The Band has made arrangements with Donovan's Original Tennesseans, and that first-class troupe of plantation song singers will be here the 1st or 2d of January. Range cattle on the Frenchman and Stinking Water, enter the winter months fat and in good condition. The stockmen are all prepared with feed for bad weather. Cattle that have been driven in from the east are not looking first rate. Crop of calves, good average. We desire to call the attention of our Overseer of Streets and Highways, Mr. A. C. Campbell, to the condition of Dennison street, west of the bank. We also suggest that our popular Superintendent can "get back" at the "boys," by compelling them to work on the street.

The Red Cloud Creamery made 19,835 pounds of butter during the months of June and July, for which the farmers of Webster county received \$2,569.62. An institution of this kind would be a fine thing in this community, and some one ought to take the initiatory in the matter. All that is lacking is some one to take the matter in charge. The American hog must go—from our streets. It were a sad deprivation, but we believe we could forego hearing the comfortable grunt of the scores of fat hogs that daily meander through our thoroughfares. McCook makes well nigh too recherche a sty at any rate. Our city dads we are under the impression are preparing a pole of dimensions for the purpose. Mayor Berger has initiated a reform which would greatly improve the appearance of our city, if more of our business men and others were to "follow suit." His honor has been burning all the paper and other debris in the rear of his store. Give this matter your attention, business men, and burn your paper and other things which you now sweep out, and our streets will assume a more respectable appearance shortly. The beautiful weather of the past month has made business at the Land Office very brisk. Mayhap this country is not worth anything, but by the way land is being entered, we are led to think otherwise. There seems to be an unusually large number of men who are willing to test the matter, and those who have the stamina will reap the harvest. It has been demonstrated that the Republican Valley can raise crops and good ones. At the annual meeting of the Band, which was held on Tuesday evening, J. F. Kenyon was elected to succeed W. F. Wallace to the Secretaryship, Geo. M. Chenery to succeed J. A. Lee as Treasurer. Dr. L. L. Johnson was retained as Manager, which position he has filled satisfactorily, as evinced by his reelection. A vote of thanks was returned to the ladies who so ably assisted the band in their recent entertainment. The members of the organization are doing good work practicing and are making rapid strides toward proficiency in the art. J. R. Phelan, who has the building of the Menard brick under his supervision, gives us the following information: The building will be 100 x 50, two stories high. The first floor will be divided into two store rooms, and the second story will contain a hall 48 x 58, with a stage 15 x 33, the ceilings being 14 feet high. The remainder of the second floor will be taken up by apartments to be occupied by Mr. Menard and family. The roof which will be a flat one will be of iron, and the structure which will be completed not later than April 1st, will, beyond a peradventure, be the finest and costliest one west of Hastings. The excavation will be made and the foundation built, immediately, and Mr. Menard will arrive here the last of the month, and the superstructure hurried to completion under his personal superintendence.

Our sanctum sanctorum was graced, Saturday, by a call from Miss Theresa Wilkinson and Miss Hattie Papin of St. Louis, and Miss Rowell of our city. The young ladies from St. Louis were making their "parting" calls in McCook. They have been visiting W. H. McCartney, of Indianola, for the past two months, and left for their city-home on Sunday.

COMPLETED!

The Wagon Bridge Over the Republican River at McCook.

The First Wagon Passed Over on Wednesday Afternoon.

Quite a delegation of our prominent business men and our reporter, went down, Wednesday afternoon, to witness the completion of the wagon bridge over the Republican River, about one-half mile below McCook. A large number of men were rapidly putting on the finishing touches, and in about a half hour after their arrival, the first wagon passed over the bridge. The bridge is composed of 9 spans of 32 feet each in length, resting upon piles driven into the bottom of the river about 15 feet. The entire length of the bridge is 308 feet, and the structure, a solid, substantial one, costing \$1,400, is well built and firmly secured throughout. Mr. McCarty of Kansas, is the builder. A good road has been graded over the bluff on the north side, and also on the low ground on the south approach. The completion of this bridge is a great convenience to the farmers, and a big thing to our business men, as a great deal of trade which they failed to get on account of the great difficulty often experienced in fording the river here, will now naturally flow this way. Thus we record the beginning of another advance in the prosperity of McCook. The view one gets of McCook just as you circle around the bluff after crossing the bridge is the finest to be obtained anywhere around, and McCook looms up handsomely.

Knowing you to be a regular Medical Association, and not a patent medicine scheme I ordered the three bottles.
