# MOVEMENT OF THE EXPEDITION

It Starts Around Laguna de Bays in High Spirits-Entire Country South of Lake Is to Be Swept Before the Party Returns-Tugs Tow Flotilla of Twenty Canoes.

MANILA, April 10.-The expedition of 1,500 men, under Major General Henry W. Lawton, which started last night with the intention of crossing Laguna de Bay, capturing the town of Santa Cruz, on the eastern shore of the lake and then sweeping the country to the south, consists of 200 picked sharpshooters, chosen from the various regiments, Hawthorne's mounted battery, Gale's squadron, three troops of the Fourth cavalry, unmounted, with Bronkos' and Tappan's battalions of the Fourteenth infantry, Linck's battalion of the First Idaho infantry and Fraino's of the First North Dakota infantry, under General King. The flotilla of twenty canoes, towed by tugs and convoyed by the gunboats Laguna de Bay, Oeste and Rapidan, on the river Pasig, moving toward the lake, just as evening was setting in. It was a truly picturesque scene. The men were all in high spirits, and carried rations for ten days, the lightest marching equipment.

General Lawton's plan was to reach Santa Cruz this morning at daybreak, to capture or destroy any rebel gunboats or shipping, to take the town and then to scour the country to the south of the lake, a district not yet explored by the Americans. The tac-tics will be those of the old-time frontier fighting, and it is probable that the command will be divided into squads of twelve, under non-commissioned officers.

In General Lawton's absence the Second division is temporarily commanded by General Ovenshine, whose lines extend from the beach, near Malate, south of Manila, to the shore of Laguna de Bay, beyond Pasig, a distance of about seven miles.

The withdrawal of the eighteen companies, constituting the expeditionary force, made a gap in the line from the beach to Culiculi, just southwest of San Pedro Macati, which was subsequently filled by the Fourth regular infantry.

The rebels, on the extreme right, had evidently been informed of the withdrawal of the troops, and they attempted to sneak through after nightfall, but they met with a warm reception and fell back in disorder, the line still remaining intact.

During his stay here he received many petitions from municipalities asking financial help and relief from excessive taxation. The administration of General Guy

V. Henry, the governor of the island, is understood to be entirely satisfactory to the secretary of war, who entirely approves his policy. The secretary and the governor had a long conference and an understanding was reached between them as to the future. Although General Alger refrained from expressing any opinion on the matter. it is believed that in his judgment civil government must come slowly and that the Porto Ricans must exercise patience.

# Don't Want the Philippines.

LONDON, April 10.-The suggestion of a New York newspaper which has been cabled here that the United States trade the Philippine islands for the British West Indian possessions meets with no acceptance in any quarter here. Even if the task of subduing the Philippines were not regarded as one of gravity and costliness, the raising of the British flag there would certainly reopen the far eastern question in a most aggravated form.

## JUSTICE FIELD DEAD.

The Eminent Jurist Passes Away After Long Illness.

WASHINGTON, D. C., April 10 .-Justice Stephen J. Field of the United States supreme court, died at his home on Capitol Hill in this city at 6:30 last evening of kidney complications. About his bedside were his wife and her sister, Mrs. J. Condit Smith, Mr. Justice David J. Brewer, his nephew; Mrs, Edgerton of California, Mr. Lin-

ton, his private secretary; the Rev. Edward M. Mott, rector of the Church of the Advent, and the family servants. He had been unconscious since Saturday morning and death came painlessly.

Ever since Justice Field's retirement from the supreme court bench on December 1, 1897, he had enjoyed comparatively good health, and being relieved from the responsibilities which he had borne for so many years he became more cheerful than formerly and seemed to enjoy the society of his friends and acquaintances more than ever before. All during the winter, when the weather was fair, it was his custom to take daily drives about the city or through the grounds of the soldiers' home, and always returned fresh. About two weeks ago, how-ever, he took a longer ride than usual in an open carriage and contracted a severe cold, which rapidly developed the kidney troubles, from which he had suffered, though but slightly, for

The disease readily yielded to treatment and on Thursday last he sat up for a time and seemed quite himself again, but on Saturday morning a change for the worse took place and about noon he lost consciousness From that time he sank rauidly until

some time.

his death this evening. No arrangements have been made for the funeral nor is it known where he will be buried. It is probable that his remains will be taken to Stockbridge, Mass., where are buried his father and mother and his brothers, Cyrus, Dudley and Jonathan, and his sisters and the other members of the Field family. It is probable, however, that Mrs. Field may decide to take his remains to California, where a considerable part of his active life was passed before President Lincoln appointed him a member of the supreme bench,

## Yakutat Indians Threaten.

SEATTLE, Wash., April 10 .- According to advices brought down from Copper river, Alaska, by steamer Excelsior, the miners in the Yakutat country have been sorely tried with thieving Indians this winter. Their supplies were short enough at best and when the Indians got away with parts of caches and even stole the miners' tins and stoves forbearance ceased to be a virtue

A party of miners on Dry creek, some distance in the interior, were cleaned out by the Indian thieves. They armed themselves, captured the thieves and recovered part of the stolen property. Five or six of the Indians were tied up and whipped.

On being released they called a councll of the tribe and at last accounts were preparing for war against the miners. The latter were gathering together to stand off the redskins. A message was sent to Sitka, asking Governor Brady to send some of the federal troops at Taiya to the Yakutat coun-
