 The following shipped stock to St. Joe, Sunday: George Amack, 1 car of hogs; Ed. Wiggins 3 cars of hogs and 1 car of cattle; O. E. Ranney, 1 car of hogs.  
 "Because I Love You," the home talent play given for the benefit of the R. N. of A., at the Orpheum on last Friday night, was welcomed by a large audience. Much credit is due to those who took part in the production as well as to the managers of the troupe. The specialties between acts, featuring Mr. M. A. Mercer, cornet solo and Messrs. Curtis Friday and Glen Walker, vocal solos, made a decided hit with the audience. In all, it was one of the best entertainments given in our city.  
 On Wednesday evening, last, Sheriff Huffer and Deputy Boner were called to Bladen to look into the matter of a complaint filed by Wm. Burden, of that place, charging Frank Kunkle and Arthur Glebe with making an assault upon the complainant, and wounding him. The trouble is said to have originated in Glebe's home, the participants having overindulged in liquor. Sheriff Huffer took the defendants into custody, bringing them before Judge Ranney who decreed that their little "sprees" would cost Kumpke \$25 and costs and Glebe \$10 and costs.

Mr. and Mrs. Will Smith left Saturday for Sutherland where they will make their future home.  
 Harry Stroup went to Guide Rock, Wednesday, to complete the erection of a new house for G. R. Stanley.  
 The Red Cloud W. C. T. U. holds a Francis E. Willard commemorative service each year and sends at least two dollars to the Francis E. Willard Memorial Fund. This fund is used for the perpetuation and extension of the temperance cause in the United States and its possessions. This service will be held at the home of Miss Cotting, Wednesday afternoon at 2:30, Feb. 21. A good program is being prepared and we will be glad to give a cordial welcome to all interested.

**Seed Testing**  
 Many states now have pure seed laws designed to protect the purchaser of seeds against adulteration, impurities and low vitality. Seeds should be purchased subject to test as to purity. Vitality may readily be determined at home by the use of any simple germinator. Dangerous weed seeds are often introduced thru the use of impure seed.

**Coming Mary Pickford in The Pride of The Clan**  
 One very cold morning in November when the Atlantic ocean was showing a great deal of its temper, Mary Pickford was taking all sorts of chances by being left alone on a half-sinking craft off the coast of Marblehead where she was rescued as part of the story in her new picture, "The Pride of The Clan" at the Orpheum Theatre next Saturday, February 17th.

Miss Pickford had been running up and down the sea-washed deck, getting real water all over her and frantically crying for help as she felt the frail craft sinking beneath her. As the water got up to her knees and the cameras kept on clicking she courageously emulated the example of the boy who stood on the burning deck, until Maurice Tournour, the director, arrived in a motor boat and lifted her to safety. With her teeth chattering from the morning bath and still feeling a little creepy after the sensation, she took her director to a corner of the cabin and whispered:  
 "If we are going to have any more pictures like this, I'm going to learn how to swim!"

Special Orchestra music. Matinee at 2:30 and 10 and 20c. Night at 8, adm 10 and 25c. Seats now on sale at Cook's drug store. Reserve your seats early without extra charge.

**The Biggest Sale Yet**

Last Saturday a deal was consummated whereby G. M. Howard, of Red Cloud, Nebr., became owner of the fine 1265 acre ranch about 8 miles north of St. Francis, owned by Josiah Crosby. Mr. Howard paid the handsome sum of \$33,500 and in return got one of the finest farms in Northwest Kansas.

This is the place where Mr. Crosby has spent fabulous sums, demonstrating the wonderful power of irrigation. In 1913 he installed an 8 in centrifugal pump, with a capacity of 800 gallons per minute, and built a large reservoir, where considerable experimenting was done. The plant was so successful that it soon became famous. There are 800 or 900 acres of fine bottom land which is rich alfalfa soil. It is all fenced and cross fenced and is well worth the large sum paid for it. Mr. Howard was interested in Cheyenne County thru Dr. Robt. Damerell, of Red Cloud, who owns a fine ranch near the above land, and who considers his Cheyenne County ranch the best paying investment in all of his large holdings, and it is no light compliment to have a man of such wide experience and splendid business acumen using his influence to bring men of wealth and up-to-date ideas to our county.

Mr. Howard and family will take possession March 1st, and will receive a hearty welcome from our people.—St. Francis (Kansas) Herald.

**Potatoes as Food**

General use of potatoes in the family diet is based on sound economic and dietetic reasons, according to Bulletin No. 468 recently issued by the United States Department of Agriculture, Washington, D. C.  
 From the point of view of dietetics, potatoes furnish starch in one readily digestible form, contain mineral substances of importance to the body, and tend to make tissues and fluids of the body alkaline, thus counteracting the tendency of meats, eggs, fish and like foods to create acid conditions. Since the body does its work best when its condition is either neutral or slightly alkaline, potatoes perform an important function in the body besides furnishing energy-producing material.  
 Greater care should be exercised in peeling potatoes,—not only because paring too deep is wasteful but because soluble mineral salts found in the potato are present in the material near the skin.
