We charge that the burdens and wrongs under which we suffer are due to the rule of special privilege, to the domination of fain public affairs, to government that has divorced itself from fealty to the will of the people.

Incompetence Is Charged.

We charge the republican adminis-tration at Washington with incompetence to govern no less than with faithlessness. It has failed to take any effective and courageous part in the great task of restoring peace and good will in the world. It has failed to take any steps toward the im-perative end of restoring our for-eign commerce, for lack of which inby industrial strife and wrong at home, it has failed to take any steps to deal fairly and effectively with a fare of the American people. We believe that the outstanding need of government, as of society and industry, is a spirit of tolerance, kindliness and helpfulness. The rule of hate has made the world sick and feeble. For its regeneration, in invoke the rule of love and human brotherhood
