Antique Statuary His Fad.
Stanford White is one of the largest collectors of antique statuary in America. Not only is his house in Gramercy park, New York, a veritable museum of Greek and Roman art, but the lawn is filled to overflowing with other examples.

IRONING A SHIRT WAIST.
Not infrequently a young woman finds it necessary to launder a shirt waist at home for some emergency when the laundryman or the home servant cannot do it. Hence these directions for ironing the waist: To iron summer shirt waists so that they will look like new it is essential to have them starched evenly with Defiance starch, then made perfectly smooth and rolled tight in a damp cloth, to be laid away two or three hours. When ironing have a bowl of water and a clean piece of muslin beside the ironing board. Have your iron hot, but not sufficiently so to scorch, and absolutely clean. Begin by ironing the back, then the front, sides and the sleeves, followed by the neckband and the cuffs. When wrinkles appear apply the damp cloth and remove them. Always iron from the top of the waist to the bottom. If there are plaits in the front iron them downward, after first raising each one with a blunt knife, and with the edge of the iron follow every line of stitching to give it distinctness. After the shirt waist is ironed it should be well aired by the fire or in the sun before it is folded and put away, says the Philadelphia Inquirer.

Same Old Voice.
"No man can disguise his voice in talking through a telephone," said an exchange operator to an interviewer recently. "Every person has some little peculiarity of speech that, no matter how infinitesimal it may be, is sure to be actuated and made more recognizable over the wire. The man who has a sharp ring in his voice will seem to speak more sharply; a gruff voice will be made more gruff and by the same rule an insincere voice is given a greater tone of insincerity. The speaker who chews his words has no chance at all with a good, lively 'phone. He may only contort his speech very slightly, but the 'phone will do the rest, and at the other end of the wire his remarks will be about as intelligible as a pined type."

Farce and Tragedy.
In the course of his address to the students at the opening exercises of the Baltimore Woman's college last week, President Goucher said: "A womanish man is a farce; a mannish woman is a tragedy. The enlargement of opportunity obtained through education secured in such institutions as this is attended by enlargement of responsibility from which you cannot escape. Your highest ideal should be a womanly woman."

The Life Guards' Giant to Marry.
The tallest officer in the English army is said to be Captain Oswald Ames, of the Second Life guards. The captain stands six feet eight, and is as finely proportioned as he is tall. He is to marry Miss Violet Cecil, daughter of Lady Francis Cecil. Miss Cecil is petite and fairlike.

It seems awful selfish to hear people talk of wanting to get closer to God than God is to their neighbor.

Shirt Waist Women.
The shirt waist proved a great invention. Nearly every woman wears one. The only inconvenience about the shirt waist is the trouble in ironing caused by starches that produce that hard, nerve racking effect. Defiance starch contains a chemical ingredient that does away with the trouble. Ask your grocer for it. Sixteen-oz package for 10 cents. Made by Magnetic Starch Co., Omaha, Neb.

The real object of education is to give children resources that will endure as long as life endures.—Sydney Smith.

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

THE LIVE STOCK MARKET.

Latest Quotations From South Omaha and Kansas City.
SOUTH OMAHA.
Cattle—There was a fairly liberal supply for this time of the week, but all kinds were in good demand and the market ruled active and steady to strong on all desirable grades. There were only about fifteen cars of corn-fed steers on sale and none of those was what could be called finished. Anything at all desirable, however, sold readily at steady to strong prices. Receipts included only about thirty-five cars of cows and heifers, and buyers took hold in good shape and the market was active and fully steady with yesterday. A few of the choicest bunches possibly sold a little stronger, but still the situation is best described by calling it a good, steady market. There was no particular change noticeable in the prices paid for bulls, calves and stags, as they have been selling in just about the same notches all the week. The strong demand for feeders was the most noticeable feature of the market. Buyers were all out early and paid good, strong prices for heavy cattle showing quality. The choice stockers also brought high prices. So far as the commoner grades and the medium weights are concerned, there was not much of any change, as they were neglected more or less, the same as they have been all along.

Hogs—The supply of hogs was light as compared with the arrivals of the previous days of this week, and as the demand was in good shape the market opened about steady with yesterday's average. The bulk of the sales went at \$5.97 1/2 to \$6.00. Some of the choicest loads sold from \$6.00 to \$6.05 and a few went above that figure. Commoner grades sold from \$5.97 1/2 down. It was not a particularly active market at those prices, but still the bulk of the offerings was out of first hands at a reasonably early hour.

Sheep—The receipts of sheep and lambs continued liberal and packers were even more bearish than they were yesterday. They all tried to buy their supplies lower, but as feeder buyers were numerous and anxious for supplies they could not do so. The receipts today went to feeders at about steady prices. A big string of lambs, the big proportion of which were good enough for killers, sold to a feeder for \$4.25, which was considered a steady price. Mexican wethers, in the same way, were bought by a feeder at \$3.60.

KANSAS CITY.

Cattle—Corn-fed cattle opened 10c higher and closed steady; other cattle, were steady; choice export and dressed beef steers, \$5.90 to \$6.50; fair to good, \$4.90 to \$5.85; stockers and feeders, \$2.50 to \$4.25; western fed steers, \$4.90 to \$6.30; western range steers, \$3.25 to \$4.80; Texas and Indian steers, \$2.75 to \$3.75; Texas cows, \$1.75 to \$2.75; native cows, \$2.65 to \$4.25; heifers, \$3.00 to \$5.25; canners, \$1.50 to \$2.60; bulls, \$2.25 to \$3.75; calves, \$3.00 to \$5.25.

ANTI-IMPERIALISTS' VIEWS.

Hope Roosevelt Will See Colonial Policy is Impossible.
BOSTON, Mass., Oct. 26.—The Anti-Imperialist league today issued a statement representative of its hope that President Roosevelt will take the view that a colonial policy for this government is an impossible one. The statement says: "The league members deplore the crime of crimes perpetrated at Buffalo. "Our grief for the dead, however, must not make us forget our duty to the living. The great questions which confront us must be dealt with. President McKinley has become an historical personage. His public policy can now be discussed without prejudice. We hope the country will accept the opinion that colonialism is an impossible one and that the Filipinos are capable of independent self-government. We trust that President Roosevelt may speedily arrive at this conclusion. To this judgment we shall continue to appeal by every means in our power."

BOYS DUEL WITH A NEEDLE.

Thirteen-Year-Old David Bernstein Stabs Harry Himmelfarb.
CHICAGO, Oct. 26.—A large basting needle, such as is used by tailors, was the weapon with which David Bernstein, aged 13, stabbed 17-year-old Harry Himmelfarb to death tonight. Today young brothers of the boys had a quarrel. When the older boys met tonight on the street near their homes they took up the quarrel of the little fellows. Himmelfarb, who is a coatmaker's helper, pulled from a half finished coat he was carrying home a big basting needle. He plunged it into young Bernstein's thigh and ran. Bernstein, mad with pain, pursued him, and drawing the needle from his leg, he held Himmelfarb with one hand while with the other he drove the long needle into his heart. Bernstein fled to his home, where he was shortly afterward arrested.

Throw Open Dakota Lands.

DEVILS LAKE, N. D., Oct. 26.—Major McLaughlin, inspector for the interior department, arrived and will proceed at once to Fort Totten to negotiate with the Indians for the cession of their unallotted lands. It is believed the Indians will agree to cede their surplus at a reasonable price. There are 92,000 acres on this reservation and if congress ratifies the agreement the land will doubtless be open next spring.
