

Congress Is Asked for Irrigation of Nebraska Land

Joint Resolution Introduced by Norris and Andrews for Experiments in Three Counties.

Washington, June 24.—(Special Telegram.)—Senator Norris, in the senate, and Representative Andrews, in the house, introduced a joint resolution calling upon the secretary of the interior to experiment in Phelps, Kearney and Adams counties of Nebraska, to determine whether or not the plan brought here by George E. Johnson, state engineer, and other Nebraskaans, providing for the irrigation of the soil along the Platte river is feasible.

This is the plan of the Central Nebraska Supplemental Water act. The plan proposes that ditches shall be dug through the lands of the owners to be benefited. No dams are to be built. The water is expected to seep through these ditches into the sandy subsoil, furnishing a reserve of moisture for the dry season.

The delegation consisting of Engineer Johnson, Mayor C. W. McCaughy of Holdrege, George P. Kingsley of Minden, and President Kirk Griggs of the Hastings Chamber of Commerce, conferred today concerning their plan with Representative Johnson, Senator Norris and Representative Kinkaid, chairman of the committee on irrigated lands.

Hastings Motorist Jailed for Driving Car Recklessly. H. Tribby, Hastings, Neb., arrested Friday night following the automobile collision at Sixteenth and Leavenworth streets, was sentenced to jail for 20 days in Central police court Saturday morning on charges of drunk and reckless driving.

Thomas Pratt, 1916-12 South Tenth street, his companion, was fined \$25 for being drunk.

The hearing of O. W. Gangsted, 1415 Sweetwood avenue, on charges of drunk and reckless driving, was continued to next Tuesday to permit securing of another witness in the case.

Real Estate Man Held for Trial on Forgery Charge. Melvin Smith, 35, real estate dealer with offices in the LaSalle building, was held in \$1,000 bail in Central police court Saturday morning on charges of forgery for a hearing July 13.

Smith is accused of forging checks for \$250 signed by C. P. Simpson of O'Neill, Neb., and endorsed by himself.

Both the defense and the prosecution claim Simpson is a "phony." The defense contends Simpson would admit giving the checks to Smith, and the prosecution declares Simpson would say he never knew Smith.

ADVERTISEMENTS. BIG ULCER ALL HEALED. "Now I Can Walk," Says Mrs. Southcott of Medina.

"Here is another letter that makes me happy as a lark. I would rather have a thousand dollars than a single day of this kind of life. There is nothing like it in this world. I have a big, big heart, and I would give all I have on earth to be able to produce a remedy with such mighty healing power as Peterson's Ointment, to sell at all drug stores for 50 cents a large box."

Read this letter, written February 14, 1918, by Mrs. Albert Southcott of Medina, N. Y. It describes how she was cured of a big ulcer, and how she is now a happy, healthy woman.

"I know it because I got similar letters from other people who have used my ointment for old sores, eczema and skin diseases."

"I was an untold sufferer from an old running sore and ulcer. I had tried most everything without any relief. A friend told me of your wonderful ointment and the first box took away the pain that had not left me for years, and after using just nine dollars' worth of the salve I am cured. The salve is 1/2 inch thick, and it is the best I have ever used. Never, never will I be without Peterson's Ointment. It is a wonderful cure for all skin diseases."

RADIO For Sharp Tuning Loosen Coupling

Radio Amateurs Should Use Care in Manipulating Loose Coupler.

Tuning in on broadcasting stations has puzzled many radio enthusiasts. They sometimes find that, try hard as they may, they get nothing but cryptic sounds from the big commercial stations.

To tune a receiving set that incorporates a loose coupler as the main tuning device, set the coupling as tight as you can, tune in the desired signals with the primary or outside inductance, and then tune in with the secondary or inner inductance until you have the greatest strength of signals.

Practice Makes Perfect. Loosen the coupling between the primary and secondary until the signals are just audible. Retune with the primary and the secondary until the signals are strongest at the present setting of the coupling. Finally tighten the coupling until you get the maximum clarity. This method of tuning with the loose coupler is the only right way, and when the signal is tuned in this manner there will be a minimum of interference.

When a receiving station is tuned to a certain transmitting station, the set, it is in resonance with the other station. A simple way to explain this is to say that the wave lengths are the same. This is accomplished by adding or subtracting a certain number of turns of wire in the coils and thus equalizing the wave lengths of the two stations.

ADVERTISEMENTS. SPARKS. According to George R. Putnam, commissioner of lighthouses, the radio telephone system will make the life of the lighthouse keeper less lonesome and certainly more cheerful.

The keepers of the Alaska lighthouses at the entrance to Behring sea, for instance, remain at their posts for three years at a stretch, and some of them remain without mail for 10 months at a stretch. With the cooperation of the navy radio telephone equipment has recently been installed in several of the remote lighthouses in Alaska. Some of the lighthouses are equipped with radio fog signal stations. The radio installations are certain to maintain communication between the lighthouses and the outer world, and make life that much more endurable.

Broadcasting stations should shut off transmitters when not in actual operation to prevent unnecessary interference from carrier wave. Care should be taken not to extend schedules resulting in interference with the schedules of other stations. Transmitters should be adjusted so as not to produce unnecessary interference. It has come to the attention of the Department of Commerce that some stations have interfered over a band of from 200 to 500 meters, which may be reported as a violation of the law.

Rodman Wanamaker took with him on his recent trip abroad an American made receiving set for the purpose of showing it in Paris and London as representative of America's progress along these lines. Much interest has been shown abroad in America's rapid development of efficient radio apparatus.

Radio Editor, Omaha Bee—Dear Sir: As a member of your invisible audience one or two nights a week, I wish to thank you for the splendid talent you have been furnishing and hope you will continue to give us the same variety. Yours truly, Dr. M. J. Powell, Fairbury, Neb.

Iowa High Court Rules Grocer's Slayer Must Die. Des Moines, June 24.—(Special Telegram.)—William Olander, convicted of the murder of Berthold Halpapp, Fort Dodge grocer, yesterday was denied a rehearing by the Iowa supreme court. This means that Olander will hang August 11, unless his case is appealed to the United States supreme court, as his attorney indicated might be done.

15-Gallon Casks Found. Detectives Potach and Belitz found five 15-gallon casks of alleged liquor in the home of T. J. Keller, 5010 South Thirty-ninth street. Keller was released on \$500 bond to appear in South Omaha police court Monday.

Prayer Each Day. The Lord is worthy to be praised.—It Am. 12:33. O Thou who art the same yesterday, today, and forever, as we think back over life, we think how many revelations we have had of Thee. Some days we were sure that Thou art infinitely kind; some days we have groaned in bitterness. On some of the bright mornings of life our hearts have sung in spite of us; and on the black midnight of our hearts have sunk in despair. Yet, Thou art the same Lord; God over all, blessed forever. "Whose property is always to have mercy," and Who has never required us according to our sins, but in wrath "has remembered mercy." Father, we are daring to say to our hearts that what Jesus was, Thou art; that He unveiled Thee for us. As men, tempted and defeated could trust Him, we may trust Thee. As women scorned, trusted Him, we may trust Thee. As little children held out their arms to Him, with the unerring response of childhood to goodness, so the children of our homes and hearts may hold out their hands to Thee, Who art the Father of our Lord, Jesus Christ, and of us all. Accept our thanks for the days past, and our prayers for this day, and our heart-felt trust for the days to be. In the Name of Christ, Amen. GEORGE CLARKE PECK, D.D., Baltimore, Maryland.

Payroll Padding in Des Moines Is Under Scrutiny

Thousands of Dollars in Public Money Is Alleged to Have Been Drawn Fraudulently.

Des Moines, June 24.—(Special Telegram.)—Excessive payrolls, said to have been "padded" by thousands of dollars of public money, irregularities in the drawing of pay checks and wholesale charges of civic corruption were made the subjects of a "cleanup probe" undertaken by the city council Friday in what promises to be a thorough going expose of municipal graft.

The probe was begun Friday following an audit of city books made by state auditors, and a three-week investigation by secret service men. The first step of the probe will be to determine the extent of the practice of one man drawing warrants for entire gangs of city employees, which was in vogue until a month ago.

According to the charges foremen would send in "padded" time sheets to departmental time keepers. When pay day came these foremen would go to the city hall, draw warrants for the entire gang, and cash these warrants at the city treasurer's office. Men were paid the right amount and the "extra" was pocketed by the foreman, according to the charges which the council is investigating.

"Cooler" Is Forecast New Record Friday. More respite from Friday's heat record was promised by the weather bureau in forecasts or cooler Saturday night and Sunday.

Heat records for the state, as well as Omaha, were shattered Friday. Culbertson reported 105, the hottest this year. Nine other stations reported 100 and over. Omaha's record of 98 Friday was the highest since the record of last year, June 28, and ties that figure.

Light showers before 7 Saturday morning, which gladdened this vicinity, were reported from Lincoln, and Des Moines as well. But .04 of an inch of rain fell.

Grasshopper Glacier Is Found in National Park. Washington, June 24.—A sight that would have gladdened the heart of John the Baptist is shown in photographs of the newly-declared Grasshopper Glacier in the northeast corner of Yellowstone National park. Lobinger Cleared of Misconduct Charge

Washington, June 24.—Charges of misconduct in office filed against Judge Charles S. Lobinger of the consular court of China were said at the White House yesterday to have been without foundation. The judge, it was said, will return immediately to China.

Investigation of the charges against Judge Lobinger, which were made by Fleming, chief of the American attorney and head of a law firm in Shanghai, have been in progress for nearly a year and several months ago the judge came to Washington in connection with the inquiry.

Charges against the judge grew out of his action last July in sentencing Fleming to six months' imprisonment for contempt of court. After Fleming had served 13 days Judge Lobinger suspended the sentence pending review by the ninth district United States court of appeals of California, to which the case was taken on a writ of error. The charges against the judge involved, among other things, an attack on the veracity and impartiality of the court.

Judge Lobinger, who was appointed to the court in 1914 by President Wilson for a 10-year period, is a former resident of Omaha, Neb. Lad, 14, Drowned in Pool at Lincoln. Lincoln, June 24.—(Special Telegram.)—The body of Bert Kite, 14, College View, was found in the municipal swimming pool here yesterday. The boy had been working on the farm of an uncle, Chris Larsen, near Lincoln, and drove into the city with his relative shortly after.

At the pool when he failed to get out, he was rescued by lifeguards. After diving for 10 minutes the body was found. A pulmonator was used for 30 minutes.

Prayer Each Day. The Lord is worthy to be praised.—It Am. 12:33. O Thou who art the same yesterday, today, and forever, as we think back over life, we think how many revelations we have had of Thee. Some days we were sure that Thou art infinitely kind; some days we have groaned in bitterness. On some of the bright mornings of life our hearts have sung in spite of us; and on the black midnight of our hearts have sunk in despair. Yet, Thou art the same Lord; God over all, blessed forever. "Whose property is always to have mercy," and Who has never required us according to our sins, but in wrath "has remembered mercy." Father, we are daring to say to our hearts that what Jesus was, Thou art; that He unveiled Thee for us. As men, tempted and defeated could trust Him, we may trust Thee. As women scorned, trusted Him, we may trust Thee. As little children held out their arms to Him, with the unerring response of childhood to goodness, so the children of our homes and hearts may hold out their hands to Thee, Who art the Father of our Lord, Jesus Christ, and of us all. Accept our thanks for the days past, and our prayers for this day, and our heart-felt trust for the days to be. In the Name of Christ, Amen. GEORGE CLARKE PECK, D.D., Baltimore, Maryland.

"New York"—The girl or woman who neglects to beautify her hands and arms (and that is nearly every woman) is only herself to blame if beautiful success eludes her. It is not her fault, it is her neglect. Her hands and arms are the first things that a man notices when he meets her. They are the first things that he notices when he meets her. They are the first things that he notices when he meets her.
