

Milk Fund Total Hits \$1,095 Mark After One Big Day

"Red-Headed Struthers Kids" of Craig Do Their Bit Toward Relief of Infants.

A noble response from the generous hearted is coming to the silent call of sick and suffering babies in the homes of the desperately poor. Yesterday more than \$120 was added to the fund, bringing it close to \$1,100.

Address your gifts, if you feel you can give, to "Free Milk and Ice Fund, The Omaha Bee." They will be thankfully acknowledged.

New Wires Link Omaha With West

Direct Circuit Installed by Northwestern Bell Will Help Speed Up Business.

With the installation of a new direct long distance circuit leading west from Omaha to Holdrege, the Northwestern Bell Telephone company has linked Omaha more closely with the western part of the state.

Trade between Omaha and the west developed so rapidly that speedier communication was necessary. There are now 90 long distance circuits leading west from Omaha. This includes the transcontinental lines and those terminating in various towns in Omaha's trade territory. It was necessary to install an additional repeater at Grand Island in order to handle the calls from and through that point. There are now four repeaters at Grand Island. A repeater also has been installed at Crawford, improving transmission between Omaha and towns reached through Crawford. Additional copper circuits have been strung between Minden and Holdrege, Minden and Kearney and Kearney and Shelton, making communication between these towns and Omaha more direct. Other circuits installed between Sidney, Alliance and Deadwood, S. D., improve service to northwestern Nebraska and western South Dakota. Another talking circuit, connecting with the transcontinental lines leading west from Omaha, has been installed between Bridgeport and Crawford.

Light and Power Rate May Be Reduced Soon

A reduction of the electric light and power rate from 51-2 cents to 5 cents per kilowatt hour became a prospect yesterday when City Commissioners D. B. Butler and H. B. Zimman committed themselves to support such a measure. The other commissioners will meet the issue when it is presented to the city council.

It is understood that if the city council refuses to pass the 5 cent rate the matter will be presented to the voters at the November election through application of the referendum.
