With the first signs of spring comes a largely increased demand for residences to rent. The few houses on the market for this purpose were quickly secured and the demand continues. The probabilities are that the supply will be entirely inadequate to the rush of house-seekers, this spring.

A very convenient Automatic Tie Holder has been invented by E. M. Brickey of our city, which will prove a blessing to those afflicted with ambitious neck-ties. He has filed a caveat on the same in the patent office, and expects to have the holder on the market in a short time.

Some parties broke into E. J. Hall's house on his claim a few miles south of town, Saturday last, by tearing open the shutters on one of his windows, and destroying the sash and lights. Nothing was taken from the house. The tracks around the building would indicate that a boy is the author of the mischief.

The Congregational sociable, which has been announced to take place at the residence of T. S. Home talent will place "The Social Glass" on the boards at the Opera Hall, to-morrow evening. The prices are: Reserved seats, 35; general admission, 25 cents.

We are informed that the present lessees of the McCook Hotel have been given notice to vacate, and that Mr. Rockwood, who is now running the fruit stand in the old B. & M. Pharmacy building, will in due time take charge of the hotel. We take great satisfaction in announcing this fact, for under its present management the house has been anything but a credit to our town, but rather an eye-sore to every law-abiding citizen.

Twenty-two valuable claims near the head of the Frenchman River in Chase county, the property of Jud L. Brush of Greeley, Colo., were recently cancelled. The land department is not looking propitiously on the "sheet-iron" claim shack idea, which seems to have prevailed numerously in this case. As soon as the fact of cancellation became noised abroad, the claims were quickly gobbled by settlers who are constantly on the alert for such "snaps."

Over seventy-five persons enjoyed the social held at the residence of Mr. and Mrs. W. W. Palmer, last Friday evening, by the ladies of the M. E. Mite Society, whose pleasant gatherings, this winter, have been uniformly well attended and felicitous. The host and hostess exerted themselves to the utmost to make the evening a pleasant one to the large company, and their efforts were not in vain. The society displayed some of their handiwork, considerable of which was purchased by the friends present. We must not forget the refreshments, which were an excellent feature of the social.

THE BABY ACT AGAIN.

In the matter of the county fair, Georgie of the Courier, as usual, pleads the baby act, and being well nigh consumed with a feeling of impotent jealousy and envy himself, charges THE TRIBUNE with the paterinity and promulgation of such a spirit, an allegation without warrant or foundation in fact, which brands the assessor as a prevaricator of the first water. Why bless your poor attenuated soul, Bishop, what cause can possible exist (save in your own suspicious mind) for the entertainment of such sentiments on the part of THE TRIBUNE or the people of McCook? However, it is the determination to make next fall's fair a success, with the assistance of all parts of the county if possible, without it, if necessary. We expect to receive a generous support from the people of every section of the county, the whining of the Courier to the contrary notwithstanding.

March 9th, 1886. SELONX.

We would like to impress upon our business men the importance of giving the coming city election more attention. It is of vital importance to the tax-payers of our city who shall look after our governmental affairs during the ensuing year. That responsible, energetic, honorable men guide our municipal ship. We especially caution our people not to allow the matter to go by default until the last moment, and then have a "still-hunt" combination sprung on them, in the selection of which they had no choice. During the past three months this city has been thoroughly canvassed in the behalf of certain interests. Let us be wide awake and alert to the interests of all. Eternal vigilance is the price of liberty, and a little of same thing will stand our people in hand.

THE TRAVELERS' INSURANCE COMPANY began business in April, 1864, and is still managed by the men who started it. It is not only the oldest, largest and strongest Accident Company in America but the only one of any considerable size. Its Cash Assets have steadily increased year by year, and now reach \$7,826,000, the liabilities being \$5,879,000, leaving a surplus to policy-holders of \$1,947,000. It has written nearly 1,100,000 General Accident Policies, and paid cash benefits to over one in nine of the insured, amounting to over \$7,300,000. No better or surer investment of the small sum required can be made than in a Yearly Accident Policy in THE TRAVELERS, which secures the principal sum in event of accidental death, or a weekly indemnity for injury causing total disability and loss of time. Any agent will write a policy at short notice. R. S. COOLEY, Agent, McCook, Neb.

It is alleged by certain Washington correspondents that Howard may not be promoted to succeed Pope. The promotion of Terry, it is said, was at the instance of the Sherman influence, while Sheridan is exceedingly favorable to Crook for the succession to Pope. Gen. Howard does not seem to have as many and as strong friends in the army as some of his juniors, while his political friends are exclusively among republicans, hence having little or no influence with the appointing power. Notwithstanding the President is alleged to have said that he would follow the line of seniority, it is very possible that Howard will be overlooked.
