

But it looks as if it would be in it soon, and the sooner your foot is in one of our \$3.50 or \$4.00 Shoes the more fortunate it will be. Because we know this shoe, we want you to know it; because it wears as no other shoe will wear, we want you to wear it. It is absolutely the cheapest thing in shoe-leather and there isn't any limit to the satisfaction that it gives. No matter what you pay, you get no better when you get the best—it is a luxury in footwear and not a high-priced luxury at that. It isn't trying to those who try it. Try it.

AND HE MAKES MUSIC, TOO—The man who runs a partisan county paper and prints it on a hand press may not be an Italian, but he owns a hand-organ all right enough.

A farm paper says: "There is nothing more necessary for a business man than to have his calling and address neatly printed on his envelopes and letter heads. That it pays is seen when it is remembered that city business men, from the smallest to the greatest, use printer's ink liberally in this manner. Farming is a business just as much as handling goods, and there is no good reason why the general farmer should not have his name, calling and address on his stationery as well as his city brother."

"The people of this country do not yet know how to use the banana," a dealer in that delicious tropical fruit said: "In the climate where the banana furnishes the principal article of diet, the inhabitants have found numerous methods of utilizing this delicious fruit which render it at once nutritious and palatable. They boil it, they bake it as we do sweet potatoes, they peel it, cut it in slices and fry it in butter, they mash it into a paste and dry it in the sun as we do apples and peaches. They make it into puddings, pies, comfits and preserves, and even smother it in sugar until it is candied fruit. In every one of these ways it is both pleasant to the taste and wholesome as an article of food."

A train of cattle consisting of twenty-four cars, consigned and accompanied by the feeders and owners, Messrs. H. T. Church and F. S. Wilcox, left McCook, Nebraska, via the B. & M. R. R., on the evening of Friday, June 17th, destined for the Union Stock Yards, Chicago, and billed to Clay, Robinson & Co. at that point. The cattle had been fattened upon corn yielding seventy-five bushels per acre, had been raised from birth upon the land of the above gentlemen, and showed good form and development. Creston, Iowa, was reached at nine A. M., Saturday, where the cattle were unloaded and fed. After being reloaded the train, which had been decorated at McCook with business cards of an enlarged style and fabric material, was photographed. The train then proceeded on its way, and arrived at Chicago early Monday after an exceedingly good run over the "Q." The cattle were disposed of on the Chicago market at prices entirely satisfactory to the consignors, who observed the sales, and were upon its market until its close, returning that evening to Nebraska. Messrs. Church and Wilcox report the prospects for crops as better than ever before at this time, and with stock of all kinds in good, thrifty condition, the future outlook is decidedly promising.
