

Proclamation.

The 30th day of May, in each succeeding year, has been set apart by our laws, as a legal holiday, for Memorial services.

In testimony whereof, I have hereto set my hand this 23rd day of May, 1901.

C. E. ELDRÉD, Mayor.

THE MCCOOK TRIBUNE with becoming modesty entered the 20th year of its consecutive publication, last week.

THE McKeighan monument will be unveiled at Red Cloud, Decoration day, in an address by W. J. Bryan, who will be followed by W. V. Allen in an oration.

It has come to pass that at great exhibitions the exhibits—the things for which the whole is in theory planned—are least thought of by the crowds.

IN these days the exports of the United States are almost double the imports.

MORE than 90 per cent of the stockholders of the Chicago, Burlington & Quincy railroad have deposited their stock with the trust company designated to effect the exchange of stock for Northern Pacific bonds.

THE safe rule is to like what you please, and if you like ragtime music or unmusical like it bid those who would interfere with you go hang.

IT is now reported that EX-Senator Pettigrew will be the new executive head of the Great Northern railroad.

THE students of West Point are scoring Superintendent Mills because he does not tolerate "bracing," "rat funerals" and other light forms of hazing, as he led them to understand he would at the time of the congressional investigation.

BRIGADIER GENERAL GRANT, who has just returned from the Philippines, where he was in command of a district and did meritorious service, says that while the insurrection is ended there is still a difficult task in establishing civil government in the islands and teaching the people what American rule means.

Church & Marsh are treating their many new customers just the same as though they were not "the only." Same fine quality of meat, prompt service, and regular, reasonable prices at the old reliable shop, which is "here to stay"—do you mind?

Lincoln, May 24-31. Half rates to Lincoln from all points on the B. & M. R. R. Selling dates: May 24-31, from stations within 150 miles of Lincoln.

J. FRANCIS, G. P. A., Omaha, Neb.

For Sale.

I wish to dispose of my property before moving to Chicago, Ill., where I expect to make my home. The property consists of a 5-room home and one lot on Madison street, 2 blocks from the depot. The home is in good repair, has well and pump and windmill tower.

The safe rule is to like what you please, and if you like ragtime music or unmusical like it bid those who would interfere with you go hang. It is better to be tolerant than to be learned. But ragtime strains are delightful, all the same.

WILL Make Engine Test.

Some light repairs are being made to engine No. 15 at the round house, and when the big machine is again ready for duty several students of the mechanical department at the University with Prof. Richards will make several trips to make indicator tests. The first trip is planned for No. 1 on May 28. This locomotive was built at the Havelock shops, and is one of the fast passenger engines running between Lincoln and McCook.

Speaking of this the Hesperian says: The engine "will be laid up in the round house this week during the construction of the necessary reducing gear for making indicator tests, and a cage around the cylinders and pilot for the safety of the boys who will look after the indicators. The plans have been made by Prof. Richards and Mr. G. W. Rhodes, assistant superintendent of the B. & M., and when once put into operation it is expected that a yearly feature of the work of the mechanical engineering students will be the testing of locomotives while on their regular runs. Next week Prof. Richards and Messrs. B. W. Benedict, Fred Dorman, C. S. Orton, and S. C. Campbell will inaugurate this work by a series of three tests requiring three regular runs of the locomotive between Lincoln and Hastings."—Lincoln Journal.

There was a whole coach load of them, besides not a few went by wagon and other conveyances. The children were under the chaperonage of Mrs. Hedlund and Miss Huston.

No More Western Building.

CHICAGO, May 19.—The Record-Herald says:

Arrangements for control of the Northern Pacific have been effected, and the former contending parties are awaiting the arrival of J. P. Morgan from Europe, when the details of the agreement will be submitted for his approval. The fact that a settlement has been arrived at was made public today by J. Mitchell, who represents some of the interests. It appears that the Morgan-Hill syndicate have agreed that the Harriman people shall have representatives upon the board of the Northern Pacific. How many members of the board will be accorded the Harriman people is not known, but it is stated they will have at least two. As a result of the understanding the Burlington officials will stop any contemplated western extension of the Burlington system.

NEW YORK, May 18.—J. P. Morgan & Co. announced today that two-thirds of the stock of the Chicago, Burlington & Quincy Railroad company has been deposited with the Colonial Trust company of Boston and the Metropolitan Trust company of New York city, thus marking the consummation of the deal by which the Great Northern and the Northern Pacific railroad companies acquire the Chicago, Burlington & Quincy.

Not Going West This Summer?

Haven't you heard about the low rates to Colorado and Utah offered by the Burlington Route?

They are the lowest ever made—so low that it is almost cheaper to take advantage of them than it is to stay at home.

In effect all summer long—from the first of June until the middle of September.

See the local agent—or, if you prefer, write to J. Francis, General Passenger Agent, Omaha, Neb., enclosing with your letter six cents in stamps for "Colorado," a 72-page book, handsomely illustrated and full of interesting information about the cool resorts in the mountains.—5-24-6ts.

Does the Baby Thrive

If not, something must be wrong with its food. If the mother's milk doesn't nourish it, she needs SCOTT'S EMULSION. It supplies the elements of fat required for the baby. If baby is not nourished by its artificial food, then it requires

Scott's Emulsion

Half a teaspoonful three or four times a day in its bottle will have the desired effect. It seems to have a magical effect upon babies and children. A fifty-cent bottle will prove the truth of our statements.
