

# "August Flower"

Perhaps you do not believe these statements concerning Green's August Flower. Well, we can't make you. We can't force conviction into your head or medicine into your throat. We don't want to. The money is yours, and the misery is yours; and until you are willing to believe, and spend the one for the relief of the other, they will stay so. John H. Foster, 1122 Brown Street, Philadelphia, says: "My wife is a little Scotch woman, thirty years of age and of a naturally delicate disposition. For five or six years past she has been suffering from Dyspepsia. She became so bad at last that she could not sit down to a meal but she had to vomit it as soon as she had eaten it. Two bottles of your August Flower have cured her, after many doctors failed. She can now eat anything, and enjoy it, and as for Dyspepsia, she does not know that she ever had it."

## PURIFY YOUR BLOOD.

But do not use the dangerous alkaline and mercurial preparations which destroy your nervous system and ruin the digestive power of the stomach. The vegetable kingdom gives us the best and safest remedial agents. Dr. Sherman devoted the greater part of his life to the discovery of this reliable and safe remedy, and all its ingredients are vegetable. He gave it the name of

### Prickly Ash Bitters!

a name every one can remember, and to the present day nothing has been discovered that is so beneficial for the BLOOD, for the LIVER, for the KIDNEYS and for the STOMACH. This remedy is now so well and favorably known by all who have used it that arguments as to its merits are useless, and if others who require a corrective to the system would but give it a trial the health of this country would be vastly improved. ### Echoes of the Congress.

DENVER, Colo., May 25.—The trans-Mississippi congress voted for the coinage of American silver and then adjourned to meet in Omaha next October. It was in session four days.

Silver and irrigation to a large extent overshadowed all other subjects the congress had to discuss, and they were many and varied. There was opposition to the first two on principle and on the details, and this fact alone brought them into prominence. On the other subjects there was a unanimity that kept the surface unruffled. The scope of the convention was highly diversified, although several important propositions were sidetracked before the meeting organized.

The movement to urge the repeal of the tariff on Mexican lead was to have been backed by Texas and Kansas City leaders, but through the diplomacy of the west the subject was not even referred to. A discussion would have engendered more acrimony than was evoked by the silver resolutions. The extreme western delegation carried the convention by storm and the agricultural states had only a feeble hearing. Hence the result of the Omaha meeting remains problematical. That meeting will adopt resolutions to be submitted to the national congress, and with the possibility of a more complete representation from delegates who were this week in Cincinnati, silver resolutions may be amended to provide for the coinage of American silver only. The closeness of the vote before adjournment demonstrates that the silver men have over-estimated their strength. Although Iowa, Louisiana, Kansas, Nebraska and Arkansas were not in the convention, the vote was 55 to 58 in favor of unlimited free coinage. With the presence of absent delegates the result might have been different.

### Dr. Bartelot Cordially Received in the Argentine Republic.

WASHINGTON, May 25.—The bureau of American republics furnishes the following: The newspapers of Buenos Ayres contain an elaborate account of the presentation to the president of the Argentine Republic of Dr. Bartelot of the United States navy, commissioner to the Argentine Republic in the interest of the world's Columbian fair. Dr. Bartelot made a brief and appropriate address, setting forth the objects of the exposition, the progress of the preparations and the desire of the people of the United States that the Argentine Republic may be adequately represented.

President Pellegrini, in replying, congratulated the United States upon the progress of the preparations for the exposition and authorized Dr. Bartelot to assure the president of the United States and the management of the exposition that the Argentine republic would be fully represented. He expressed the greatest personal as well as official interest in the enterprise and said that the official answer of the government of the Argentine Republic to the invitation of the president of the United States will be forwarded promptly through the proper channels. The newspapers of Buenos Ayres are showing a great deal of interest in the affairs of the exposition and are urging the government to provide such a representation of the resources of the Argentine Republic as will secure the attention of capitalists in this country. The Buenos Ayres Herald, in an editorial reference to the presentation of Dr. Bartelot, says: "The Argentine government and the people are passing through difficult times, but there can be no doubt whatever that the part we shall take in the exposition will be a revelation to our cousins of the north and will be far more complete even than our contribution to the Paris exposition."

### The Boyd-Thayer Contest.

WASHINGTON, May 25.—The Gazette of this city says: "It having been positively stated that Ex-Attorney General Garland, who has been retained by Governor Boyd of Nebraska to argue his case before the supreme court of the United States, has advised Governor Boyd that there was no question but that he would ultimately regain his seat." The Gazette asked Mr. Garland if he had given such advice.

"You must excuse me from expressing an opinion for publication," said Mr. Garland. "I refer you to my client, Governor Boyd."

"There was a strong emphasis on the word 'governor,' which was the only indication of the distinguished lawyer's opinion. Governor Boyd, however, is not so reticent. In reply to an inquiry propounded him, he affirms that he not only has no doubt himself of a reversal of the decision of the court against him on appeal, but that Mr. Garland has said that there will be no trouble in regaining his seat."

### One Word.

There was one word the little girl heard many times a day. The word was Musementouchit.

Baby wondered who Musementouchit could be. The strange thing lived in the bureau drawers.

It lived in the sewing-machine. It lived in the tall jar that stood on the little round table.

It certainly lived in the glass globe where the gold fishes swam.

This went on till baby was 2 years old. There was no word she heard so often as the long, queer word, Musementouchit.

Musementouchit was everywhere—in the shining books on the parlor table; in the flower-beds; among the roses; even in mamma's work-basket the strange thing lived; and if baby took up a reel of silk or cotton, there was Musementouchit.

One day baby found herself by the glass globe all alone. The family were very busy, and for a few minutes forgot the little, prying, restless darling. This was her chance. Up went the chubby legs into the chair that stood near the gold-fish globe. Poised on the rounding cushion, baby reached far over to touch the gold-fish. In reaching she lost her balance and fell, dragging the globe to the floor. There was a crash, a scream, a rush, and mamma was on the spot. Baby was picked up, kissed and scolded.

"I guess I tilted me Musementouchit 'time!" she said, shaking herself and walking off.—Union Signal.

### The Most Ancient.

The Vedas of India, the most ancient written documents, attest that at times most remote, but still recorded in history, only two colors were known—black and red. In the time of Alexander the Great, painters knew of but four colors, viz. white, black, red and yellow. The words to designate blue and yellow were wanting to the Greeks in the most ancient times of their history, they calling these colors black and gray.

When baby was sick, we gave her Castoria,  
When she was a Child, she cried for Castoria,  
When she became Miss, she clung to Castoria,  
When she had Children, she gave them Castoria.

### Afraid He Would Miss Him.

There was a pistol duel between Smith and Jones. Jones fired and missed Smith, whereupon Smith raised his weapon to take aim and said pleasantly to his opponent:

"Jones, would you be so kind as to step a little nearer, as I am shortsighted, and I don't want to miss you if I can help it."

### \$100 Reward.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Thousand Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

### May Feast.

The great festival of the English milk-maids and chimney sweeps of the 1st of May dates its origin back to the Romans, who were wont to commemorate the festival of Flora, the goddess of flowers, for several days in May. Maypoles were forbidden to be erected by parliament in 1664, but they were restored again on the restoration of Charles II., and in 1671 the maypole in the Strand was rejoiced with much ceremony and rejoicing.

### Ten Puffs for a Cent.

"Have you ever thought," said the economist to the spendthrift, "that every puff of your cigar represents a certain amount of money blown to the winds? How much did you pay for that big, black roofer?" "Five for a dollar," the spendthrift replied.

"Well, if you take 200 puffs from it they will cost you at the rate of a mill a puff, or ten puffs for a cent. Look at your wasteful habit in this light, after you have blown that costly cloud of smoke out of your soot-begrimmed mouth, and you cannot longer violate economic law by forever burning up the money that you put into cigars."

### The Way of the World.

It is surprising how early the child learns the way of the world. Five-year-old Edith went to bed one night with a good-by kiss for papa, who was to go away early next morning on a long business trip. The next day her mama said: "We must pray for papa while he is gone, and ask God to take care of him." "So the train won't run off and kill him?" asked Edith. "Yes," replied mama; "what would we do if papa should get killed?" "We'd cry, that's what," said the little maiden, "and then we'd get married again and have another papa."—Housekeeper's Weekly.

### Children Enjoy

### An imitation of Nature

—that's the result you want to reach. With Dr. Pierce's Pleasant Pellets, you have it. They cleanse and renovate the whole system naturally. That means that they do it thoroughly, but mildly. They're the smallest in size, but the most effective—sugar-coated, easiest to take. Sick Headache, Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels are prevented, relieved, and cured. Purely vegetable, perfectly harmless, and gently laxative, or an active cathartic, according to size of dose. As a Liver Pill, they've been imitated, but never equaled.

### "I Could Move the World"

If I had something to rest my lever on," said Archimedes. Large bodies move or are moved slowly. But it is no impossible or even difficult task to render these small bodies, the kidneys active when they are not so. Don't try to do this with unmediated alcoholic stimulants. The experiment is unsafe. The sure, safe means is Hostetter's Stomach Bitters, which affords just the right amount of stimulus without overdoing the matter. Continued inactivity of either the kidneys or bladder, it should never be lost sight of, are attended with grave peril. Bright's disease, diabetes, and other ailments which affect the renal organs have their origin in inaction of the kidneys. To overcome this is an easy matter at the outset. Not so later. Now is the appointed time in a case of this sort. Irregularity of the bowels, stomach and liver, rheumatism and malaria are remedied by the Bitters.

### BEWARE

of mercury and potash mixtures. They aggravate the disease instead of curing it.

### Life A Burden.

"I suffered for five years with mercurial rheumatism, which was the result of potash and mercurial treatment by physicians for constitutional blood poison. They not only failed to cure me, but made me a physical wreck and my life a burden. I then commenced taking Swift's Specific (S.S.S.) and after taking a few bottles was entirely cured both of the rheumatism and blood poison. I cheerfully commend S.S.S. to any one similarly afflicted."
