Reports from different localities of this part of Nebraska indicate that the rainfall ranged from four to seven inches, amounting to a perfect deluge in places. Three of the Republican river bridges or their approaches in this county were damaged, two at Indianola and one at Bartley. The east bridge at Indianola and the Bartley structure were considerably damaged. The three bridges leading into McCook escaped any considerable injury.

Seven bridges over Ash creek were taken out by the flood of water. Driftwood is said to have lost five
