

Market, Financial and Industrial News of the Day

Omaha Grain

Omaha, Oct. 25.—Grain prices in the early market were inclined to drag and values generally were lower. A lack of demand was apparent and it was reported the Greek order had been postponed. On the break, however, good buying absorbed the surplus and prices were lifted sharply. With shorts covering freely, an export demand for oats, rye and Manitoba wheat was uncovered and there were some complaints of the new wheat crop not germinating well on account of dry weather. Receipts of wheat were 55 cars of corn, 47 cars of oats, 25 cars of rye, and barley 11 cars, totaling 139 cars as against 49 cars last year. Total shipments were 30 cars as compared with 121 cars a year ago. Cash wheat in the Omaha market moved slow and prices were unchanged to about a cent lower than yesterday. Corn was easy 1 to 1 1/2 lower. Oats were quoted 1/2 to 3/4 lower. Rye and barley were about the same as last year. A full lower rye was 1/2 higher and barley 1/2 lower.

Chicago Grain

Chicago, Oct. 25.—Strength in the market and an erratic action of prices for all grain futures ended in a close 7/8 to 1 1/2 higher on wheat, 1/4 to 3/8 higher on corn and 1/8 to 1/4 lower on oats. Live grain was 7/8 to 1 1/2 to 1 1/2 lower. October loading. Trading largely was professional with pressure on all bulges. Breaks were taken advantage of to get profits. Higher cables for wheat, with the close in Liverpool 3/4 to 1/2 better than Tuesday's bid, despite the weakness in American markets on that day, gave the wheat trade more confidence. A good rally was made at today's start here. During the balance of the day there were numerous breaks and bulges within 1/2 to 3/4 range. The finish was around the outside prices, December and May practically the same as 11 1/2 to 11 1/8 at the close.

Financial

New York, Oct. 25.—Continuation of the downward movement on the Stock Exchange was partially interrupted today as a result of the Pennsylvania railway's return to its old 4 per cent dividend. This interesting event brings the annual rate from the 4 per cent, to which it was reduced in April of last year, and which was the lowest in the company's history since 1878, back to the 6 per cent which, until last year, had been maintained uninterrupted for 22 years. Pennsylvania occupies, in the railway field, somewhat the same position as that of the United States Steel in the field of incorporated industry, hence the significance both of the cut in the rate a year and a half ago when the quarter's net earnings of all American railways had produced less than 1 per cent on the property valuation, and of its restoration at the moment when the railways are carrying all the freight which their supply of cars and locomotives makes physically possible.

New York Bonds

New York, Oct. 25.—Bidding of the new United States government 4 1/2 per cent bonds at 99 1/2, a cent under par, was the feature of today's active and broad bond market. A main tendency in which was again downward. The decline in the 4 1/2 per cent bonds was a surprise, inasmuch as the recent par offering was more than three times over-subscribed. Loans were unchanged but all the other government issues lost ground. The first loss, which has not been traced in some time, gained 40 cents on 11 and 1/2 per cent bonds, which were down to 102 1/2 cents in Western. Foreign bonds were partially quiet. In the American market, the 4 1/2 per cent bonds were the only ones to show a gain. The 4 1/2 per cent bonds were the only ones to show a gain. The 4 1/2 per cent bonds were the only ones to show a gain.

BURNS, BRINKER & COMPANY. J. S. BACHE & CO., Established 1892. Members New York Stock Exchange, Chicago Board of Trade, New York Cotton Exchange and other leading exchanges.

Public Service. What our kind of public service means to you! We are now operating two of the largest and most modernly equipped terminal elevators in the Omaha market and we offer the services of these elevators to the public at minimum charges. The Chicago-Great Western Railway Elevator located at Omaha, with a capacity of 1,500,000 bushels, and the Chicago & Northwestern Railway Elevator located at Council Bluffs, with a capacity of 1,500,000 bushels, are at your service. Elevator Service Charges: Transfer (unloading, elevating and reloading) 1c per bushel. Storage of Grain, per day, 1/30c per bushel. Storage of Grain, per month, 1c per bushel. We are also in position to unstack, clip, scour, smut, clean, mix, separate and condition grain and charges for service will be quoted upon application. Subject to the Following Conditions: 1. We pay all fire insurance (no charge to shippers) on all grain handled through or stored in our elevators. 2. Grain shipped to us for storage will be binned with grain of like grade, we guaranteeing this grade at time of sale or reshipment. 3. At times we are in position to special bin different kinds of grain that, to preserve the identity of grain stored. However, in this case the shipper is responsible for the condition and shrinkage of the grain while stored. Special arrangements are necessary for special binning. 4. We will make reasonable cash advances at regular rates of interest on grain stored in our elevators. 5. Shippers to pay all weighing and inspection charges. Write Us for Further Details. Updike Grain Corporation, OMAHA.
