

The courtship period for Ayer's Sarsaparilla

passed long since, when it won the confidence and esteem of thoughtful men and women 50 years ago. You need have no doubts, if, when you go to buy Sarsaparilla, you simply say the old name

Ayer's Sarsaparilla

That is the kind that cured your fathers and their fathers before them, and it is the kind that will cure you. Other Sarsaparillas may look like it, may even taste like it, but somehow or other they haven't the knack of curing people that Ayer's has. Just try one bottle of Ayer's today.

No new cases of smallpox have appeared among the soldiers at the Presidio or on board the transport, and it is believed that the disease has been stamped out. Every precaution is being taken to prevent the spread of the disease, the clothing and tentage of the afflicted patients being destroyed and those who were exposed to the disease have been isolated.

Many persons who had been holding places in the line at the land office in Durango, Col., changed their minds and joined the rush for locations in the Ute lands, which were opened for settlement at noon on the 4th by proclamation of the president. Whistles and bells proclaimed the hour of opening. Scores of men who had been holding places in line sold out half an hour before the opening, \$50 being the prevailing price. A Kipling Poem.

Several years ago Fred D. Underwood, now general manager of the Baltimore and Ohio Railroad, named two stations in the upper peninsula of Michigan "Rudyard" and "Kipling," one being in an agricultural country and the other in an iron ore district.

"The Story of the Captains" in the May Century will mark the climax of that magazine's Spanish war series, giving, as it does, an account by every American commanding officer but one of the part played by his ship in the famous fight off Santiago, that resulted in the annihilation of Cervera's fleet.

SALESWOMEN understand what torture is.

Constantly on their feet whether well or ill. Compelled to smile and be agreeable to customers while dragged down with some feminine weakness. Backaches and headaches count for little. They must keep going or lose their place.

To these Mrs. Pinkham's help is offered. A letter to her at Lynn, Mass., will bring her advice free of all charge.

MISS NANCIE SHORE, Florence, Col., writes a letter to Mrs. Pinkham from which we quote:

"I had been in poor health for some time, my troubles having been brought on by standing, so my physician said, causing serious womb trouble. I had to give up my work. I was just a bundle of nerves and would have fainting spells at monthly periods. I doctored and took various medicines, but I got no relief, and when I wrote to you I could not walk more than four blocks at a time. I followed your advice, taking Lydia E. Pinkham's Blood Purifier in connection with the Vegetable Compound and began to gain in strength from the first. I am getting to be a stranger to pain and I owe it all to your medicine. There is none equal to it, for I have tried many others before using yours. Words cannot be said too strong in praise of it."

MISS POLLY FRAME, Meade, Kan., writes: "DEAR MRS. PINKHAM—I feel it my duty to write you in regard to what your medicine has done for me. I cannot praise it enough. Since my girlhood I had been troubled with irregular and painful periods and for nearly five years had suffered with falling of the womb, and whites. Also had ovarian trouble, the left ovary being so swollen and sore that I could not move without pain. Now, thanks to your wonderful medicine, that tired feeling is all gone, and I am healthy and strong."

Nervous People

Nervous people not only suffer themselves but cause more or less misery to everyone around them. They are fretful, easily worried and therefore a worry to others.

When everything annoys you, when your pulse beats excessively, when you are startled at the least unexpected sound, your nerves are in a bad state and should be promptly attended to.

Nervousness is a question of nutrition. Food for the nerves is what you need to put you right, and the best nerve food in the world is Dr. Williams' Pink Pills for Pale People.

They give strength and tone to every nerve in the body, and make despondent, easily irritated people feel that life has renewed its charms. Here is proof:

Miss Cora Watson, the sixteen-year-old daughter of Mr. J. C. Watson, of 61 Clarion St., Bradford, Pa., was seized with a nervous disorder which threatened to end her life. Eminent physicians agreed the trouble was from impoverished blood, but failed to give relief. Mr. Watson heard of Dr. Williams' Pink Pills for Pale People and was highly recommended for nervous disorders, and gave them a trial. Before the first box had been taken the girl's condition improved. After using six boxes her appetite returned, the pain in her head ceased, and she was stronger than ever before.

Miss Hyberta Pryme, a niece of President McKinley, is about to show foreigners what she can do in shortie and monologue parts. She will shortly sail for London, where she is to begin a lucrative engagement, and later will be seen in Paris, Berlin and other cities before her return. Miss Pryme has recently appeared at several New York theaters in vaudeville performances, but recently the demands for her from club and other private social organizations have kept her constantly engaged.
