A Death Dealing Railroad Disaster. SAN FRANCISCO, May 31. - One of the most horrible railway accidents ever knewn in California occurred at 1:40 o'clock yesterday afternoon, when the local train connecting at Oakland with ferryboats from San Farancisco ran through the open draw bridge over San Antonio creek at Wester street, Oakland. A yacht had just passed through the draw when the train appeared going in the direction of Alameda. The drawbridge keeper endeavored to close the bridges, but was too late, and the engine with the tender and the first car, which was filled with passengers, plunged into the estuary.

Engineer Sampson and Fireman O'Brien went down with the engine. The former, when he saw that the bridge did not close, reversed the lever. but the momeutum of the engine was too great to be stopped in time.

The weight of the engine and the first car broke the couplings and left the the track. The second car ran about a third of the way across the bridge and stopped, but the jar was sufficient to tion of this state in words as follows: break open the front of the car, and many of the passengers were thrown into the water.

The first car, which had fallen with the engine to the bottom of the muddy estuary, soon rose and such of the passengers as escaped therefrom were picked up by the yachts and small boats which gathered at the scene. The trainmen and the rest of the passengers rushed to the work of rescue and when the wrecking train arrived from Oakland the car was drawn into shallow water and small boats had begun dragging the creek for bodies.

The top of the passenger coach was the water and the work of removing the bodies commenced, thirteen being taken

At the Grave of Garfield.

CLEVELAND, O., May 31.-The Garfield memorial in Laka View cemetery was dedicated yesterday with imposing eeremonies in the presence of many disinguished people from all over the country. The memorial is a colossal structure, towering 165 feet above the eminence in the cemetery which overlooks the city and surrounding country, and was erected at a cost of \$150,000.

The exercises of the day began with a parade of military and civic societies, the procession forming in the center of the city and moving to the cemetery, a
