From 5 to 6 inches of water fell on Saturday night, mostly being absorbed by the ground. The roads were terribly gorged. Overseer I. B. Stryker was out with a force of men to repair them, the three first days of the week. Minor rains and fog have made Oregon coast weather altogether too abundant.

The Stryker boys and Chas. Campbell have returned from Cheyenne county, where they were working in the hay fields. They saw Scott's Bluffs, Castle Rock and Court House Rock. They had a very pleasant time. Some of the hay made there is shipped to Philadelphia. About 12 miles from where they were, and while they were there, there was a dreadful hail storm. The boys were told that some hail fell as large as tumblers. John and Roy Stryker were on the ground and say that it was covered with holes as large as a hen's egg. One man protected himself by putting his head under the hay rake seat but his shoulders were badly bruised.

We are going to have school just the same and our supplies are much lower in price. The Bee Hive.

Produce just as good as cash.

An Atchison man who recently visited New York, came back thoroughly shocked. He says there is a fashion among women there to hold their skirts very high; that they seem to dress their legs for inspection, and then show them up to the knee. Nice women do it; it is the prevailing fad. The fad is expected to reach Atchison, next spring. Men are invited to get ready to have fits.—Globe.

Genius Enumerator Clawson, who is also editor of "The Herald" at Howe, Ind. T.V., writes:
To Whom it May Concern:—I was a sufferer from stomach trouble until I was induced to try a bottle of Dr. Caldwell's Syrup Pepsin and I want to say that in my opinion it has no equal as a stomach remedy. I had tried many different remedies, but none with the happy results of Dr. Caldwell's Syrup Pepsin.

The Remora Fish Not a Come-On.
R. Semon, while sailing in the Torres Straits and along the coast of Australia, threw overboard the remains of crabs of which he had eaten. Immediately there appeared from under the ship several fishes which captured these pieces and then disappeared under the vessel. Mr. Semon recognized the remora, which, with the aid of the suction fin on its back, hangs on the bottom of vessels and the bellies of larger fishes, mainly sharks, and has itself carried along. By concealing a hook in some bait Mr. Semon succeeded in landing one of them, but a second specimen could not be obtained, because the school noticed the capture of their comrade, and could not be tempted to any amount of baiting.

Extraordinary Case of Blood-Poisoning.
An extraordinary case of blood-poisoning is reported by a Vienna journal. The victim was a young girl named Schwartz, aged 22. Some days ago she went for a walk wearing a green silk blouse. She became overheated, and the dye of the material ran. Unhappily she had sustained some trifling accidental wound under the arm, and the pigment got into the blood. Upon returning home she complained of pain, but would not consent to a medical examination. The injured spot became greatly inflamed, causing intense suffering, and on the following day the physician discovered the cause. Remedies were immediately applied, but it was too late, and after a brief illness the girl died.

Cylinder Oil.
If you are looking for a good and reliable cylinder oil, no use to go any farther than S. M. Cochran & Co. They have it.
Have you noticed those Knee Pants for boys at the Bee Hive?
When you want a pleasant physic try the new remedy, Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. Price, 25 cents. Samples free at McConnell & Berry's drug store.
The most delicate constitution can safely use Ballard's Horehound Syrup. It is a sure and pleasant remedy for coughs, loss of voice, and all throat and lung troubles. Price 25 and 50c. A. McMillen.

Oil for the Children.
Give them oil—cod-liver oil. It's curious to see the result. Give it to the peevish, fretful child, and he laughs. Give it to the pale, anemic child and his face becomes rosy and full of health. Take a flat-chested child, or a child that has stopped growing, give him the oil, and he will grow big and strong like the rest.
This is not a new scheme. It has been done for years. Of course you must use the right oil. Scott's Emulsion is the one.
Scott's Emulsion neither looks nor tastes like oil because we are so careful in making it pleasant to take.
Send for free sample.
