How Nebraska Grows.

The State Board of Agriculture has been studying the increase of crop production and farm values in Nebraska for the period since the census of 1900; this study of the principal crops from 1912 to 1911 shows an encouraging increase in valuation of Nebraska products.

In this period of eight years the corn crop has increased in total value thirteen per cent; the value of the wheat crop has increased twenty-nine per cent; potatoes show eighty-two per cent of increase; the hay crop jumps to 163 per cent and the value of horses 155 per cent.

In dairy cattle there is an increase of 30 per cent in value and swine 70 per cent, while the total value of all farm property has increased 178 per cent in the ten years since the census of 1900.

When it is remembered that Nebraska now stands second in the entire Union in the per capita value of farm property it requires no gift of prophecy to predict that the census of 1920 will show this state in undisputed leadership of the agricultural column. This situation should be encouraging to every interest connected with the development of Nebraska.

1913 Will Be Lucky For Home Builders

who sidetrack procrastination for action and get busy early on their building plans. The kind of lumber you would be satisfied with is as cheap now as you will ever see it and, at the prices we are quoting on the quality you would expect, we say with all emphasis—"BUILD NOW". With our knowledge of the different woods and their application to home building we can doubtless show you how you can attain your ideal home at a much less cost than you think. Price-per-thousand for lumber is very misleading to the inexperienced, but when a plan is figured judiciously and the right lumber specified in the right place the total cost is often a pleasant revelation. Our business requires this exacting knowledge and we are sure we can satisfy you in price, quality and service. Let's talk it over. We have everything from joist to shingles.

Boy or Beer Barrel Which ? For Which Will You Vote?

Have you a boy to spare? The saloon must have boys or it must shut up its shop. Can't you find one? It is a great factory, and unless it can have 2,000,000 from each generation, for raw material, some of these factories must close up, and the operatives be thrown out upon a cold world, and the public revenue dwindle! One family out of every five must contribute a boy in order to keep up the supply. Will you help? Which of your boys shall it be?

"The open field for the creation of the drink appetite is among the boys. After men have grown and their habits are formed, they rarely ever change in this regard. It will be needful, therefore, that missionary work be done among the boys, and I make the suggestion, gentlemen, that nickels expended in treats to the boys now, will return in dollars to your tills after the appetite has been formed. Above all things, create appetite!"—An officer of the Ohio Liquor League.

Not By My Vote!

Men will have strong drink, and men will sell liquor, but

NOT BY MY VOTE!

Saloons may go on like the brook, forever, and men may die by the thousands in them, but

NOT BY MY VOTE!

Truth may be wrecked and character dismantled, homes may be destroyed and women and children beggared, but

NOT BY MY VOTE!

Children may be caught in the saloon snare, the victims of alcohol may fill our jails, almshouses and insane asylums, but

NOT BY MY VOTE!

The saloon may impoverish and de-grade the people; produce idleness, disease and pauperism. It may breed anarchy and crime, but

NOT BY MY VOTE!

To The Christian Church Everywhere.

"It is time something besides singing 'Onward Christian Soldiers,' was done by the Christian people," said the Hon. John Wanamaker in an address delivered on Temperance Sunday, in a Philadelphia church. "We must now stand together for the total abolition of the liquor traffic, which is bound to come in time. I believe that the Republican party; or any party that fails to recognize this fact, is doomed: I am a Republican, and I love the old party of Lincoln, Harrison, Grant, Garfield and McKinley, but I realize that the grand old party cannot be kept up to its standard until it excludes the liquor business. It was difficult for me when I lived in Washington to entertain foreign officials without serving them with strong drink, but none of them ever had anything to drink at my house. I have been a teetotaler since 1877. The appetite for strong drink is an appetite that grows. It is the Devil's best weapon and the world's greatest curse."

Nebraskans Flock to Made-in-Nebraska Show

Omaha, Neb., March 18th.—An average of 7,500 daily visited the Made-in-Nebraska show, which has been held here for the past ten days. The greater majority of the visitors were Nebraskans, and were surprised at the great variety of articles made in Nebraska. Hastings, Fremont, Lincoln and other towns had most creditable displays.

The annual meeting of the Federation of Nebraska Retailers, under whose auspices the show was held, was the largest attended in the history of the Association. One thousand retail dealers visited Omaha during the week. Only morning sessions of the convention were held, the afternoons being devoted to the inspection of the exhibits.

C. E. Beinert of Wymore was re-elected President of the Association; G. W. Darnor of Bethany, Vice-President and Mr. M. A. Hostetler of Shelton, Treasurer.

For the last four years the Association has met in Omaha and has grown from an organization numbering fifty to one now having a membership of 2,200 and an average annual attendance of 900.

The organization declared for progressive legislation in its report of the resolutions committee.

To wreck a train is a crime, but to wreck a human soul is a privilege that the state sells.

One of the problems which will vex the future student of history of this period will be the question of accounting for the slowness of the people to throttle the monster known as the traffic in intoxicating liquor.—President Anthony of Adrian College.

My Hens Lay in Winter

Somewhere, just emerging from college or starting to practice law in a country town, are young men who, twenty years from now, will become the moral and political leaders of their generation. What will their issues be? We think that one of these leaders will be a man who recognizes that alcohol is a poison and that prostitution in this country is quite largely a commercialized incident of the liquor business.—Collier's Weekly.

What about the pool rooms of Red Cloud? Is it a place of which we are proud and like to take our friends? Is it a place where we like to have our fathers, sons and brothers frequent? Is it a place where one can find something that shall improve them, morally, physically and intellectually, or in anyway serve to help them to live up to the standard of true manhood.

If not, then of what use is it to Red Cloud? Let's eliminate it!
