USE BEE WANT ADS—THEY BRING RESULTS

Careless Shampooing Spoils the Hair

Soap should be used very carefully. If you want to keep your hair looking its best, most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is Mulitised coconut oil shampoo (which is pure and greaseless), and is better than anything else you can use.

Two or three teaspoonfuls of Mulitised in a cup or glass with a little warm water is sufficient to cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich creamy lather, which rinses out easily, removing every particle of dirt, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, flaily and easy to manage.

You can get Mulitised coconut oil shampoo at any pharmacy. It's very cheap and a few ounces will supply every member of the family for months. Be sure your druggist gives you Mulitised.
