On Wednesday of last week the Modern Woodmen of America held a county convention at Guide Rock and the following resolutions were passed:

First—That we favor the repeal of the Chicago rate laws and we do not favor any raise in rates of more than 25 per cent, the same to apply on the old rates at the age of entrance.

Second—That we denounce the methods of our present head officers in the matter of the raising of rates and in the general management of our order and we demand a complete change in the present administration.

Third—We favor the seventy-year plan, whereby members who attain that age may surrender their certificates and receive in cash the amount contributed to the benefit fund and also retain fraternal membership in the order without expense.

Fourth—That we demand radical re-trenchment in the expenditures from our general fund and substantial reduction in salaries and compensation and a limit of not to exceed two terms for head officers and the return of all deputies to a commission basis of compensation.

Fifth—That we favor a thorough investigation of the management and methods of the Modern Woodmen Sanitarium at Woodman, Colorado.
