Peace and the Postoffice.

More mighty to promote the world's peace than allied movements in China or commercial banquets in London is the ceaseless, restless operation of the international postoffice.

sea two-thirds as many messages as pass | the university, which he passed. across the narrow channel to the entire continent of Europe, lying at her very door? Well may Mr. Carnegie say that a cabinet which could not without war settle any dispute between people so bound together would be dishonored.

Not less important are the domestic relations fostered by the postoffice. New York and California are far apart and it (except Louis) spent Sunday and Monis a long way beyond to Alaska and the day in Lincoln, guests of their son Philippines, but fast and frequent mails link us all together. In the first year of department of the Nebraska university, the century the country will for the first this week, receiving his sheep-skin on time spend over \$100,000,000 upon postal cards and stamps alone. The revenues of the department from all sources will chanics held a session at Master Mechanic amount to \$110,000,000. Nearly \$250,- Smith's office yesterday to discuss engine 000,000 will be sent by mail orders in failures. Those present were Messrs. face of the increasing use of checks and Pearney of West Burlington, Ia.; Archidrafts.

The postal business of the United Mo., and English of Aurora, Neb .- Thurs-States has increased more than five-fold day's Journal. since 1870. It is nearly one third of the whole world's mail business-a striking proof of the intellectual activity and rapid industrial development of the country,-New York World.

Two Terms Enough.

WASHINGTON, June 11-The following statement has been given out at the White House:

"I regret that the suggestion of a third term has been made. I doubt whether I am called upon to give it notice. But there are now questions of the gravest for them. importance before the administration and the country, and their just consideration should not be prejudiced in the the public mind by even the suspicion of the thought of a third term. In view, here, therefore, of the reiteration of the suggestion of it, I will say now, once for all, expressing a long-settled conviction, that I not only am not and will not be a candidate for a third term, but would not accept a nomination for it if it were tendered me.

"My only ambition is to serve through my second term to the acceptance of my countrymen, whose generous confidence I so deeply appreciate, and then with bridge across the Missouri river at Plattsthem to do my duty in the ranks of private citizenship.

"WILLIAM MCKINLEY. "Executive Mansion, Washington, D. C., June 10, 1901."

THE strike in the Dayton Cash Regisseven years ago, has abruptly destroyed the value of a large amount of literature, written by college professors and others, possible arrangement was made for the comfort of the men, the highest wages were paid and every effort was made to link the prosperity of the works with the wages of the men. These works have just been closed, after a series of petty that the towels supplied in the shops reduced by from eight to ten feet." free of charge should be washed at an union laundry; next, an issue as to a change of wages when wood was substiing from \$5 to \$8 a day, and where the discredited.-Bee. union insisted on the rule that no men employed should earn more than \$4.50 a day. A dispute finally arose as to the employment of three men, which the company offered to submit to arbitration, whereupon the men gave a three hours' ultimatum and left their benches. The works are closed and are likely to stay closed for some time to come.-Philadelphia Press.

STATISTICS of coal production in the United States show that for the year 1900 the output was the largest in the history of this country and also greater than ever mined in any country in the same length of time. The United States ranks first in agriculture, first in coal output and first in iron and steel production, along with its many other accomplishments.-Bee.

IF Alabama feels able to raise the salary of its governor to \$5,000 a year, the great state of Nebraska ought to be to pay more than \$2,500. A governor who is not worth more than \$2,500 is not worth that .- Bee.

New Plan for Inspection.

To the Burlington road is due the credit for a new departure in the way of an improved conveyance facilitating the inspection of railroad lines. The innovation consists of an "inspection engine," which is now making its first ing-car No. 3 will be re-arranged for a trip over the system. It is entirely different both in architecture and the theory of its usefulness from anything Dispatcher L. E. Cann departed for that has been constructed, and repre-

This conveyance consists of an engine, on top of which is built an observation idea, the plans and the working drawsuperintendent of the motive power; F. All are invited. H. Clark, chief mechanical engineer, and C. B. Young, chief draughtsman. Engineer and Mrs. C. K. Coleman The new creation comes from the shops

> The building of this engine resulted directly from a need of something that would render possible the inspection of tracks ahead of the train and of adjacent objects while traveling toward them, thus avoiding the necessity of waiting till the track had been passed over before examining it and being compelled to take flying glances at the objects from side or rear view. Both car and engine are very attractive, their appearance being enhanced by brass trimmings and highly decorated woodwork on the outside. Within, all finishings are of the highest order, being of polished oak, of Box Elder. Junior League at 3. Epdistinguishes the conveyance by night.-Omaha Bee.
