HON. GEORGE D. MEIKLEJOHN has honorably and ably filled every public station approaching the U. S. senatorship and he would give a good account of himself in that position, by the same token.

MR. BRYAN confess that Nebraska pops look so much like democrats that you cannot tell them apart. This is the result of natural laws. It has always been noted that in happy marriages, husband and wife finish by resembling each other. Despite their little family jars the marriage of the pops and democrats in Nebraska has been measurably happy. The twain were evidently made for each other.

ONE of the strangest of the phenomena noted in Cuba by General Wood is the large immigration from Spain which during the past year has exceeded sixty thousand. But it is still more strange that these new settlers fresh from Spain, at 7:30. All are welcome. where Uncle Sam is perhaps hated more intensely than anywhere else in Europe, are almost unanimously in favor of annexation to the United States, preferring the stars and stripes to a flag of their own.-Journal.

English Losses in South Africa.

The British war office admits the loss of 40,000 men, exclusive of those in hospitals and those who were invalided home. Now what is the number of these? The British government is silent on that point, but we are told that about 100,000 men garrison the territory occupied. Roberts has 30,000 men for offensive operations; the admitted losses are 40,000, thus making a total of 170,000. The number sent to South Africa was according to official statement, 220,000. Where are the missing 50,000? There is but one conclusion: Great Britian has already lost forty per cent of the army raised for this war or about 90,000. If the Boers know this, then it is not astonishing that they refuse to give up the struggle, for they are still the real victors despite their reverses. England must continue to send troops or her army by next April will have melted away to such an extent that it is no longer a match for the burghers. Truly the latter have staggered humanity.-The Literary Digest, October 20, 1900.
