Mrs. E. F. Hamilton, of Bartley, buried a grown son here on Monday; this is the second son that she has lost inside of a year. Walter being killed by sand caving on him when digging for wolves, and Charlie dying of typhoid fever on Sunday. The mother has the sympathy of her many friends.

On Tuesday Henry C. McKinney left his team standing in the street, resulting in a spin around town and finally came to a stand still by running into the front of Shackleton's drug store, breaking a large glass, and some lamps in the show window. This should be a warning not to leave a team without being tied, as it might have been much more serious, as Mrs. Shackleton narrowly escaped being cut by the broken glass.

There was a good attendance at the Grand Army meeting on Saturday last, and the following were elected as officers for 1893: Willis Gossard, commander; A. Rankin, S. V. C.; Arch Mann, J. V. C.; H. Crabtree, surgeon; J. M. Mann, chaplain; C. W. Beck, officer of the day; C. D. Cramer, quartermaster; A. A. Calkins, officer of the guard; J. Hetherington, adjutant. The post expects to hold a public installation at their first meeting in January, at which time General Dilworth, department commander, will be present and conduct the ceremonies.

It is rumored, says the Bloomington Echo, that the number of land offices in Nebraska will be reduced this winter to six. The same rumor specifies that the Bloomington and Grand Island offices will be consolidated with the Lincoln office as a starter in the work of reducing expenses. It is said that in time the office at the capital will be the only one in operation.

ARTICLES of association of the national brotherhood of soldiers were filed with the Indiana secretary of state Monday. The organization is democratic, and subordinate branches are to be schools of democracy. Both union and confederate democratic soldiers are eligible to membership, and in the event of the death of a member his oldest son, if a voter, is eligible to the vacancy. Of the members of the national council three are ex-union soldiers and two are ex-confederates.

THERE is no doubt of a large majority of the electors of Nebraska being in favor of the two proposed amendments to the constitution voted at the recent election, but they were both lost for the same reason that other amendments voted on in recent years failed to carry. The law requires that an amendment must receive a majority of the votes cast to be adopted, but some how voters overlook that part of the ticket and fail to vote either way. For years the people have been clamoring for the election of railroad commissioners by the people, but when the "people" have an opportunity to have it that way, they fail through carelessness alone to make it so. The submission of a proposition of this kind to a vote of the people is attended with a good deal of expense. The publication of the governor's proclamation alone costs thousands of dollars.

THE claim that popular election of United States senators would give the people a better representation in that body may or may not be true. It is not on that ground that the Journal has, for many years, favored a change in the constitution that shall provide for that method of choosing senators. The change is necessary to protect the state government from the legislative demoralization and waste of valuable time, in the two contests that occur in every six years of legislature life. In the states that have annual sessions of their legislature one-third of the time of such sessions is virtually wasted over senatorial jamborees. The legislature that is to elect a senator is thoroughly demoralized and performs very feebly the duties devolved upon it. The senatorial election dwarfs the legitimate business for which a legislature is intended, and is an element of corruption and fierce factionalism from the beginning to the end of the session. In legislatures that meet biennially, like ours, two out of every three sessions are wasted, leaving us barely one real legislative session in six years for the transaction of legitimate business, uninterrupted by the accident of a senatorial fight. It is paying too much for the whistle. But if the people are compelled to elect a senator, the introduction of national and personal politics into state legislatures to the exclusion of the important state interests which legislatures are primarily intended to subserve, would cease. The banishment of this extraneous disturbance from state legislatures would be of the greatest service to every state in the union.—Journal.

Children Cry for Pitcher's Castoria.

What is  
**CASTORIA**

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

**Castoria.**  
"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."  
Dr. G. C. Osceola,  
Lowell, Mass.

**Castoria.**  
"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."  
H. A. Archer, M. D.,  
111 So. Oxford St., Brooklyn, N. Y.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."  
Dr. J. F. Kincheloe,  
Conway, Ark.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular produce, yet we are free to confess that the merit of Castoria has won us to look with favor upon it."
