YOURS ANXIOUS TO PLEASE,

H. LAWLER.

Jack Birdsall is in the city.
 John Wentz spent Xmas at home,—Mas-
 cot, Nebraska.

J. Walter Holliday and wife spent Christ-
 mas at Beatrice.

Engineer Jack Cook from Republican City
 was a city visitor, this week.

Jas. Fraser, storehouse clerk, left for
 Princeton, Tuesday, to spend Xmas.

J. R. Sircolumb of Oxford and Chas. Wil-
 liams from Red Cloud have been made regu-
 lar firemen out of McCook.

All local trains being annulled Xmas day
 quite a number of road men were enabled to
 be at home with their families.

Master Mechanic Archibald put in Satur-
 day last at Red Cloud and Oxford, looking
 after matters pertaining to his department.

D. Hawksworth, Supt. Motive Power, was
 a visitor at McCook, Monday. He went out
 to Denver in company with Supt. Campbell

Will Archibald went home to Chicago, the
 early part of the week, and will put in the
 holidays with old friends and acquaintances
 in the windy city.

Alex. Stewart, an old time engineer on the
 B. & M., now residing at Wymore, stopped
 off in the city, Wednesday, on his way to
 Denver, to visit among friends for a few
 hours.

The most interesting affair of honor which
 has been our pleasure to witness in a long
 time occurred last Sunday in the round
 house. One of the principals,—an old man,
 but spry an "hugly"—the other a young man,
 innocent of any wrong, but always getting
 into trouble,—and furthermore being the
 proud possessor of a "game leg" which has
 been drawing a living for him for the past
 nine months. The aforesaid leg was all that
 saved him from the old man and destruction.
 The way he flew over engine pilots, around
 sharp corners, and through space was a
 caution, and Bailey was urging him to get a
 "hump on it" but he didn't have time "till
 the next day. Both somewhat scratched up but
 good for another go.

EPOCH.

The transition from long, lingering and pain-
 ful sickness to robust health marks an epoch
 in the life of the individual. Such a remark-
 able event is treasured in the memory and the
 agency whereby the good health has been at-
 tained is gratefully blessed. Hence it is that
 so much is heard in praise of Electric Bitters.
 So many feel they owe their restoration to
 health to the use of the great alterative and
 tonic. If you are troubled with any disease
 of kidneys, liver or stomach of long or short
 standing you will surely find relief by use of
 Electric Bitters. Sold at 50 cents and \$1 per
 bottle at A. McMillan's drug store.

VALTON VOICES.

Messrs. Squires and Mishler will attend the
 State Alliance at Lincoln, next week.

Stock of all kind looks nearly as well as
 when grain was plenty but offset by unfavor-
 able weather.

Mr. Voss has been afflicted with a bad sore
 or swelling on his hand and general disorder
 of the blood.

Alfred Nettleton is teaching the young of
 Valton, while C. S. Ferris is similarly engaged
 at Pleasant Ridge.

Grandpa Stiers is visiting his granddaughter,
 Mrs. James Hoyt, this week. His home is in
 eastern Kansas, where he will return next
 week.

Squire Lincoln is visiting relatives at Pacific
 Junction, Mills county, Iowa. Has made ar-
 rangements to ship corn at the most reason-
 able rates possible.

Quite a number of our young men have re-
 turned for a time from our work at Denver.
 Some will return in February when a better
 opening is assured.

Summer again or at this writing it has very
 much that appearance. All are hoping that
 the coming winter will be as agreeable and
 warm as the last two past.

John Cruts has been shipping considerable
 stock east during the last two or three months.
 Among the shipment was two car load of
 horses gathered up on the creek.

Some of our neighbors are negotiating for
 Michigan land. And so they come and go as
 the tides of the sea. Give us a little more rain
 and we are alright, anyway.

Mr. Morris on the north side has some sick-
 ness but we are hopeful of a better showing
 soon. We have not a great deal of general
 sickness to report and trust we may have
 none. RALPH.

BANKSVILLE BUDGET.

C. S. White has accepted another boarder.
 It's a boy. The mother doing well.

Bright sunshine and cloudless sky are the
 order of the day and make A 1 weather.

The remaining sick ones of Mrs. Hill's fam-
 ily are getting along well. Only one now con-
 valescent.

On the 17th inst. Grant organized a sub-Alli-
 ance with a membership of twelve, and expect
 to gobble the precinct as a consequence.

I see in some opposition paper that the peo-
 ple of the U. S. are taxed \$467,000,000 a year,
 and claim that such are some of the beauties
 of protection under the McKinley bill. As if
 such rot would draw the wool over any man's
 eyes! When any government has to be taxed
 some way or other to get funds to run it.

I saw that the farmers were in attendance
 at the farmers and business men's meeting,
 but the business men did not materialize.
 Said meeting was conducted in the interest
 to encourage new industries and more diver-
 sity in agricultural products, such as the pro-
 duction of hemp, broom corn and have it
 home manufactured, and sorghum and beets
 for sugar. OBSERVER.

A Military Reservation in Early Kansas Days.

All along the outer margin of the reservation
 were grouped the camps of emigrants; not
 many of them, but enough to present a
 curious and picturesque sight. There were a
 few tents, but most of the emigrants slept in
 or under their wagons. There were no women
 or children in these camps, and the hardy men
 had been so well seasoned by their past expe-
 riences, journeying to this far western part of
 the territory, that they did not mind the ex-
 posure of sleeping on the ground and under
 the open skies. Soldiers from the fort, off
 duty and curious to hear the news from the
 outer world, came lounging around the camps,
 and chatted with the emigrants in that cool,
 superior manner that makes the private sol-
 dier when he meets a civilian on an equal foot-
 ing, away from the haunts of men. The boys
 regarded these uniformed military servants
 of the government of the United States with
 great respect, and even with some awe. These,
 they thought to themselves, were the men
 who were there to fight Indians, to protect
 the border, and to keep back the rising tide
 of wild hostilities that might, if it were not
 for them, sweep down upon the feeble terri-
 tory and even inundate the whole western
 country.—NOAH BROOKS IN JANUARY ST.
 NICOLAS.

The Pulpit and the Stage.

Rev. F. M. Shroud, Pastor United Brethren
 Church, Blue Mound, Kan., says: "I feel it
 my duty to tell what wonders Dr. King's New
 Discovery has done for me. My lungs were
 badly diseased, and my parishioners thought
 I could live only a few weeks. I took five bot-
 tles of Dr. King's New Discovery and am
 sound and well, gaining 25 pounds in weight."

Arthur Love, Manager Love's Funny Folk's
 Combination, writes: "After a thorough trial
 and convincing evidence, I am confident Dr.
 King's New Discovery for Consumption, beats
 'em all, and cures when everything else fails.
 The greatest kindness I can do my many
 thousand friends is to urge them to try it." Free
 trial bottles at A. McMillan's drug store.
 Regular sizes 50 cents and \$1.00. 30-4.

THE BEST medical writers claim that the suc-
 cessful remedy for nasal catarrh must be non-
 irritating, easy of application, and one that
 will reach all remote sores and ulcerated sur-
 faces. The history of the efforts to treat
 catarrh during the past obliges us to admit
 that only one remedy has met these condi-
 tions, and that is Ely's Cream Balm. This
 pleasant remedy has mastered catarrh as
 nothing else has ever done, and both physi-
 cians and patients freely concede this fact.
 The more distressing symptoms yield to it.

Itch on human and horses and all animals
 cured in 20 minutes by Woolford's Sanitary
 Lotion. This never fails. Sold by L. W. Mc-
 Connell & Co., Druggists, McCook, 30-1yr.

A man does not want to get too near the
 center of the earth. For every 15 yards we
 descend into the earth the temperature in-
 creases about 10° Fahrenheit.

Don't be an old fogy about your time. The
 modern "improvement" is to drop the "M"
 in the abbreviations A. M. and P. M., as for
 example, 9 A., 4:30 P.

There is more trouble looming up for the
 future. The coming umbrella and parasol
 will have whistles in them.

It is latest theory that the electricity of
 thunderstorms is due to the friction of water
 drops on ice.

THE GHOST DANCE

has been running daily for the past two months
 at the reservation of the

CASH BARGAIN HOUSE.

Truly indeed has the dance worried our competitors,
 "The Credit Stores," as the profit was too light for
 them to dance by. They tried, but got sick at heart.
