

Nebraska Towns May Get Benefit of Rail Rate Cut

I. C. C. Recommends That Material Reductions Be Made From Mississippi Shipping Points.

Hastings, Neb., June 20.—(Special Telegram)—Material reductions in class freight rates from Chicago, St. Louis and Mississippi river points to Hastings, Grand Island and Columbus, Neb., have been recommended to the Interstate Commerce commission by Examiner Keppart, who held a hearing for the commission in this city last September.

The proposed cuts are on all classes of freight and are recommended as a remedy for rates which the examiner holds are "unreasonable and unduly prejudicial."

The report will come before the commission in the near future, when oral argument will be made by the central jobbers and the railroads. The recommendation remains to be approved by the commission, but the examiner's finding is so sweeping that local shippers are confident the order will be forthcoming.

Local shippers were jubilant over the partial victory thus gained, which they believe will lead to placing the interior shipping points on an equal basis with the Missouri river points.

The three interior towns joined in the complaint and united in presenting the evidence to Examiner Keppart. An example of the cuts recommended is shown in the following comparison of the Chicago rates proposed by Mr. Keppart and the rates now in effect.

Central High Junior Elopes With Senior

Dorothea Deutsch.

Voris Moser, 17, youngest son of Mr. and Mrs. E. E. Moser, 5415 Florence boulevard, graduate of this year's class at Central High school, and Dorothea Deutsch, 17, only daughter of Mr. and Mrs. Louis A. Deutsch, 809 North Forty-ninth avenue, a junior in the same school, eloped Saturday night, their parents believe.

"We think they were married in Denver Monday," said Mrs. Deutsch. "We have had no direct word from them, only mysterious telephone messages each day that everything is all right."

Mrs. Deutsch believes her son decided to elope in the spirit of pique because she rebuked Voris for "staying too late" at the Deutsch home Friday night.

Two Youths in Fatal Car Crash Fined \$200

Robert Swan and Clifford Russell, who have been in custody of district court since last July on charges of joyriding after one girl was killed, pleaded guilty before Judge Leslie yesterday and were fined \$200 each. Their prison sentences were suspended.

Fred Keltz, another member of the party, has not yet been arraigned.

The three men obtained a large touring machine at the Underwood garage, where Swan and Keltz were employed, picked up three girls, Marjorie McWilliams, who was killed, and Irene Rostermundt and Grace Rainey.

All were injured when the machine failed to make the turn at "Death curve" on the Elkhorst road. Russell lost an eye. The accident occurred July 24, 1921.

The Human Terms of Tire Competition

MANY an American citizen has turned down a "job that looks like more money" in favor of a chance to do better work.

He gets called an idealist, perhaps. But when folks want to buy good merchandise and satisfactory service he's the kind of man they look for.

For practical example note the tire business.

Think back to the time when cord tires started to be talked about.

Cord construction had for its ideal a bigger service value for the car owner.

Whenever the cord principle was faithfully carried out it lived up to its original vision.

Now the makers of U. S. Royal Cords ask permission to put this on record:

Without high integrity of manufacture the cord tire might just as well not have been discovered at all.

Respect for the fine and rigid rules of cord tire building has made U. S.

Prices on United States Passenger Car Tires and Tubes, effective May 8th, are not subject to war-tax, the war-tax having been included.

Royal Cords the measure of all other automobile tires.

A leadership obtained in less than seven years and in competition with hundreds of different cord tire brands.

How much could be saved for American car owners if all tire makers would compete day in and day out just on quality alone?
