Market, Financial and Industrial News of the Day

Omaha Grain

Omaha, Oct. 23.

Foreign cables on wheat were lower today and the situation in the United Kingdom was less firm and the demand appeared to have slackened and export business on this side of the water was said to be only moderate. Canadian wheat continues to roll into market in record-breaking quantities. Despite this array of bearish news our markets, after a preliminary break, ruled steady and higher than Saturday's close.

The visible supply of wheat increased 1,747,000 bushels; corn decreased 585,000 bushels; oats decreased 1,070,000 bushels; rye and barley, a small decrease each.

There was a good run of wheat over Sunday and 161 cars were reported in. Receipts of corn were 93 cars; of oats, 40 cars; rye, 18 cars, and barley, 3 cars, totaling 315 cars, as compared with 69 cars last year.

Total shipments were 132 cars, against 140 cars last year.

Cash wheat on the Omaha market was in fair demand, with prices quoted about unchanged from Saturday. Corn was unchanged to ½c lower. Oats were unchanged. Rye was quoted ½c up, and barley unchanged.

Chicago Grain

By CHARLES D. MICHAELS.

Omaha Bee Leased Wire.

Chicago, Oct. 23.—Grain values moved in an erratic manner with a reduction in the December-May spreads, particularly in wheat. The difference at the last was 1.4 to 2.8c. At the last wheat was 1.1.8c higher to 5.8c lower, the latter on July. Corn was 1.8@1.2c higher, oats 1.8@1.4c higher and rye 7.8c higher.

Local sentiment in wheat was mixed early, but on the breaks there was a good class of buying, especially in the December, which showed stubborn resistance to pressure throughout the day and finished within a fraction of the high point. Future buying of May at Winnipeg and selling of May and July here served to keep the latter two deliveries within moderate bounds, and upturns, while frequent, were not maintained.

Frost reported in Argentina with damage to wheat and flax feared, but had little lasting effect on the market. Liverpool was off 1.2 to 1.5.8d, failing to fully reflect the decline in America on Saturday. Supplies on ocean passage decreased over 2,000,000 bushels for the week, while the domestic visible increased 1,747,000 bushels. Reports on the car situation were spotted, with a little improvement in some sections.

Corn Trading Light.

A break of around 1½c in cash corn premiums took the edge off the bull market but in the face of this, December showed more strength than the deferred deliveries and the last, was only 4c under the May. Trade on the whole was light with some of the local bulls disposed to add to their holdings on the breaks while the most effective selling was by pit traders. No. 2 yellow corn sold down to 2.5c over December against 7½c over at one time last week. Receipts, 323 cars.

Trade in oats was largely of a local character, with buying of December and selling of May, early by commission houses at ⅝c difference. Cash trade was fair with receipts 164 cars. Basis in the sample market showed little change.

Reports of a large export business with Germany, with sales of 240,000 bushels now in the east to exporters by a local house, had a strengthening effect on the market. Sales to Germany since last Friday were reported at 1,150,000 bushels. No. 2 on track sold at 1½c over December, with receipts 10 cars.

Pit Notes.

The heaviest selling of December and May corn was by Joseph Schriner with Heffman the largest individual buyer. December corn, which has been the weakest of late, showed the most strength with a gain of ⅞c as compared with May. There was good buying of December and selling of May at 1c difference at times.

A feature in the wheat trading was the buying of December and selling of May which strengthened the December. The spread was reduced to ¼ to ⅝c at the finish. Buying of May in Winnipeg and selling of July at Chicago was on an increased scale. At the close Chicago July was 1c over Winnipeg May.

A tightening of the car situation down state was reported after a few days of fair supplies of cars. The surplus of cars there has been loaded and the cars may not be available for a week. Buffalo reports a better car supply there, 500 cars furnishing 500 cars a day and expect to give grain shippers 700 cars soon. This is expected to clean up the congestion there for one long.

The situation at Buffalo is better. Grain elevated October 21 and 22 was 289,000 bushels; afloat, 7,781,000 bushels; in transit, 1,240,000 bushels; loadings for Montreal, 716,000 bushels; Erie Canal, 48,000 bushels; railroad loadings, 879 cars.

Cash corn premiums in the sample market here have dropped 2¼c a bushel from the high point of Friday to 3¾c over December for No. 2 yellow and 3½c over for No. 2 mixed and white.
