A Red Hot Campaign.

The present campaign will be the most exciting one fought out since the war. There will not be a day when something of unusual interest will not transpire. The State Journal has made up its mind to surpass all its former efforts in the direction of news-giving, and will give its readers the most complete details of the campaign, giving all the news from an unbiased standpoint. Republicans will want The Journal because of its staunch Republican principles, it being recognized as the standard-bearer of the great Republican party of Nebraska. Populists and Democrats should read it for the news it gives. The Semi-Weekly Journal will go to thousands of new homes during the campaign. You should subscribe, as it will only cost you 25 cents from now until November 15. Two papers every week, making it almost as good as a daily. Subscribe through your postmaster or send your order to The State Journal, Lincoln, Nebraska.

ED. JORDAN, Marshal.

Notice to Bicycle Riders.

Riders of bicycles will please observe the ordinance against riding on the sidewalks, and parents should see to it that their children refrain from riding on the sidewalks and rapid coasting within the city limits. Due attention must be given these requests, public safety and regard for life and limb demand it.  
ED. JORDAN, Marshal.

Hastings, Neb., July 27.—(Special.) A man named T. G. Waugh dropped dead from heart failure at the B. & M. depot this afternoon. He was en route by wagon with two neighbors from Max, Neb., where he owns a ranch, to his home near Murray, Iowa. The body was taken charge of by the Masons, of which order he was a member, and will be shipped to Iowa, tomorrow.—State Journal.

Reduced Grain Rates.

The reduction of 7 cents in railroad rates on corn and wheat from all Nebraska points to Chicago and St. Louis has increased the shipments materially. According to the tariffs the freight on corn to Chicago from Lincoln has been reduced from 22 cents to 15 cents. Wheat will be taken for 20 cents, whereas the dogs used to get 27 cents. The rate to St. Louis and other Mississippi river points is just 5 lower than to Chicago.

The reduction was made by the roads, it is claimed, because it became evident that there would be an immense corn crop throughout the west and it was absolutely necessary to have the old corn crop moved before the new crops were harvested and offered on the market.

It is believed, however, that there will be no great rush until it becomes absolutely assured that there will be no deficiency in the supply of corn. Then it is expected that the old corn will begin to move rapidly.—Lincoln Journal.

The Scientific American of New York has signalized its 50th anniversary by the publication of a very handsome 72-page special number, which consists of a review of the development of science and the industrial arts in the United States during the past 50 years. It was an ambitious undertaking, and the work has been well done. The many articles are thoroughly technical, and they are written in a racy and popular style, which makes the whole volume—it is nothing less, being equal to a book of 442 ordinary pages—thoroughly readable. It is enclosed for preservation in a handsome cover, and is sold at the price of ten cents.
