Elder White, the Adventist traveling missionary from Lincoln, has concluded his services and taken down his tents for service elsewhere.

Rev. W. J. Turner was called down to Indianola, Tuesday, to conduct services over the remains of Mrs. James McClung, Sr., one of the old settlers and citizens of that place.

Rev. L. M. Grigsby went down to Bloomington, Wednesday night, to assist in a camp-meeting which opened at that point on Thursday evening. He will return to hold services here, both morning and evening, next Sunday. He will be absent at Bloomington all next week, but will hold the usual services on the following Sunday.

Cost a Million Dollars.

LEAD, S. D., July 28.—(Special)—It is reported here that the price paid for the Black Hills & Fort Pierre railroad by the Burlington company was about a million dollars. Yesterday 150 section were put to work on the Fort Pierre road between Englewood and this city and the third rail will be put on as rapidly as possible. For the present the Burlington company will run all of the trains over the Black Hills & Fort Pierre road according to the same old schedule. The passenger trains will make connections with the Fremont, Elkhorn & Missouri Valley road at Piedmont, and this will be kept up until the Burlington company sees the need of a change. General Manager G. W. Holdrege of the Burlington system states that yet this year, the Deadwood Central narrow gauge road between this city and Deadwood will be operated by electricity. Trains will be run every twenty minutes instead of every hour, as at present. Pressure is being brought to bear with the city council of this city to grant the Burlington company the franchise for the right of way through Main street for an extension of the Deadwood Central road. It is the plan of the Burlington company to move the Fort Pierre passenger depot to a point more in the center of the city and use it for a union depot for both the Deadwood Central and Fort Pierre lines. The purchase of the Fort Pierre road was first thought of by J. L. Bentley, the Burlington commercial agent of Deadwood.—Lincoln Journal.

See Yellowstone Park in August.

August is the best month in the year to make a trip through Yellowstone Park—and the last half of the month is better than the first. The climate is perfect. The Middle West may be sweltering with heat, but Yellowstone Park is as cool as cool can be. It could hardly be otherwise, for it is 8,000 feet above the level of the sea, and completely surrounded by snow-capped peaks. Write to J. Francis, general passenger agent, Burlington Route, Omaha, Neb., for folder giving full information about the Park. It contains a large map of the Park, as well as a description of the principal points of interest. Excursion rates daily—ask the ticket agent about them.

General Office Comes to Omaha.

The Burlington will soon move its general office of the supply department from Plattsmouth to Omaha, as a matter of expediency in handling the business. W. Josselyn, chief of the department, is in the city today, (Monday) for the purpose of making the arrangements, and he expects to make the transfer about September 1. The supply department proper will be retained at Plattsmouth, but the business will be transacted from this point. Mr. Josselyn will bring a force of twelve men here who will take up quarters in the new headquarters building when it is completed.—Omaha News.

NORTH COLEMAN.

Mrs. H. K. Bixler has had fine success with her incubator.

District 74 is going to have a new frame school-house.

G. H. Simmerman and R. Traphagen threshed, their wheat going 1 bushel to the acre.

M. H. Cole is trying to cut up corn with a binder and thinks he will be successful.

Mrs. Wm. Shinsel and children are sojourning with her parents, Mr. and Mrs. G. H. Simmerman.

Wayne Cramer, Harry Groves, August and Fritz Coppel have gone near North Platte to make hay.

Ed and Harry Shepherd took the contract to put up 1,000 tons of hay in the northern part of the state.

I. B. Stryker lost 2 cows and a yearling by their accidentally getting on a cane patch. R. Traphagen lost a cow in the same way.

No rain for 6 weeks; still, in spite of this and hot weather most of the corn is still green and there will be a little corn if we get rain inside of a week, as the prophets say.

Mrs. Nellie Lepper had a quilting party which some from this neighborhood attended. Mrs. L., please extend your invitations a little farther to the north.

Geo. Perry and Elmer Shepherd, John and Roy Stryker, Ray Peterson and Charley Campbell have gone to Cheyenne county in response to a call for workers in the hay field.

COLEMAN.

Roy Coleman sold a fat hog, Monday.

M. H. Cole has bought a team and a colt.

There will be preaching at the Coleman school house next Sunday at 3 o'clock, fast time, by Rev. L. M. Grigsby of the First M. E. church of McCook.

Miss Isa Dwire of Taos, N. M., daughter of Rev. I. W. Dwire, who formerly lived in McCook and was pastor of the M. E. church, was visiting her relatives here, last week, Mr. and Mrs. M. H. Cole.

Rock-a-Bye Baby

These are sweet words, but how much pain and suffering they used to mean. It's different now. Since Mother's Friend has become known expectant mothers have been spared much of the anguish of childbirth. Mother's Friend is a liniment to be applied externally. It is rubbed thoroughly into the muscles of the abdomen. It gives elasticity and strength, and when the final great strain comes they respond quickly and easily without pain. Mother's Friend is never taken internally. Internal remedies at this time do more harm than good. If a

woman is supplied with this splendid liniment she need never fear rising or swelling breasts, morning sickness, or any of the discomforts which usually accompany pregnancy.

The proprietor of a large hotel in Tampa, Fla., writes: "My wife had an awful time with her first child. During her second pregnancy, Mother's Friend was used and the baby was born easily before the doctor arrived. It's certainly great."

An Abbreviation.

A colonel of a British regiment in South Africa who was repairing a railroad after one of General De Wet's many breakages discovered a fine empty house, which he proceeded to occupy as headquarters.

When the news of the colonel's comfortable quarters reached Bloemfontein, he received a telegram which read:

"G. T. M. wants house."
The colonel was unable to make out what "G. T. M." meant and inquired of officers, who translated it "general traffic manager."

"All right," said the colonel. "If he can use hieroglyphics, so can I."
So he wired back:

"G. T. M. can G. T. H."
Two days later he received a dispatch from Bloemfontein ordering him to attend a board of inquiry. On appearing in due course he was asked what he meant by sending such an insulting message to a superior officer.

"Insulting?" repeated the colonel innocently. "It was nothing of the kind."
"But what do you mean," demanded his superior. "By telling me I can 'G. T. H.'?"

"It was simply an abbreviation," replied the colonel—"G. T. M. (general traffic manager) can G. T. H. (get the house)."

The Tobacco Taste.

"Even the best judges of tobacco can't always be depended on," remarked a dealer to a reporter recently. "Sometimes their taste goes back on them, so to speak, and remains blunted for a week at a stretch. One of my customers, for instance, is a well to do merchant, who is very particular about his cigars and one of the few real connoisseurs in town. When he is in good form, he can tell more about tobacco on a superficial examination than anybody I know, with the single exception of a dealer who has a big reputation as an expert. About a month ago this gentleman began to complain about a favorite brand of very high class cigars. I knew the goods were all right and advised him to buy something else for awhile. He finally began smoking a pipe and used a cheap cut plug that he declared was the best smoke he ever tried. One day, all of a sudden, his taste returned, and he went back to the cigars. At present the bare smell of cut plug will make him sick. Strange, isn't it? They tell me that the professional samplers of tobacco take a week off every few months and never look at the weed until they return to duty. In that way they keep in condition."—Washington Star.

That Tired Feeling.

"When you hear a man complaining of 'that tired feeling,' you may be sure that he spends more of his day talking and lounging than working," said a well-known physician. "A truly hard worker never suffers from this disease, for such it is. It arises from not working off, by either mental or manual exercise or work, the superfluous energy given to every man. This energy, if left, turns itself, so to speak, to forming poisonous juices which sap the vitality. Just as a thoroughly trained athlete waits with certainty his second wind, so every really hard working business man knows that he does his best work after he has shaken off 'that tired feeling.' In fact, you will find that a really hard worker never complains of it after he has passed his 25th or 27th year, because he has then trained this energy to do its proper work—that is, keep his mind and body fresh and vigorous."

Rubber Industry in Dahomey.

An effort is being made to develop the rubber industry in Dahomey. The wild caoutchouc trees found in the region have been worked to some extent and about 1,905 kilos of rubber were exported in 1896 and 2,812 kilos in 1897. The most serious efforts in this line have been made, however, during the past two years in Porto Novo and Ouidah, where small rubber plantations of from three to five acres have been established. The young trees on these experimental farms are reported to be doing well. They are very vigorous and promise excellent returns.

No Difference Perceptible.

Jones—Very stupid girl, that Miss Wilpin.
Smith—How so?
"Why, you see, we were guessing conundrums the other evening, and I asked her what was the difference between myself and a donkey."
"Well?"
"Well? Why, by Jove, she said she didn't know."
"Well, as far as that goes, I don't either."—London Answers.

He Had Molted.

"That fellow is a bird," said the admiring stranger as he looked after the fresh young man.
"Not now," replied the native, "but there was a time when your description might have been justified."
"When was that?"
"The night we tarred and feathered him about a year ago."—Chicago Post.

Hygienic.

"Your poetry," we ventured, "is eminently healthy."
"It should be!" rejoined the poet, with dignity. "I am always extremely careful to boil my Pierian spring water before drinking, or, rather, quaffing it!"—Detroit Journal.

It is asserted that the idea of the pipe organ was borrowed from the human chest, mouth and larynx.

A Good Thing.

German Syrup is the special prescription of Dr. A. Boeche, a celebrated German physician, and is acknowledged to be one of the most fortunate discoveries in medicine. It quickly cures coughs, colds and all lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boeche's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cts.
