Last Friday was the last day of school at the Coleman school house. Hank Smith was in town one of those coldest days, and this is the way he tells it: "On my way down to McCook I commenced to whistle. I could keep the tune all right but I couldn't hear any whistle, so I commenced to sing. It just seemed I could follow the tune right along, but I couldn't hear any noise. When I got to town I ran into a restaurant—that one right by Menard's store, you know—to get warm. Well sir, don't you know I just began to thaw out, and there came a sound in the room like somebody singing away off, softly. It gradually came nearer and louder until it seemed right in the room, you know. Well sir, we all looked round, you know, but couldn't see any body singing. Then it stopped, and don't you know, we heard some one whistling, and it was away off too, you know, but it came nearer and louder until it seemed as if it was right in the room, you know. Well sir, we didn't know what to make of this strange music until I happened to think these songs were the same I had sung and whistled on the way down, and then it was all plain as day, you know. You see, on the way down it was so cold that the song and whistle froze up as it came out of my mouth and that's why I didn't hear it; but when I got into the warm room it all thawed out, you know, and then we had the music."

Modern Merchandising

is as different from that of a generation ago as modern housekeeping is unlike that of grandmother's time. In those days ye merchant was called a storekeeper and his efforts were possibly sufficient to his times. His stock consisted of Blue Jeans, "Factory" Calicos, Sole Leather, Candlewick, Ax-Heads, Sugars, Teas, Coffees, and a few other primitive necessities. Not a ready-to-wear article of any kind in stock; not a single thing different from last year's assortment; style, mode, fit, finish, were terms and things foreign to the place.

How Different

is the modern store! Its very existence is dependent upon its ability to cater to the individual tastes of the customer in matters of color, design, combination and form, in offering the latest styles of made and unmade garments for every season and every use.

Our Merchandising

is fully modern in the above respects. We make a study of our business. Our goods are carefully selected for their good colors, their good styles, their sufficient weight, count, size and finish. Tape measure, magnifying glass, scales and 20 years' experience in our line are all employed in the buying of our goods, which are right in all respects.
