

Denby and Party Reach Yokohama; Given Welcome

Secretary Greeted With News of Acceptance by Japan of Nine-Power Treaty.

Yokohama, July 2.—Escorted to the harbor by destroyers and planes, the steamship Henderson, carrying Secretary of Navy Denby and the class of 81 of Annapolis naval academy, arrived at noon today. Tugs carrying Admiral Uryu, representative of the Japanese government, the American ambassador and mayor of Yokohama and the governor of the local province, met the ship outside of the harbor, extending the first welcome to the delegation. The first news given to Mr. Denby was the unannounced acceptance yesterday of the nine-power treaty, completing the Washington program.

When told that the imperial signature probably would be obtained on the Fourth of July, he said, "I am sure such a coincidence will be most gratifying to the American people."

Dawn of New Era. In a formal message to the press, he said: "We stand at the dawn of a new Pacific era. Trade will increase beyond present dreams. There is always danger in trade expansion. We must so carry on dealings between ourselves and great friendly nations as to keep the Pacific ocean in peace. We shall succeed."

For 68 years we have had no interruption in our friendship, though many irritating incidents tested our patience. The treaties signed in Washington make for strengthening the friendship. Japan's attitude is applauded by the world. The world now realizes that international law does not offer protection against war unless there dwells in the heart of the people a sense of justice and determination to enforce it."

He said that never was a class reunion held under such remarkable circumstances.

Party in Good Spirits. The secretary and his party are in excellent health and in the best of spirits, the only untoward event being the loss of June 24, which was dropped in crossing the time-line, preventing celebration of the birthday of Gen. Barnett's daughter, Miss Gordon.

Senator Weller, the president of the class of '81, expressed for his classmates the keenest pleasure at the realization of the plan adopted in Washington a year ago for a meeting in Japan, especially at the birthday of the cabinet, the American ambassador and a host of Japan's most prominent men.

A SWEET LITTLE BABY BOY

Makes a Bright Spot in Every Home. A Comfort in Years to Come

Park Rapids, Minnesota.—"I have taken your medicine—Lydia E. Pinkham's Vegetable Compound—which was a relief for pains and before and after my marriage. I now have a sweet little baby boy and will send you his picture if you wish to publish it. My sisters also take your medicine and find it a great help, and I recommend it to those who suffer before their babies are born."

—Mrs. Wm. JOHNSON, Box 165, Park Rapids, Minn.

To marry and arrive at middle age without children is a great disappointment to many women. Think of the joy and comfort other women have in their children as they grow older.

Lydia E. Pinkham's Vegetable Compound has helped to bring great happiness to many families by restoring women to health. From the children's home is due to a run down condition of the wife, which may be helped by Lydia E. Pinkham's Vegetable Compound. It brought health and happiness into the home of Mrs. Johnson. Why not yours?

French Soldier New Ruler of Principality of Monaco

Prince Louis, Distinguished Fighter in Colonial Forces, Has 13,000 Subjects—Emperor of Annam Sees Longhamps Races—Americans Severe on Sexual Morals, Says Dramatist.

Paris, July 2.—(By A. P.)—A brigadier-general in the French army becomes the new prince of Monaco by virtue of the death this week of Prince Albert.

Prince Louis, son and heir to the late prince, is a graduate of St. Cyr, the French West Point. He served with the French colonial forces, with which he went through the campaign of 1914 as captain of the African Chasseurs. He finished his service in the war as lieutenant-colonel of a regiment of the Foreign Legion, composed of none but real fighters.

He was a tactical leader and was considered capable of managing those who were as difficult to handle as they were hard to beat in battle. So it is thought the new prince will be equally successful at the task of handling the 13,000 persons of the little Mediterranean principality and its few dozens of men comprising the army and police, as well as that other "foreign legion" which patronizes the roulette wheel at Monte Carlo.

Had Score of Titles. The late Prince Albert held a score of titles besides the prince of Monaco, but the one he was most proud of was that of member of the French Academy of Medicine and the institute, to which he was admitted in recognition of his famous deep sea soundings.

He was a great admirer of America and American ways. He even took for his second wife the dowager duchess of Richelieu, who was Miss Alice Heine of New Orleans, after his first marriage with Lady Douglas Hamilton, mother to Prince Louis, was annulled by the Vatican. The second marriage also was dissolved by a Monaco court in 1902.

Attracts Spectators. Of the 100,000 spectators at the Longhamps races last Sunday, comparatively few saw the Grand Prix run, but nearly all caught a glimpse of the emperor of Annam, Khai Dinh, in a gorgeous costume

Metal Changes Wave Direction

Electric Wire or Cable Will Ward Off Radio Waves From Sending Station.

Objects made of metal will usually change the direction of radio waves. Thus any electric wires or cables or any metallic structure, such as the steel frame of a large building, are likely to cause deflection of the radio waves to change as they travel along the surface of the earth. Even rivers and possibly trees during the spring when the sap is running may affect the direction of the passage of radio waves.

A comparison may be made with the waves of light which are transmitted from any object which we are able to see. The light waves are ordinarily travel in a straight line, but when they strike some irregular piece of glass they are bent from this straight line. A familiar example is the bending of rays of light by the use of a glass prism or lens.

Can Tell Source. Everyone is familiar with the distortion of light waves caused by a glass of water. A coin or other small object placed in the glass appears, when seen through water, to be in some position other than its real position.

If no objects are in the path of the waves to cause deflection of the front of the wave, one can tell from the position of this wave front the direction from which the wave has come—in the case of the light waves the luminous object or source of light; and in the case of the radio waves, the radio transmitting station.

Take Down Aerial If You Leave for Summer. Omaha radio fans who contemplate going away for the summer months should bear in mind the various things that they should do before locking up the house.

If an outdoor aerial is erected, make sure of proper grounding, see that the grounding switch has not corroded at the terminals, possibly preventing proper electrical connections. This is one of importance to all who are closing their homes for the summer.

Big Business. America is spending about \$6,000,000 a week for radio instruments. Conservative estimates also show that the radio manufacturers have a total of over \$60,000,000 worth of orders booked ahead. Next year this country will no doubt be spending \$10,000,000 weekly for radio sets, but the manufacturers will be abreast of the demand with their deliveries.

Transport Machine Continues Its Work Without Any Halt

Executives Express Belief Walkout Will Have Little Effect—Unions Claim Suspension 100 Per Cent.

Chicago, July 2.—(By A. P.)—With the country wide strike of shopmen declared by union leaders to be practically 100 per cent, the nation's great transportation machine continued its work without interruption.

Railway executives were unanimous in expressing their belief that the strike would have little effect on the operation of their roads and at the same time asserted that any move toward a settlement would have to come from the United States labor board or the employees.

B. M. Jewell, president of the railway department of the American Federation of Labor, who refused yesterday to appear at a federal inquiry into the strike call, reiterated that the only basis for a settlement was for the roads to agree not to put into effect wage decreases recently ordered for the shopmen by the labor board.

Will Protect Workers. Ben W. Hooper, chairman of the labor board, declared in a formal statement that the power of the government, coupled with public sentiment, will give every protection to every railway employee who remains on the job and to all new men who take the places of the strikers in the present walkout.

The walkout began in all sections of the country promptly at 10 this morning and in many places took the aspect of a holiday, the men singing and cheering as they threw down their tools. As reports came in from union headquarters here during the day, leaders asserted that the ranks of the strikers would number more than three-quarters of the 400,000 membership before nightfall.

Later Mr. Jewell said that reports from 128 of the 201 class one roads showed practically a 100 per cent walkout.

The only display of force reported during the day was at Beardstown, Ill., where several hundred shopmen, after failing to persuade four companions to join them in the walkout, picked them up bodily and carried them out.

Men Sent Home. "We sent them home," the leader was quoted as saying, "to avoid trouble." In Chicago, the hub of the walkout, where it is estimated 100,000 men are affected, no disturbances of any kind were reported, and all of the roads claimed that both passengers and freight were being handled without interruptions of any kind.

Among the presidents of railways entering Chicago the determination was expressed to have no dealings with the representatives of the striking unions. They were unanimous in declaring that the issue was not between the unions and the railways, but between the unions and the United States labor board.

The executives also asserted that the strike was far from being 100 per cent in the Chicago district, several thousand men remaining at work.

Man Sentenced to Jail Following "Wild" Party

Los Angeles, July 2.—Richard Canfield, Jr., found guilty of disturbing his Hollywood neighbors by holding a three-day night party, was fined \$200 by Judge Joseph Chambers and sentenced to 30 days' imprisonment. His attorneys, Arthur C. Verge and O. V. Wilson, gave notice of appeal.

Canfield was rather stumped at the judgment, but declared he had nothing to say. He gave bail of \$500 pending appeal.

Parents' Problems

How can a devoted grandmother be induced not to "spoil" her grandchildren? This is a problem. Explain to the children that they must not take advantage of their grandmother's kindness and indulgence to do what their parents do not wish them to do—such as eat two pieces of cake, when one piece of cake is the rule. Talk the matter over with the grandmother, remembering that she desires the best good for the children as do the father and mother.

York College

The attendance at the summer session is surpassing in class work is excellent. A series of chapel addresses is being planned. President W. O. Jones is giving the field a thorough canvass for student and funds. His present trip will take him into northwestern Nebraska, western Iowa and southern South Dakota. He will be away about three weeks.

Miss Mary Browner, teacher in the United States mission school at Valparaiso, N. M., is attending the summer session. Rev. A. P. Vanice, conference superintendent, was a chapel visitor. A group of students gave a very interesting program in the east library hall Tuesday.

Chadron Normal College

About 125 students in the normal campus Friday afternoon for the annual picnic and picnic supper at the state park, near Chadron. The normal students of the Nebraska State Teachers' association, Everett M. Housman, secretary of the Nebraska State Teachers' association, conducted a membership campaign for the association. Miss Jo Compton, dean of the women at Doane college, is acting as dean of women at the dormitory in the absence of Miss Work this summer.

Stenographer Offers Business Opportunity

In commenting on the present dearth of stenographers, H. B. Boyles, president of Boyles college, says: "The demand for competent stenographers bears out my statement made repeatedly that shorthand and typewriting will always prove the most valuable credentials for the young man or young woman who aims to succeed in the field of business."

"Good stenographers, I mean well trained ones, will always be worth considerably above the average on the scale of office wages and the quicker prospective business workers realize this fact, the sooner they will succeed in this branch of work and the sooner the shortage of stenographers will be relieved."

Creighton University

Francis Kenney, Laurence Park, Bernard Selmeier, Paul Sullivan, Oscar Winterling and Albino Zamora, R. J., professors and instructors in the college of arts and the high school, have gone to Campion college, Prairie du Chien, Wis., for the summer. Prof. Zamora will teach Greek in the summer school at Campion, and in August he will go to St. Louis to begin his four years' course in divinity. Prof. Winterling also intends to go to St. Louis at the end of the summer, to attend the nineteenth annual convention of the Catholic Educational association in Philadelphia and to attend the summer school opened with 100 students in the regular Creighton facilities of the various departments, the following men from other institutions are teaching in the summer session: Rev. Francis Betton, R. J., of St. Ignace college, Cleveland, Ohio; Rev. George Pickett, R. J., of Campion college, Prairie du Chien, Wis.; chemistry; Rev. Edward Hart, S. J., of Loyola university, philosophy; Rev. Joseph McElmeel, S. J., of St. Louis university, Latin.

Wayne Teachers College

Two numbers of the lecture course have created a keen interest among the patrons of the college during the past two weeks. Rev. Walter Aiken, pastor of the Saint Paul Methodist church at Lincoln, introduced the classes in literature in Burns, Virginia, Lawrence, Wayne, Edna, Smith, Pender, Wilkes, Craven, Hartington, Ethel Davis, Norman, Crofton, Edna Williams, Royal, Carrie Bartlett, Jordan, (S. D.), Martha Johnson, Brimley, Virginia, Laurel, Louise Lamb, Dixon, Flora Hoagland, Long Pine, Hazel Tibbault, Naper.

Beatrice Man, 70, Sued for Breach of Promise, Weds

Joseph D. Carpenter, Who Paid School Teacher \$500 Heart Balm, Marries Widow, 50.

Beatrice, Neb., July 2.—(Special)—Joseph D. Carpenter, 70, and Mrs. Sadie E. Beach, 50, both of Beatrice, were married here by County Judge Messmore. Carpenter, a retired farmer of considerable means, was sued about three years ago for \$25,000 damages by Nellie Guarna, a school teacher, who claimed to be injured to that extent by Carpenter's failure to fulfill a matrimonial agreement into which he entered with her on Christmas day, 1917. The case dragged through district court until last November, when it was settled by a stipulation under which Carpenter paid Miss Guarna \$500 and assumed responsibility for the costs. The suit was bitterly contested, and at one stage of the proceedings, Carpenter sprang a surprise on his former sweetheart by declaring that he was then, and had always been ready to marry her. The courteous offer was spurned with scorn, and the court held that the woman was, in accordance with established custom, entitled to the last word.

Man Who Escaped Sheriff Month Ago Re-arrested

Salt Lake City, July 2.—John McCaphorn, alleged counterfeiter, who escaped from Colorado deputy sheriffs near Helper about a month ago, was arrested near Storrs in Spring canyon by Deputy Sheriff Ben McMillin and Lever Birch. McCaphorn was being taken from Ely, Nev., where he was arrested, to Leadville, Colo., to face a charge of counterfeiting. He escaped from the Colorado deputies while the train was stopped at Helper. Leadville officials were notified of his arrest and deputies are reported to be on the way here for his prisoner. McCaphorn fled when he saw the deputies today and they had to chase him down a ravine and across a creek before they placed handcuffs on him.
