year the slogan of the tuberculosis fighters and the Red Cross is "A Million for Tuberculosis From Red Cross Seals in 1910."
