

# NEWS of SCHOOLS and COLLEGES

## CHOOSING THE SCHOOL

### Boyles Has Large Fall Enrollment

**Intensive Training System Attracts Students From All States in Union.**

Boyles college occupies an enviable position among commercial schools because of numerous special features which distinguish it as progressive and efficient.

H. B. Boyles.

reaching its present high standing. Twenty-five years is a long time to devote to one class of work, but I have my heart in this commercial training work and that probably explains the continued success of our institution.

Boyles college was the originator of the intensive training system as applied to commercial instruction. At present this is the system used in the departments teaching private secretary work, banking and higher accounting, telegraphy and salesmanship and business administration.

Many students are now enrolling for these courses, and a larger number than usual are taking up the regular courses of shorthand and typewriting, bookkeeping, machine bookkeeping, comptometry, civil service and English branches. An increased number of students in the salesmanship and business administration is

expected beginning with the fall term. Boyles college has an annual enrollment of over 1,500 students. The institution is attracting students from practically every state in the union and graduates hold positions in almost as widely spread a territory.

### Creighton University.

Official notification has been received that the meeting of the National Dental Association at Los Angeles last month, a grant of \$1,000 was made by the research commission in favor of Dr. J. H. Foote of the Creighton dental faculty, to assist him in prosecuting a problem which is stated as "A study of comparative dental anatomy and histology in an effort to discover the persistent faults in fundamental structure that directly accounts for subsequent pathology of both tooth and other hard tissues about the mouth."

Dr. Foote received a grant for a similar purpose from the same research commission last year, and other grants from the Nebraska State Dental Society and the Nebraska auxiliary of the Delta Sigma Delta, have recently been noted in the press. The Creighton professor wrote a paper for the Los Angeles meeting reporting the work he had done during the year, and prepared many dissections and drawings of the bones and teeth of fish, which were reproduced on lantern slides. At the conclusion of the presentation a vote of appreciation of his valuable work was passed, and this was sent to him by telegraph.

Other commendations for the same work have been received at Creighton from Dr. A. Hedrick of the Smithsonian Institution at Washington, and Dr. William K. Gregory, curator of the department of comparative anatomy of the American Museum of Natural History at New York. Dr. Gregory also offered to give assistance by furnishing specimens that are little known, and even fossil specimens for investigation.

The meeting of the Association of Science and Mathematics Teachers of the Jesuit Missouri Province, held at Campion college, Prairie du Chien, Wis., August 1-3, Rev. William F. Rizzo, S. J., of Creighton university, was selected physician vice president. In his presidential address, the subject of which was "A Compound Harmonic Motion Machine," he explained the principles and operation of the machine which he has invented and perfected in late years, and on which a number of articles have been published by the American scientific press. He also gave an illustrated lecture on the spectrograph, and read a paper on a practical application of a formula involving the tangent of 2X.

Prof. Bernard L. Sellmeyer, S. J., of Creighton gave a lecture at one of the general sessions of the society, on "How the Heart Works." Rev. Martin J. J. of St. Louis university, formerly of the Creighton faculty, spoke before the biological section on "The Segregation of Venous and Arterial Blood in the Amphibia Heart."

Dr. W. J. Gies of Columbia university has asked for the four places of Greater Creighton dental college, to study in preparing the plans of a new college for Columbia.

Dr. Gies, as chairman of the joint inspection committee of the Carnegie foundation for the advancement of teaching and the national dental education council, visited Creighton with three other professional men last May. At that time he was just completing the work of investigating the 22 dental colleges in the United States and Canada.

A circular letter to prospective dentistry students has been issued by the college of dentistry, advising them that the enrollment of freshmen classes may reach capacity before the month of September, and suggesting that those who desire to begin the study of dentistry this year make an early application.

### Course for Teachers of Music Outlined

Thaddeus P. Giddings.

Thaddeus P. Giddings, who is in charge of the public school normal department in the MacPhail school of Minneapolis, is one of the committee of 10 appointed from the music teachers of the United States to formulate a standard course for those wishing to prepare themselves to become music supervisors. The course as outlined by them has been adopted by the MacPhail school and graduates will continue to be eligible to receive a teacher's certificate without further examination. The fall term will open September 11.

### Y. M. C. A. Night School Part of Large System

Did you ever realize that, as a student of the "Y" night school, you are a member of the United Y. M. C. A. Schools of North America—the greatest educational organization in the United States?

One hundred and fifty thousand men and boys enrolled last year. This represents a larger male enrollment than all the combined state universities in America.

By being a part of this system the Omaha Y. M. C. A. evening school can conduct its courses according to the standards and requirements set down by educational experts. It makes it possible for us to offer stronger courses.

### ST. FRANCIS ACADEMY

A school for girls, conducted by the Sisters of St. Francis of Perpetual Adoration. Academic courses recognized by the state and approved for Teachers' Certificates by the Nebraska State Board of Education. Especially noted for the thoroughness of the various courses—Elementary, Intermediate, Commercial, Normal Training and College Preparatory. Special courses in Music, Art and the Domestic Sciences. Parents and Guardians are offered exceptional opportunities. Boys under 13 are admitted. For full particulars address SISTER M. ADRIANA, Superior.

### Alumnae Are Active for Sisters of Mercy

Yesterday afternoon the retiring and present officers of the alumnae of the Sisters of Mercy visited Fairacres, the site of the new school.

The officers took the occasion to give to the Sisters of Mercy \$3,754.40, the amount realized through the efforts of the retiring officers and alumnae at the bazaar of last fall. This sum will defray the balance of expense of grading, which has just been completed.

The officers were delighted with the site of 30 acres crowning the brow of a hill which is a beauty spot of Omaha, and entirely free of debt. After a tour of the grounds, lunch was served in the cottage which is at present doing service for the nuns who live there.

Extensive plans are on foot for the fall campaign to finance the new building.

### Work on Alliance Schools Is Delayed by Omaha Firm

Alliance, Neb., Aug. 20.—(Special.)—Construction work on the new \$200,000 high school and a \$50,000 grade building is being delayed owing to the failure of the Sheehan company of Omaha, general heating contractors, to proceed with its part of the work, according to school board officials.

### School of Business, Lincoln.

The college placement bureau reports that the number of calls for office help received so far during August is exactly double that for the same period of 1921.

The N. S. B. picnic at Egworth Lake park, Thursday evening, was well attended by members of the faculty and the student body.

Two N. S. B. students have taken positions with the state this week: Miss Mayme Swan in the state superintendent's office and Gladys Patterson with the State Historical society.

### Shelton Levies \$30,000 for Schools at Special Meet

Shelton—The taxpayers and patrons of the Shelton public schools held a special meeting here and levied \$30,000 with which to carry on the school work another year. At a previous meeting the proposed levy was

voted down and it began to look as though the needed money for school purposes would not be available. It is stated that the work can now be carried on without interruption. A large crowd of taxpayers gathered in the assembly room of the high school to discuss the matter and vote on the proposed levy.

### Creighton Hospital Unit Is Authorized by Army

Authorization has just been received at the Creighton College of Medicine from Surgeon General Ireland of the United States army for the organization of a general hospital unit which will be officially

known as general hospital No. 55. The new unit will be planned to operate with a personnel of more than 400, including about 100 trained nurses, besides pharmacists, orderlies, cooks, bakers, etc. All of the commissioned officers for this unit will be selected from the Creighton faculty.

## An Omaha School Which Teaches Boys and Girls HOW TO STUDY

Fall Term Starts September 18

- ### The Faculty—
- MRS. C. F. PRATT, President
  - MRS. GEORGE C. EDGERLY  
Grinnell University
  - MISS LUCILLE LATHROP  
Rockford College
  - MISS ELENOR CARPENTER  
Wellesley
  - MRS. GERTRUDE YEISER  
Wellesley
  - MISS GERTRUDE NUSBAUM  
Smith College
  - MISS MARIAN COAD  
University of California
  - MISS MAY MAHONEY  
French Conversation
  - MRS. LETA COFFIN  
Peru State Normal
  - MISS OLIVE TOWNSEND  
Michigan State Agricultural College
  - MISS LILLIAN HEAD  
Simmons College, Boston
  - MISS PAULINE HANICKE  
Omaha University
  - MR. FRED ELLIS  
Music Department
  - PROF. C. C. STRIMPLE  
Nebraska University
  - MR. ED. PERLEY  
Physical Director
  - MISS ANITA EDMISTON  
Columbia University
  - MISS HELEN NOLAN  
Duchess College
- ### The Advisory Board—
- MR. J. E. DAVIDSON
  - MR. W. J. FOYE
  - MR. H. H. BALDRIGE
  - DR. SAMUEL MCLENEGHAN
  - MR. GEORGE H. PAYNE

### THE AIM—

The School of Individual Instruction is conducted by a corps of instructors whose experience in the education of the young has been wide and varied. During their years of teaching they found that secondary school education was faulty in many respects, and that teaching in large classes was far from satisfactory. This error could be remedied, it was found, by keeping the school comparatively small, by teaching children in classes not larger than ten, and by devoting a great deal of individual attention to each student.

The plan is this: After a careful physical and psychological test, which is given to determine approximately how much work each student can be expected to accomplish successfully, the pupil is assigned to courses and hours as accurately as possible to fit his exact needs. If, for example, the student is exceptionally able in mathematics and is slow in languages, he is given fewer hours in mathematics and heavy work in languages. The boy or girl is also assigned to classes which contain children of his or her same ability. **This is done so that children who are particularly bright can progress rapidly and those who need to go slowly will not be hurried.** This form of teaching has proved splendidly efficient, as records will show.

The aim of The School of Individual Instruction is to develop the best possible teaching school to prepare boys and girls for the most difficult college requirements.

## Come to The University of Omaha

Non-Sectarian Co-Educational

"Wisdom, like the Tabernacle of old, must take up its abode among the people."

THE UNIVERSITY OF OMAHA points to a record of over 13 years of notably successful work. Created and made possible by the business and professional men of this city, the University of Omaha offers exceptional opportunities to those who wish to secure an education at a reasonable expense. Under excellent moral and spiritual atmosphere. Highest class co-educational college in Omaha. Every facility possible for the physical development of the individual—modern gymnasium and wholesome athletic spirit.

- ### COURSES INCLUDE
- College of Liberal Arts and Sciences
  - Department of Fine and Applied Arts
  - Home Economics Department
  - Teachers' Training School—Kindergarten Department
  - Pre-Medical Department
  - School of Law
  - Two Years of Engineering
  - Extension Department
  - Department of Music and Expression

Fall Term Begins September 18  
Enlarged Faculty and Improved Curriculum  
Increased Equipment

Write for Catalogue

The University of Omaha offers the young people of Omaha courses leading to degrees, at a lower cost and equal to those offered by any western university.

### Enlarged Quarters—

Until the school is able to secure one building which will accommodate both the grade and high school departments—the younger pupils will occupy the building across the street from 3507 Harney St.
