The approaching war and the high cost of living have been very successful in interesting the majority of the citizens of our city in the "Back to Nature" movement which is now sweeping over the country. Heretofore many of our citizens have been content to sit on their front porch and watch the neighbor toil in the back yard with shovel, hoe and rake, but since spuds are quoted at \$2.00 per and onions at two bits a whif many of these lovers of a cozy arm chair have followed the good advice of the thrifty neighbor and are now seen with their arms bared and their head bowed in toil. The industrious people will not only be rewarded with vegetables of their own culture but many have expressed themselves regarding how the exercise has added to the joys of living.

Saturday, April 21st

Will be the BIG Day at the Orpheum

This subject will strike a chord of favor among the young and old alike for its power to entertain, educate and surprise. Special Orchestra Music.
