

"Farmer Defeated If Ford's Shoals Offer Rejected"

Senate Committee's Minority Report Declares Acceptance of Auto Man's Plan Would Cut Fertilizer Cost.

Washington, Aug. 4.—(By A. P.)—Acceptance of Henry Ford's offer for purchase and lease of the government's vast nitrate and water-power projects at Muscle Shoals, Ala., was urged by republican and democratic senators comprising a minority of the senate agricultural committee in a report submitted to the senate today. Strong protest was entered by the senators against the acceptance of the new government ownership and operation plan proposed by Senator Norris, Nebraska, the committee's chairman. The report was submitted by Senator Ladd, republican, of North Dakota. It estimated that the government had lost \$3,000,000 at Muscle Shoals since the armistice and declared acceptance of Ford's offer "the quickest way to stop the losses." In calling attention to charges that the acceptance of Ford's offer would give him a government subsidy in the development of power and the manufacture of fertilizers, the report stated: "If it is a subsidy, it is not such a subsidy as is proposed by the administration in the ship subsidy bill."

"Would Cost Nothing."

It was argued that "The Ladd bill would cost the government 'practically nothing' a year while the ship subsidy bill would necessitate an annual expenditure of \$41,500,000."

After reviewing the conditions under which the Ford plan would be controlled, if accepted, the report stated:

"A fair consideration of all the facts leads unmistakably to the conclusion that under the Ford offer, the cost of fertilizers delivered to the farmer can be materially reduced."

"Will Have Lost Fight."

The report added that from the present fertilizer industry, the farmers expect but little in the reduction of prices, and stated that other fertilizer interests refused an offer by the government to run the shoals plant even when the companies were offered the use of the works free of charge under an agreement allowing them 9 per cent profit on invested capital and an equal division of profits with the government on profits above 9 per cent.

In conclusion, the report stated: "If Mr. Ford's offer is rejected, the farmers will have lost their fight at Muscle Shoals and the Alabama Power company will have won its fight for a complete monopoly in the rivers of Alabama."

British Leaders Declare Intention to Pay War Debt

Chancellor of Exchequer Says Nation Has No Intention of Suggesting Changes in Obligations to U. S.—Speakers Careful to Avoid Anything Which Might Open Discussion at Allied Conference.

London, Aug. 4.—(By A. P.)—Yesterday's debate in the house of commons on interrelated debts and German reparations proved disappointing. It had been expected the debate would bring out further interesting facts respecting the recent note of the earl of Balfour on the subject and regarding Great Britain's future policy on the whole subject of international obligations.

It was apparent that Premier Lloyd George, Chancellor of the Exchequer, Herbert H. Asquith, one of the liberal leaders, and other speakers made a studied effort to say nothing which would embarrass open and impartial discussion of the subject at next week's conference in London between the allied leaders.

During the five hours debate there was constant reiteration of Great Britain's intention to repay its debt to the United States, but no pains were spared to make clearly apparent Great Britain's sacrifices in the war, its generous post armistice attitude and the staggering burdens of taxation.

Sir Robert Hprne, the chancellor of the exchequer, said Great Britain had no intention of suggesting any alteration of its financial obligations to the United States; that the government recognized to the full Great Britain's obligations to pay the debt, "and we do not mean in any shape or form to evade that obligation."

Mr. Asquith won mild approbation

Suspect in Scott Murder Arrested

Man Taken in Cutting Scrape Held for Investigation Into Death of Policeman.

Police detectives are investigating the past actions of James Weaver, 2724 R street, who is suspected of being the murderer of Policeman John Scott, who was killed at Thirty-second and A streets about 11 o'clock the night of February 9.

Weaver was arrested Thursday night following a cutting scrape in which he participated with George Fielding, 5120 South Twenty-sixth street. A woman is said to have been the cause of their fight.

Following the arrest of the two men, Fielding called on Police Sergeant Sheehan and told him that Weaver had violated their friendship of years standing and that he had a confession to make.

Fielding told Sheehan that the day following the murder Weaver called at his rooms and showed him newspaper accounts of the shooting. "I killed him," Fielding asserts Weaver told him.

G. O. P. Platform Is Interpreted by Brookhart

Republican Candidate for Senate From Iowa Approves Planks Made by Party.

Rockwell City, Ia., Aug. 4.—Smith W. Brookhart, republican candidate for United States senate from Iowa, interpreted the republican platform adopted Wednesday's state convention held in Des Moines in a speech delivered last night before a Calhoun county fair crowd, and declared he would stand on the platform as he understood it.

Col. Brookhart, who was the center of attack at both the republican and democratic conventions in Des Moines yesterday, declared that the republican party had adopted his plank on the federal reserve system, that he was especially pleased with the plank calling for conscription of wealth in war, that the bonus plank did not oppose his plan of taxing profiteers to pay for adjusted compensation, and that even the primary plank, rightly interpreted, was a constructive measure.

"In a general way the platform suits me fine. In particular I approve the declaration against tyranical demagogues and socialists. I believe that every railroad attorney demagogue ought to be kicked out of the party. I believe that every socialist grafter, who wants government guarantee on a cost plus basis, ought to be given a quit claim deed to the democratic candidate," he said.

In the opinion of political observers who heard his speech, Col. Brookhart's interpretations of the republican platform may cause its authors some chagrin.

"We fear that a continuation of these conditions will inevitably result in our members, as a matter of self-protection, being drawn into the controversy, and we greatly deplore such a contingency."

In sympathy with Harding.
"We feel that the American public is fully in sympathy with the president's efforts to settle the strike, and in the light of the above facts, and in the interest of public welfare, peace and safety, we suggest you call upon the president and urge him to again bring this matter to the attention of the railroad executives with the hope that he may succeed in convincing them of the necessity of their prompt acceptance of the president's proposal which has been adopted by the shopcrafts."

"Continued refusal to accept the president's proposal for a compromise settlement of pending questions will place upon the railroad executives full responsibility for the increasing seriousness of the situation."

"We suggest you file this message with the president as a basis for discussion with the questions at issue and to show him you have full authority of the undersigned chief executives to meet him. We are wiring the president you will call upon him with authority to discuss this subject."
