Cheers Ring Out as Ex-Premier of France Lands to Revisit U. S. After 50 Years.

Girls Throw Him Kisses

New York, Nov. 18.—(By A. P.)— Georges Clemenceau today again set foot on American soil.

The war premier of France who left this country more than half a century ago as a young medical student, returned in ripe old age with many years of stormy statesmanship be-hind him, to win for his countrymen the sympathy of America.

The "Tiger" came as a private citizen but to no potentate could have been extended a more stately welcome than was accorded him when he was taken from the steamship Paris in the harbor and landed on the historic Battery wall.

Thousands Waiting.

The Tiger found thousands of per ple waiting for him on the tip of Manhattan island. There were cheers when he stepped ashore and then, headed by the police department band, M. Clemenceau and the com-mittee which welcomed him, started up Broadway for his official reception at the city hall.

Peering Through Window.

The welcoming committee on arriving aboard the Municipal Steamer Macom found the "Tiger" peering through a window on the promenade deck. He was wearing a gray cutaway with a gray fedora.

Escorted to the grand salon by the captain of the Paris, the committee was presented to M. Clemenceau by Jusserandt French ambassador to the United States.
